49.6 To discuss the status of the establishment of AICTE Sponsored "IDEA Lab".

The Vice Chancellor, placed before the Academic Council to discuss the status of the establishment of AICTE Sponsored "IDEA Lab".

Dr. R. S. Valarmathi, Professor & Dean SoEC, presented the status of the establishment of AICTE Sponsored "IDEA Lab".

Summary Note :

AICTE-IDEA (Idea Development, Evaluation, and Application) Laboratory is being established in engineering colleges across India to help students develop their creative ideas and problem-solving skills.

This laboratory provides facilities and resources for students to turn their ideas into prototypes and will also help students to develop 21st century skills. The ultimate goal of the IDEA Laboratory is to transform engineering education and support students in becoming more creative and innovative.

AICTE – IDEA Laboratory has been sanctioned to Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology with a total cost of Rs 90 lakh, including non-recurring expenses (equipment, tools and consumables) of Rs 60 lakh and recurrent expenses (events and activities for two years) of Rs 30 lakh.

All the quotations were received from different vendors and the comparative statement was prepared to raise Purchase Orders. The major equipment are Vinyl Cutter, 3D printer, 3D Scanner, CNC router, PCB milling, Computer work station in Networking and AR/VR etc.

Prof. Rajat Gupta
Vice Chancellor

Integration of IDEA Lab with existing facilities:

Vel Tech Research Park, established at our university, houses 23 research centers and 5 CoEs to promote research, innovation, skill development, and entrepreneurship. The centers include:

- i. IoT and Smart Factory initiatives supported by the ZF Commercial Vehicles Industry Laboratory.
- ii. Centre of PCB Design & Fabrication, Bioenergy and Bio-products Centre supported by the Department of Science and Technology (DST)
- iii. National Facility for E-Waste Recycling
- iv. 3D Printing and 3D Scanning Facility
- v. Centre for Antenna Research Lab is supported by ISRO.

All the academic laboratories of the institute are also leveraged for the IDEA Laboratory. The facilities available in the R&D of various departments have been aligned with the IDEA Laboratory below:

- Design and Analysis using software like MATLAB 2023, LABVIEW V18, ANSYS 2024, XILINX 2019, DIGSILENT FACTORY 2022, CADENCE, and CCS V12.
- CDIO Lab (Conceive, Design, Implement, and Operate) workspace for freshman engineers to convert the idea into a working model.

Plan for the sustenance of IDEA Lab beyond two years:

- To establish a multidisciplinary Centre of Excellence through the IDEA Laboratory.
- Availability of the IDEA laboratory to the students 24/7 to enhance their skills and competencies.
- To organize continuous skill development courses for the students and faculty members of the host and other institutes.

- To meet the requirements of the industry's needs/expectations, value-added courses will be organized for students.
- To facilitate networking with professional resources, which include mentors, experts, and consultants for carrying out research and consultancy works in the college.
- To provide training to small-scale industries, polytechnic colleges and nearby schools.

Department of Aeronautical Engineering

Summary of 29th BOS of the Aeronautical Engineering,

Date: 20 May 2025 | **Mode:** Hybrid | **Venue:** Department Office

The 29th Board of Studies (BoS) meeting focused on key academic reforms and strategic curriculum development for both undergraduate and postgraduate Aeronautical Engineering programs. The Chair welcomed all members and introduced new appointees. The following highlights summarize the decisions and discussions:

1. Confirmation of Previous Minutes

- Action taken report and minutes of the 28th BoS (Nov 2024) were reviewed and approved.
- All members were present.

2. Key Discussions

a. Curriculum Revisions

- **B.Tech. Aeronautical (VTR UGE 2021 & R2025):**
 - New specialization electives introduced for Autonomous Drones, Aerospace & Defense, and Computational Engineering.
 - Semester-long internships now carry 6 credits, mapped to IHL, Program Elective, and Minor Project.
 - PEOs and PSOs revised after thorough stakeholder feedback. Emphasis placed on innovation, sustainability, interdisciplinary knowledge.
 - New curriculum and syllabus is proposed inline with NEP and draft regulations. Feedback analysis, benchmarking and deliberations were incorporated.
 - New specialization introduced. Minor & Honour is introduced.
- **M.Tech. Aeronautical (VTR PGE 2023):**
 - Course adjustments to reflect advancements in UAVs and defense technologies.
 - Proposed committee to include new PG programs in IDP (Space & Rocketry and Defense Technology under review.)

b. Curriculum Feedback & Benchmarking

- Strong input from industry, alumni, faculty, and students highlighted need for practical exposure, modern tools (MATLAB, Python, Ansys), and drone-related skills.
- Curriculum benchmarking completed with top institutions; feedback incorporated into final R2025 syllabus.

c. Pedagogical Initiatives

- Emphasis on Project-Based Learning (PBL) with structured rubrics.
- New committees to evaluate project relevance and CO alignment.

3. Reporting and Ratification

- MOOC, IPT, and IHL credit transfers reported.
- Budget of ₹30 lakhs for 2025–26 approved (₹14.25L non-recurring, ₹15.75L recurring).
- Ratification of new MOOC and IHL courses, including drone technologies, NDT case studies, and advanced aircraft systems.

4. Closing Remarks

- No additional items were discussed under “Any Other Business.”
- The Chair expressed gratitude for the members’ contributions.

The finalized curriculum and related annexures have been recommended for Academic Council approval.

Minutes of the 29th Board of Studies Meeting

Department of Aeronautical Engineering

The Chair welcomed all attendees to the 29th Board of Studies meeting of the Department of Aeronautical Engineering. The Chair introduced the newly appointed members of the Board and expressed gratitude to the outgoing members for their valuable contributions.

The meeting proceeded with the discussion of the following agenda items. After detailed deliberations, the recommended action items were finalized accordingly.

29.A Items for Confirmation

29.1 Action taken report on 28th BoS minutes dated 20th Jan 2024

The chairman, BOS, Aeronautical Engineering will present the action taken report of the 28th BOS.

Recommendations	Action Taken
<p>28.4 Curriculum and Syllabus for B.Tech. Aerospace Engineering as per as per NEP initiates.</p> <ul style="list-style-type: none"> Aerospace is one of the rapid growing sector especially after liberalization of space policies in India. The initiatives on In-Space clearly shows the Government Interest towards space sector and its growth. The list of companies and opportunities for students are analyzed in detail. The demand ratio of the top institutes also discussed and found public interest on space related technology. The benchmarking from top institutes are presented to members. It is decided to differ minimum 60 -70% of courses between Aerospace and Aeronautical Engineering and to focus on rocketry and satellite sector in Aerospace. The courses is modified and aligned towards India's space exploration programs and supporting aspiring space stratup in India. The feedback analysis is observed carefully and identified that skilling is need of the hour. The courses shall focus towards design, analysis and technological tools usage. 	<p>Recommended to ACM Included in IDP Proposal</p>
<p>28.5 Revision of the curriculum and syllabus for B.Tech. Aeronautical Engineering as per NEP initiates.</p> <ul style="list-style-type: none"> Aeronautical Engineering courses also proposed as per NEP structure. Aerospace and Aeronautical introductory course shall be focused on main stream respectively. Proper course names are identified for design and analysis. 	<p>Modified B.Tech. Aeronautical will be proposed in present meeting.</p>

<ul style="list-style-type: none"> • Flight dynamics and control system is modified and kept in proper order. Courses like aircraft systems is added. Specialization electives may be explored after fine tuning core courses. • MooC courses identified may be presented in next meeting. • Undergraduate Certificate and Undergraduate Diploma terminologies needs to be revisited. ITI and Diploma can be used in I& II year exit and BsC can be used in III year exit. Courses are fined to implement multiple entry and exit. Appropriate foundation courses also identified. 	
<p>28.6 Revision of curriculum and syllabus for B.Tech. Aeronautical Engineering as per VTR UGE 21 and M.Tech. Aeronautical Engineering as per VTR R23.</p> <ul style="list-style-type: none"> • List of MooC courses will be added after analyzing with NPTEL, coursera and Edx. Recommended courses will be presented in next BOS. 	<p>Recommended courses were implemented</p>

Action:

The members reviewed and confirmed the status of the action taken of the 28th Board of Studies meeting held on November 18, 2024.

29.2 Minutes of meeting of the 28th BoS dated November 18, 2024

The Chair presented the minutes of the 28th Board of Studies meeting held on November 18, 2024. The minutes were reviewed by the members.

Action:

The members reviewed and confirmed the minutes of the 28th Board of Studies meeting held on November 18, 2024.

29.3 Leave of absence of the members

All members were presented at the meeting

Action:

Noted. No leave of absence was recorded as all members were in attendance.

29.B Items for Discussions

29.4 Revision of the curriculum and syllabus for B.Tech. Aeronautical Engineering under VTR UGE 2021.

A. Addition of the courses:

1. MOOC courses are yet to be released by NPTEL for upcoming semester. After course availability, courses will be chosen and communicated to all BoS Members.

However, majority of the available courses in NPTEL & Swayam is already offered in Core. Only few courses are available apart from already available courses in core. Following courses are identified to offer as specialization elective for upcoming semester.

Specialization	Course Name & Link	Preferred Year
Aerospace & Defense	Space Environment and its Effects on Orbital Spacecrafts 12 Week / 3 Credit – https://onlinecourses.nptel.ac.in/noc25_ae35/preview	III
	Theory of Fire Propagation (Fire Dynamics) – 12 Weeks / 3 credits https://onlinecourses.nptel.ac.in/noc25_me183/preview	III
Computational Engineering	Applied Computational Fluid Dynamics / 12 Week / 3 Credit https://onlinecourses.nptel.ac.in/noc25_ae22/preview	III
Autonomous Drone Technology	Drone Systems and Control / 12 Week / 3 Credit https://onlinecourses.nptel.ac.in/noc25_ae30/preview	III
Aerospace & Defense	Space Flight Mechanics / 12 Week / 3 credit https://onlinecourses.nptel.ac.in/noc25_ae29/preview	II
Computational Engineering	Not Available in NPTEL / SWAYAM	
Autonomous Drone Technology	Not Available in NPTEL / SWAYAM	

Along with NPTEL a committee is constituted to find other certification courses relevant to MOOC for specialization courses.

2. Introduction of new set of electives for 2024-25 Admitted batch – Computational Engineering
The following Courses are added to the set of Computational Engineering Specialization Elective category.

Course Name	L	T	P	A	C	TH	Comments Received
Machine Learning for Engineering Applications	2	0	2	2	3	90	Approved without modifications

Artificial Intelligence in Aerospace Engineering	2	0	2	2	3	90	Approved without modifications
--	---	---	---	---	---	----	--------------------------------

3. The following Courses are added to the set of Autonomous Drone Technology Specialization Elective category.

Course Name	L	T	P	A	C	TH	Comments Received
Electric Propulsion for UAVs	3	0	0	2	3	90	Added without modifications
Communication Systems in Drones	3	0	0	2	3	90	Approved without modifications
Computer Vision for Drones	3	0	0	2	3	90	Approved without modifications
Drone Mission Planning and Fleet Management	3	0	0	2	3	90	Approved without modifications

B. Considering 6 month Internship for credit

The semester-long internship will be eligible for 6 credits, equivalent to one credit under Industry/Higher Learning Institute Interaction (IHL), three credits under Program Elective Course in the relevant domain and two credits under Independent Learning (Minor Project 2). For program elective, it is recommended to identify similar domain of the industry and submit a report on product / process learned at industry for evaluation. The committee constituted by Head will evaluate the report for “Drone / Defense / Design Industry Practices in Aeronautical Engineering”.

Category	Duration	Hours of Engagement	Mode of Assessment	Credits
IHL Interaction	2 weeks	45 – 70 hours	Assessment 1	1
Program Elective	6 weeks	135 – 210 hours	Assessment 2	3
Independent Learning	4 weeks	90 – 140 hours	Project Demo and Final Report Submission	2

Action :

1. The proposed courses were discussed in detail and approved by the Board of Studies (BoS) for recommendation to the Academic Council Meeting (ACM).
2. A committee needs to be constituted by HoD to find suitable solution for NPTEL courses, if courses are not available during the respective semester for respective level of the student.

29.5 Revision of the curriculum and syllabus for M.Tech. Aeronautical Engineering under VTR PGE 2023.

A. Review of Curriculum: Due to the recent developments, new policy introduction and demand in defense sector, the following revision needs to be updated for 2025-26 Admitted batch.

S.No	SEM	Course Name Theory/ Integrated courses	L	T	P	C	Comments by Members
1	1	Aircraft Engineering	3	0	0	3	No change

10	3	Introduction to Unmanned Aircraft Systems	2	0	2	3	No change
		Laboratory courses					Replace with Drone Systems and Control
11	1	Aircraft Engineering Lab	0	0	2	1	No change
12	2	Computer Aided Engineering Lab	0	0	2	1	Replace with "Drone Design Project"
		Total				34	No change

B. The following courses are added from NPTEL.

Introduction to Aircraft Design - 12 Week / 3 Credit – https://onlinecourses.nptel.ac.in/noc25_ae20/preview

C. Considering offering new PG programmes

HOD needs to review the current trend and offer PG courses in Space & Rocketry, Product Design & Development, Defense Technology. Need to form a committee and give inputs to IDP.

Action :

1. The proposed courses were discussed in detail and approved by the Board of Studies (BoS) for recommendation to the Academic Council Meeting (ACM).
2. A committee needs to be constituted by HoD to find suitable solution for NPTEL courses, if courses are not available during the respective semester for respective level of the student.

29.6 Finalization of curriculum & Syllabus for B.Tech. Aeronautical Engineering under upcoming new regulation in R2025.

Program Educational Objectives:

The chair proposed the Program Educational Objectives to the board. The board reviewed Strategic Planning document of the Department and reviewed trends of the industry.

The stakeholders suggestions are is given below:

Evaluation Statement	Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree
PEOs are well-aligned with aeronautical & space industry demands	9	7	2	0	5
PEOs are measurable and achievable	6	10	2	0	5
PEOs reflect emerging global & national challenges	9	6	3	0	5
Program fosters innovation, ethics, and sustainability	9	7	2	1	4
Current PEOs align with institute’s mission and vision	9	7	3	0	4
Statements fulfill futuristic graduate requirements (national & global development)	9	7	3	0	4

- 70–75% of responses are either Agree or Strongly Agree across all six PEO indicators.
- 20% of stakeholders (primarily students) strongly disagreed on most statements.

- Neutral responses (10%) were mainly from alumni, suggesting weak recall or unclear relevance.
 - No 'Disagree' ratings were recorded; responses leaned toward extremes (Strongly Agree/Disagree).
 - Faculty: Mostly positive, emphasizing alignment with mission and measurable outcomes.
 - Industry Experts: Appreciate innovation, ethics, and sustainability focus.
 - Students: Divided opinions; several critical of PEOs lacking focus on GATE and real-world preparation.
 - Alumni: Mixed feedback, some rated all aspects neutral—needs engagement.
 - - Lack of practical exposure and industrial integration in curriculum.
 - - PEOs perceived as generic by a few respondents.
 - - Students want clearer pathways for competitive exams
 - - Limited visibility on interdisciplinary and soft skill development.
 - Emphasis on ethics, sustainability, and global responsibility.
 - Focus on leadership and continuous learning.
 - Recognition of aeronautical engineering's national importance.
 - Strong alignment with Vel Tech's institutional vision and mission.
1. Broaden PEO 3 to explicitly mention career roles beyond R&D (e.g., sales, operations, testing).
 2. Strengthen PEO 2 to reflect preparation for certifications, and industry readiness.
 3. Add a note on interdisciplinary knowledge (AI, computing, sustainability) in PEOs.
 4. Use revised PEOs in induction, alumni engagement, and brochures to reduce 'neutral' disconnect.

After successful graduations, our graduates will

- Practice successful profession in aeronautical and allied sectors by demonstrating innovation, critical thinking, leadership, teamwork, and communication in the conception, design, development, and operation of technologies, products, and systems that address societal needs, while continuously learning and adapting to emerging technologies.
- Pursue successful careers and excel in higher studies by applying aeronautical engineering technologies, standards and critical thinking to solve complex problems and address societal needs at both national and global levels.
- Solve real-world problems by integrating technological, business, societal, ethical, and sustainable practices, while continuously improving their technical, professional, personal, and managerial competencies in emerging technologies.

2. Program Specific Outcomes:

The chair proposed the PSOs of the B.Tech. Aeronautical Engineering. Suggested to keep as bullet points. Members accepted without any modifications.

Finalized PSOs are

Program Specific Outcomes

PSO 1: Application of Emerging Technologies in Autonomous Systems:

- Design, develop, and integrate aerial vehicles with autonomous navigation, sensing, and control systems by applying aeronautical principles and advanced engineering tools;
- Solve real-world challenges in areas such as surveillance, logistics, and smart environments, while adhering to sustainable practices and ethical standards in the deployment of emerging technologies

PSO 2: Advanced Aerospace Systems Design and Integration:

- Analyse and solve complex engineering problems in aerospace and defense systems, including aerodynamics, propulsion, structural analysis, and stealth technologies.
- Solve problems in national defense requirements, system reliability, and mission-specific performance through compliance with applicable aerospace standards and ethical considerations.

PSO 3: Innovation and Product Realization for Aerospace Applications:

- Conceptualize, prototype, and validate aerospace components and systems using design thinking, simulation-driven engineering, and rapid prototyping methodologies.
- Drive innovation aligned with evolving industry and societal needs, while ensuring safety, sustainability, and professional responsibility in all phases of product development.

2. B.Tech. Aeronautical Engineering Curriculum:

The chair proposed the curriculum & syllabus for B.Tech. Aeronautical Engineering to the board.

A. Feedback Analysis:

Stakeholder feedback from industry experts, academic experts, employers, alumni, students, and parents was collected regarding the Aeronautical Engineering curriculum at Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science & Technology.

Industry Experts emphasized the need for practical skills in CAE/FEA tools (CATIA, Hypermesh, ANSYS, OpenFOAM), real-time rocket propulsion development, UAV manufacturing, certification processes, and integration of modern software like MATLAB, Python, and machine learning. They suggested reducing topic repetition and including core courses on materials, MEMS, composites, and fabrication.

Academic Experts highlighted the importance of programming skills (Python, MATLAB), laboratory exposure to hypersonics and autonomous UAV control, and inclusion of emerging topics such as satellite technology and machine learning for UAVs.

Employers requested better alignment of curriculum with industry tools and standards (ISO), more practical and internship opportunities, emphasis on system integration, and improved project management and communication skills.

Alumni called for more hands-on training on software tools, UAV manufacturing experience, and practical exposure to standards and project management.

Students reported the Aerodynamics and CFD syllabus is extensive with tough exams, and expressed the need for more practical sessions and balanced course timing.

Parents suggested inclusion of practical aircraft models and enhanced communication and leadership skill development.

Overall, the feedback advocates for enhanced practical training, integration of modern industry-relevant software and tools, focus on UAV technology and propulsion systems, improved soft skills, and optimized course structure to reduce redundancy and increase engagement.

The feedback analysis & review of aeronautical standards is given in **Annexure I**.

B. Standards

The standards related to Aeronautical Engineering is discussed in detail. The chair highlighted the benchmarking is considering stakeholders views as well as standards. The feedback analysis & review of standards is given in **Annexure I**.

C. Benchmarking of the Curriculum:

The domain coordinators and team presented the benchmarking of courses and its outcomes to the board. The harmony between course and program outcomes is explained by domain coordinators. The detailed benchmarking is given in **Annexure II**.

D. Proposed Curriculum & Feedback:

The chair proposed the curriculum to the board along with feedback received from stakeholders.

The following is the summary of feedback received on proposed curriculum.

- Total Respondents: 36+ (Academic Experts, Faculty, Students, Alumni, Employers, Industry Experts, Parents)
- Programs Evaluated: UG – B.Tech. Aeronautical Engineering & PG – M.Tech. Aeronautical Engineering (UAV)
- Evaluation Areas: Curriculum, Practical Skills, Industry Readiness, Digital Resources, Career Support
- Key strength :
 - Faculty Mentorship and Support rated Extremely High
 - Curriculum alignment with academic standards and employability goals
 - Positive feedback on library and digital resources
 - Mentoring, career guidance, and examination system highly appreciated
 - Consistent satisfaction from alumni and parents regarding student growth
- Areas for improvement:
 - Lab equipment and real-time application rated Moderate by some stakeholders
 - Curriculum update needed for emerging technologies (AI, UAVs, Cybersecurity)
 - Soft skill training and personality development programs to be enhanced
 - Industrial training and project-based learning need more emphasis

The following are the corrections suggested by the committee

Program Core

General comments - Reduce theoretical load in selected core subjects to accommodate applied learning experiences. Increase hands-on, project-based learning opportunities in both core and elective subjects. Enable students to integrate AI, Data Science, Electronics, and Materials Engineering into aeronautics projects.

Action:

The suggestions provided by the members have been duly incorporated and implemented in the B.Tech. Aeronautical Engineering curriculum and syllabus.

The Board has recommended the finalized curriculum and syllabus to the Academic Council for approval, as detailed in **Annexure – III**.

29.7 Introduction of Project Based Learning, Assessment procedures, and pedagogical Initiatives for B.Tech. - Aeronautical Engineering under upcoming new regulation in R2025.

The chair explained the status of PBL in VTR UGE 21 regulation. Members suggested to constitute the committee to scrutinize the project title and mapped with course outcomes and rubrics. No standard theory based / problem based shall be given. PBL assignment committee shall formed by Head to create, implement, monitor and evaluate the projects.

VISION AND MISSION OF THE DEPARTMENT

Vision:

To impart knowledge and excellence in Civil Engineering with global perspectives to the student community and to make them ethically strong engineers to build the nation.

Mission:

M1: To produce Civil Engineers of high calibre with advanced technical skills and ethical values to serve the society and the nation.

M2: To make the department as a centre of excellence in the field of Civil Engineering and allied research activities.

M3: To provide knowledge base and consultancy services to the community in all areas of Civil Engineering

M4: To promote innovative ideas which original thinking in the minds of budding Engineers to face the future challenges.

PROGRAMME EDUCATIONAL OBJECTIVES OF THE DEPARTMENT

PEO1: Provide Engineering design solutions for the real world problems in Structures, Environmental, Geotechnical, Water Resources, Remote Sensing and Transportation Engineering.

PEO2: Succeed and excel in their chosen professional practice/research and pursue higher education in the field of Civil engineering in reputed Institutions in India/abroad

PEO3: Make ethical decisions and demonstrate a commitment to the profession and society.

PEO4: Acquire a position that values adaptability and innovation in their profession.

PEO5: Demonstrate leadership, both in their chosen profession and in other social responsibilities.

28th BOARD OF STUDIES MEETING

Summary

Venue: Department Meeting Room

Date: 25-01-2025

- BOS members have approved the action taken report on the minutes of 27th BOS Meeting, held on 22-06-2024.
- BOS Chairman presented the Proposed Curriculum Structure for B.Tech. Civil Engineering under “VTU 2025 Regulation”. BOS Members have reviewed the Curriculum structure and Credit Split-up for each Course Category and specified the valuable suggestions and comments.
- BOS Chairman further pointed out the Proposed “List of Professional Core Courses (PCC)” under “VTU 2025 Regulation”. BOS Members have reviewed the Curriculum Structure of PCC and their Credits for each Courses and stated the valuable recommendations and comments.

Course Coordinator presented the Proposed Programme Elective Course for B.Tech. under section 7.2.3 of “VTR UGE - 2021” for the Winter Semester of AY 2024-2025 titled on “Building Information Modelling” syllabus associate with Industry Relations and approved by the Board members.

- Value added Courses under section 7.2.9 of VTR UGE - 2021 and MOOC courses recommended under Program Elective Category of section 7.2.3 were appreciated and approved by the Board members.

Minutes

Welcome Address: Chairman – BoS, welcomed the Special invitees and other members for the 28th BOS meeting.

Agenda 28.01 : **Confirmation of the Minutes of Meeting of 27th BoS held on 22.06.2024.**

Discussion : Chairman – BoS, presented the minutes of the 27th BoS held on 22.06.2024.

Action : BoS members have approved the action taken report on the minutes of 27th BoS Meeting, held on 22.06.2024.

Agenda 28.02 : **To review the Action Taken report on the Minutes of 27th BoS Meeting.**

Discussion : Chairman – BoS, highlighted the follow-up action taken on the suggestions given by the expert members. These are:

S.No	Points Discussed	Action Taken
1	A few modifications for the Programme Elective Courses Geopolymer Concrete and Special Concretes have been suggested by the Academic and Industrial Experts for M.Tech. Structural Engineering under VTR PGE 2023.	Suggested Modifications have been incorporated.
2	A few topics were suggested to be removed from the syllabus of Advanced Mathematics for M.Tech. Courses.	Suggested Topics were removed.

Agenda 28.03 : **To record leave of absence of members.**

Discussion : Our external BOS member Er. SURESH KUMAR. L. and Alumni Mr. KUSHAL KUMAR was absent in view of personal constraint.

Action : The BoS members accepted and the same was recorded.

Action : BoS Members gone through the action taken report and approved the same.

ITEMS FOR CONSIDERATION AND APPROVAL

Agenda 28.04 : **Discussion on the Curriculum Structure for VTU 2025 for B.Tech. Civil Engineering**

Discussion : BOS Chairman presented the Proposed Curriculum Structure for B.Tech. Civil Engineering under “VTU 2025 Regulation”. BOS Members have

reviewed the Curriculum structure and Credit Split-up for each Course Category and specified the valuable suggestions and comments.

Academic Expert: Dr. T. Palanisamy

- i. Suggested to propose separate FME courses for first year civil engineering students based on departmental requirements.
- ii. Suggested to offer more programme core courses in second year rather than programme elective courses.
- iii. Suggested to offer programme elective from fourth semester or third year onwards.
- iv. Advised to start capstone project from fifth semester onwards for meritorious students.
- v. Suggested to remove capstone in major project.
- vi. Advised to convert “Engineering Graphics” theory course as integrated course along with practical.
- vii. Suggested to include list of Foundation Course such as Mathematics courses offering for lateral entry students.

In addition, the BOS Chairman presented the proposed the suggestion for specialization programme in B.Tech. Civil Engineering with Specialization in Smart Infrastructure and Artificial Intelligence.

Academic Expert: Dr. T. Palanisamy

BOS members advised to check the nomenclature of programme name with AICTE.

Refer: Annexure 1

Agenda 28.05 : **Discussion on the Programme Elective Course on Building Information Modelling for B.Tech. under section 7.2.3 of VTR UGE - 2021 for the Winter Semester of AY 2024-2025.**

Discussion : BOS Chairman presented the Proposed Course Curriculum and Content for Programme Elective Course on Building Information Modelling.

Academic Expert: Dr. T. Palanisamy

BOS member appreciates the course content and approve the same.

Refer: Annexure 2

ITEMS FOR DISCUSSION AND RATIFICATION

Agenda 28.06

: Value added Courses under section 7.2.9 of VTR UGE - 2021

**Minutes of 41st Board of Studies Meeting of Mechanical Engineering
10th May 2025 at 10.00 a.m. in CASA Laboratory**

The Chairman welcomed all members and external experts to the 41st Board of Studies (BoS) meeting of the Department of Mechanical Engineering and expressed sincere appreciation for their continued support and valuable contributions to academic development.

He highlighted the importance of reviewing and updating the curriculum structure under the new VTRUGE 2025 regulations, ensuring it aligns with the National Education Policy (NEP) 2020 to promote flexibility, multidisciplinary learning, and academic innovation.

The Chairman outlined the key areas for discussion, including approval of the Ph.D. course work, summer semester offerings, semester long internships, value-added courses, self-learning (NPTEL/SWAYAM) courses, and industry-academia collaborative initiatives for the academic year 2025–26. He also noted the importance of reviewing feedback mechanisms and recognizing faculty and student achievements to drive continuous improvement.

Reaffirming the department's commitment to providing a future-ready and industry-relevant education, he invited all members to share their expert insights and constructive suggestions to guide the department's academic vision.

OPENING

41.01 To confirm and approve the 40th Board of Studies minutes of meeting held on 25th January 2025.

Discussion: The chairman –BoS briefed about the minutes of meeting of the 40th Board of Studies, held on 25th January 2025.

Action: The members noted and confirmed it.

41.02 Action taken report on Minutes of 40th BoS meeting

Discussion: The chairman –BoS presented the Action taken report on Minutes of 40th BoS meeting held on 25th January 2025.

S.No.	Agenda No.	Points Discussed	Action Taken
1.	40 BoS 01	To confirm the minutes of the 39th Board of Studies meeting, held on 22nd June 2024	Confirmed by the members of BoS
2.	40 BoS 02	To Review the Action taken report on the 39th BoS meeting	Reports were presented by the Chairman - BoS, and noted by the members.
3.	40 BoS 03	To record leave of Absence of member- Industry Expert - The leave of absence of internal members Dr. Surrya Prakash.D, Dr. Sivamurugan.P (Professors), Dr. Yogaraj.D (Assistant Professor), and the Alumni Representative Mr.Prabhu S	The member was absent for the 39th BoS meeting and the attendance has been recorded.
4.	40 BoS 04	To discuss the VTU 2025 Regulations - Curriculum structure for B.Tech Mechanical Engineering and energy resource management. Academic expert Dr. Om Kumar suggested separating Materials and Manufacturing into distinct domains instead of combining them. Regarding AI & ML electives, the Chairman of the BoS emphasized the importance of core technical courses while acknowledging that AI & ML could be introduced as electives to promote interdisciplinary learning and align with industry trends. Industry expert Mr.Ravikumar Samuthiram suggested the inclusion of Engineering Graphics (EG) for all freshman engineering students. Academic expert Dr. G.L. Samuel stressed the need to maintain consistency in the syllabus and structured content, emphasizing the inclusion of fundamental concepts to uphold the quality and coherence of the curriculum.	The Chairman ensured that the course contents would be revised as per the suggestions
5.	40 BoS 05	To discuss of courses recommended under Self Learning Courses (NPTEL/MOOC) for the winter semester 24-25	Approved NPTEL courses offered to the students

6.	40 BoS 06	Discussed the number of students awarded credits under IHL as per VTR_UGE2021 regulations (7.2.6.3)	Credits awarded to the students
7.	40 BoS 07	Discussed the number of students awarded credits under Project as per VTR_UGE2021 regulations (7.2.5.2)	Credits awarded to the students
8.	40 BoS 08	Presented the details of students participated in the Industrial visit and in-plant training	Noted by the members.
9.	40 BoS 09	Discussed the number of students awarded credits for independent learning - MOOC under Programme Elective Courses (7.2.3) and Open Elective Courses (7.2.4)	Credits awarded to the students

Resolution: The members have gone through the actions taken on the discussions and satisfied.

41.03 To record the leave of absence of members.

The Committee Resolved to record the leave of absence of the following members:

The Chairman highlighted the integration of foundational and core courses, electives, value-added/self-learning components, and project-based learning, in alignment with the National Education Policy (NEP) 2020. A key highlight was the proposal for Semester-Long Internships (SLI) to be implemented during the second and third years of the program. This initiative is designed to enhance industry readiness, provide real-world exposure, and strengthen the link between academic learning and professional practice. The proposal was well received by all members.

Dr. Om Kumar, External Academic Expert, suggested renaming the CDIO course to a more engaging title such as "Maker's Space" or "End and End Product Lab" to reflect its practical, innovation-oriented nature. The Board agreed to consider the renaming, and it was decided that the final title will be confirmed after consultation with the first-year course handling faculty.

Dr. M. Venkatasudhahar was assigned responsibility for coordinating and finalizing the course name.

Resolution:

The Board approved the proposed curriculum structure for the B.Tech. Mechanical Engineering program with the recommended revisions, including the implementation of semester-long internships during the second and third years and the pending renaming of the CDIO course.

41.05 Discussion on the list of Ph.D. Course work courses.

Discussion: The Chairman presented the list of Ph.D. course work courses offered by the Department of Mechanical Engineering.

Programme Elective						
Sl. No.	Code	Course	L	T	P	C
1	40211ME101	Advanced Fluid Mechanics	3	0	0	3
2	40211ME102	Failure Analysis of Engineering Components	3	0	0	3
3	40211ME103	Measurements in Thermal Engineering	3	0	0	3
4	40211ME104	Mechanical Behaviour of Materials	3	0	0	3
5	40211ME105	Material Characterization	3	0	0	3
6	40211ME106	High Temperature Materials	3	0	0	3
7	40211ME107	Polymers and Composite Materials	3	0	0	3
8	40211ME108	Advanced Additive Manufacturing	3	0	0	3
9	40211ME109	Industrial Safety, Health and Environmental Acts	3	0	0	3
10	40211ME110	Physical Metallurgy of alloys	3	0	0	3
11	40211ME111	Powder Metallurgy	3	0	0	3
12	40211ME112	Selection of Materials for Design	3	0	0	3
13	40211ME113	Sustainable Design	3	0	0	3

During the discussion, it was highlighted that sharing the same course codes for both PG and Ph.D. courses has been causing confusion during examinations, particularly due to the difference in evaluation schemes—PG courses being evaluated for 60 marks, and Ph.D. courses for 100 marks.

To address this issue, a new course code format for Ph.D. courses starting with 40211ME*** was proposed. The members acknowledged and appreciated this initiative to maintain clarity and proper academic distinction.

Resolution: The Board reviewed and noted the list of proposed Ph.D. courses with the updated course codes.

41.06 Discussion on the summer semester (SS) course list for the academic year (AY) 2025-26.

The Chairman presented the list of courses proposed for the Summer Semester (SS) for AY 2025–26, including core mathematics Courses and foundation-level courses handled by the Department of Mechanical Engineering.

LIST OF MATHEMATICS COURSES OFFERED FOR MECHANICAL ENGINEERING STUDENTS

Semester	Name of the Course
1 st Semester	MATRICES AND CALCULUS
2 nd Semester	PROBABILITY AND STATISTICS
3 rd Semester	TRANSFORMS AND PARTIAL DIFFERENTIAL EQUATIONS
4 th Semester	NUMERICAL METHODS

2 nd Semester	DESIGN THINKING
2 nd Semester	ENGINEERING GRAPHICS AND COMPUTER DRAFTING

41.07 Value-added courses for the AY 2025-26.

The Chairman presented the list of **proposed value-added courses** to be offered by the Department of Mechanical Engineering for AY 2025–26. These courses aim to enhance student skillsets beyond the regular curriculum and improve industry readiness.

The proposed courses focus on areas such as:

- 3D Printing and Additive Manufacturing
- Product Design Using SolidWorks/Creo
- Python Programming for Engineers
- Electric Vehicles and Battery Technology
- Industrial Automation using PLC/SCADA
- Ansys and Simulation Tools for Mechanical Analysis
- Product Life Cycle Software

Members appreciated the industry-oriented approach and encouraged including hands-on workshops and certification opportunities. It was also suggested to periodically review and update the list of value-added courses based on evolving industry trends and student feedback.

Resolution:

The Board approved the proposed value-added courses for AY 2025–26 and recommended continuous industry interaction to refine course content.

41.08 Discussion on Self-learning courses (NPTEL/SWAYAM) course list for AY 2025-26.

The Chairman presented the proposed list of NPTEL/SWAYAM self-learning courses for the July-December 2025 session, primarily focusing on 12-week courses relevant to Mechanical Engineering and interdisciplinary skill development.

13.	noc25-ge24 Non-conventional energy Resources	12 Weeks

Resolution: The Board approved the proposed list of 12-week NPTEL/SWAYAM courses for the July–December 2025 semester and recommended it.

41.09 Industry/Higher learning institute interaction courses AY 2025-26.

The Chairman initiated a discussion on Industry and Higher Learning Institute (HLI) interaction courses for the academic year 2025–26. While the list of specific courses is yet to be finalized, the Board explored tentative areas of expertise to be covered through collaborations with industry professionals and faculty from reputed institutions.

The following tentative domains were suggested for expert-led interaction:

- Industry 4.0 and Smart Manufacturing
- Advanced Welding and Non-Destructive Testing (NDT)
- Robotics and Industrial Automation
- Sustainable Product Design
- Data Analytics for Mechanical Engineers

Resolution:

The Board took note of the discussion and advised the department to finalize the course list in coordination with industry/HLI partners. Dr. D.Surrya Prakash may be designated to consolidate expert areas and coordinate future planning.

ITEMS FOR REPORTING

41.10 Interim feedback analysis of WS AY 2024-25.

The Chairman presented a summary of the interim student feedback collected during the Winter Semester (AY 2024–25). The analysis focused on teaching effectiveness, course delivery, and areas for improvement across theory and lab components.

Feedback Analysis of the Faculty Based on Student Feedback on WS24 25

Course-Wise Feedback Summary:

Course	Strengths	Areas for Improvement
Thermodynamics	Excellent clarity in fundamental laws; strong conceptual teaching	More numerical problem walkthroughs during lectures
IC Engines	Real-world examples; clear explanation of cycles and components	Use of animated visuals to enhance understanding
Refrigeration & A/C	Solid explanation of processes and diagrams	More interactive demos or lab involvement
Fluid Mechanics	Strong explanation of theoretical flow concepts	Visual demonstrations/models needed for abstract concepts
Heat Transfer	Clear breakdown of modes of heat transfer	Application-based examples and industrial relevance requested
Machine Design	Well-structured notes; effective in design process explanations	Use of CAD software or mechanical models for better engagement
Manufacturing Processes	Good process flow explanation; strong theoretical base	Inclusion of factory case studies or shop-floor examples

Overall Student Perception:

Parameter	Average Rating (out of 5)
Subject Knowledge	4.7
Clarity of Explanation	4.5
Responsiveness to Questions	4.3
Use of Teaching Aids	3.8
Engagement in Class	4.2
Practical Relevance	3.9

Common Student Comments:

- *"Explains core concepts really well. Notes are concise and helpful."*
- *"Would have more real-world case studies and hands-on sessions."*
- *"Sometimes fast-paced in complex topics – could slow down slightly."*

Resolution:

The Board appreciated the feedback review and advised faculty members to address the suggestions in upcoming semesters to enhance teaching-learning effectiveness.

41.11 Faculty and student accomplishments for CY 2025

The Chairman highlighted notable faculty and student achievements for the Calendar Year 2025, reflecting the department's continued focus on academic excellence, innovation, and industry engagement.

Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology Signs MoU with Ashok Leyland

On April 30, 2025, Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology signed a Memorandum of Understanding (MoU) with Ashok Leyland. This strategic partnership aims to foster collaboration in the areas of training, consultancy, and academic initiatives.

The MoU is expected to significantly enhance industry-academic engagement, providing students with valuable exposure to real-world practices and contributing to their overall professional development.

ISUZU-Sponsored Automobile Engine Laboratory Inaugurated at Vel Tech

The Department of Mechanical Engineering at Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology inaugurated the **ISUZU-Sponsored Automobile Engine Laboratory** on **March 27, 2025**. Established under the Corporate Social Responsibility (CSR) initiative of **Isuzu Motors India Pvt. Ltd.**, the lab is designed to strengthen hands-on learning in the field of automotive engineering. The inauguration ceremony was graced by **Mrs. Indhu S** and **Mr. Shivir Kumar Shukla** from Isuzu, who expressed their continued support for academic-industry collaboration.

ANY OTHER POINTS

The Chairman brought to attention the option of utilizing **NPTEL Plus courses** for **M.Tech scholars with pending credits**, as part of academic credit recovery and enrichment.

The following **12-week NPTEL Plus courses** were proposed for approval:

- **Organizational Behaviour**
- **Plastic Waste Management**
- **Introduction to Research**

These courses were chosen for their relevance to postgraduate learning objectives and interdisciplinary applicability.

Resolution:

The Board agreed with the proposal and recommended verifying course availability and academic mapping before approval. The department was advised to communicate the course registration process to eligible M.Tech scholars.

Dr. S. Jayavelu, Professor & Head of Mechanical Engineering and Chairman of the BoS, thanked all the members for their valuable contributions during the meeting. He expressed his appreciation for the insightful discussions and suggestions aimed at improving the department's curriculum, fostering industry collaborations, and enhancing student learning experiences. The Chairman emphasized the importance of continuous feedback and collaboration to maintain the department's commitment to excellence.

The meeting was adjourned with a note of thanks to all attendees for their participation and support in achieving the department's goals.

Vision and Mission of the Department of Biomedical Engineering

Vision

To be recognized as an excellent centre in Biomedical Engineering for imparting quality technical education that leads to transformative advancements in healthcare industries.

Mission

- M1:** To infuse **critical thinking skills** by providing a strong foundation that enables the students for continuing education
- M2:** To create an ambience of academic excellence with **state-of-the-art** laboratories to compete globally
- M3:** To establish a **dynamic research environment** that integrates advanced healthcare technologies for innovation and progress

The Programme Educational Objectives (PEOs) of the Department of Biomedical Engineering are as follows:

- PEO1:** Exhibit proficiency in **designing and analyzing** healthcare solutions to cater to the needs of the medical industry and societal needs
- PEO2:** Demonstrate professional **networking** in a diverse team setting and **collaborate** among peers with ethical practices in the workplace, ensuring integrity
- PEO3:** Reinforce **lifelong learning** practices for professional advancement not limited to higher studies and research.

AGENDA

Item for Confirmation

14.01 To confirm the MoM of the 13th BoS held on 27/12/24

14.02 To ratify the NPTEL open elective course offered for VTR UGE 2021

Items for Discussion

14.03 To review the Action Taken Report on the minutes of the 13th Board of Studies held on 27/12/2024

14.04 Discussion of R25 curriculum framework for the UG program to be offered from the Academic Year (AY) 2025 – 2026

14.05 Syllabi discussion for the UG program core to be offered in the AY 2025 - 2026 under VTR UGE 2025

14.06 List of the possible Value-Added Courses (VAC) to be offered for VTRUGE 2025

Items for Reporting

14.07 Student performance and placement details during the AY 2024 - 2025

14.08 Industrial Visits (IV) undertaken by the students during the AY 2024 – 2025

Any other items

14.09 Completion of course from program elective category, (2021-2025 Batch students) from the regular curriculum instead of MOOC under VTR UGE 2021 regulation.

The 14th BoS meeting for the Department of Bio-Medical Engineering was held on 08th May 2025 with external, internal BoS members and department faculty. The meeting started with the dissemination of vision and mission to the BoS members by the Chairman BoS and Head of the Department Dr. D. Balasubramaniam. Dr. Deepa presented the agendas, followed by a discussion of the respective agendas.

ITEM FOR CONFIRMATION

Agenda 14.01: To confirm the MoM of the 13th BoS held on 27/12/24

Discussion: The follow-up action taken on the suggestions given by the expert members_for 13th BoS was presented

Action Taken: The members recommended the same.

Agenda 14.02: To ratify the NPTEL open elective course offered for VTR UGE 2021

Discussion: The following NPTEL course under the open elective course has been presented and discussed

Agenda 14.05: Syllabi discussion for the UG program core to be offered in the AY 2025 - 2026 under VTR UGE 2025

Discussion: The content of the courses to be offered for VTR UGE 2025 in the 3rd and 4th Semester were discussed

S. No.	Course Name	Discussion
1	Human Anatomy and Physiology	Recommended
2	Analog and Digital Electronics	Recommended
3	Electric Circuit Analysis	Suggested to include magnetic circuits
4	Biomaterials	Suggested to include one unit of Tissue Engineering
5	Engineering Mechanics	Recommended
6	Biomedical Sensors and Measurements	Recommended
7	Control system in Medicine	Recommended
8	Processor and Controller Architectures	Recommended
9	Application of Pathology and Microbiology	Suggested to include 2 units- Pathology, 2 units – Microbiology and 1 unit of applications
10	Neural Networks	Recommended
11	Biochemistry and Physiology Laboratory	Suggested to include blood glucose monitoring experiments
12	Analog and Digital Electronics Laboratory	Recommended
13	Biomedical Sensors and Measurement Laboratory	Recommended
14	Processor and Controller Architectures Laboratory	Recommended
15	Medical Optics	Suggested to include retinal stimulator, LINAC, Positron Emission Tomography (PET) for therapeutic
16	Principles of Communication Systems	Recommended
17	Programming Essentials in Python	Suggested to make it a Laboratory course

Action Taken: The given suggestions have been incorporated.

Agenda 14.06: List of the possible Value-Added Courses (VAC) to be offered for VTRUGE 2025

Discussion: The following list of possible value-added courses has been presented

14th Board of Studies Minutes, Department of Biomedical Engineering, School of Electrical and Communication 08th May 2025

1	PCB Design	Recommended
2	LabVIEW for Biomedical Instrumentation	Recommended
3	Simulink for Physiological System Modeling	Recommended

Action Taken: The members recommended the above courses and suggested adding another course, **Industry 5.2 for Medical Applications**, as a VAC.

ITEMS FOR REPORTING

Agenda 14.07: Student performance and placement details during the AY 2024 – 2025

Discussion: Students achievements in Winter Semester of AY 2024–25 and placement details for final years have been presented

Action Taken: The members recommended and recorded

Agenda 14.08: Industrial Visits (IV) undertaken by the students during the AY 2024 – 2025

Discussion: The third-year and second-year students completed one-day hospital visit at Sudar Hospital, Velachery Tamil Nadu, on 26/02/2025 and at Bloom Life hospital on 21/02/2025 respectively.

Action Taken: The members recommended and recorded

ANY OTHER ITEMS

Agenda 14.09: Completion of course from program elective category, (2021-2025 Batch students) from the regular curriculum instead of MOOC under VTR UGE 2021 regulation.

Discussion: 2021-2025 batch students have completed all the courses under program/specialization electives from the existing department curriculum, instead of MOOC, which was also discussed. The mapping of the course, Introduction to Machine Learning, has been done with the NPTEL course. In addition, as the MOOC for the upcoming semester under VTR UGE 2021 was not confirmed, we have requested the member to get the approval through email for the courses to be offered in the upcoming semester for various categories, once the list of courses by NPTEL is received.

Action Taken: The members recorded the same and recommended it for approval

DEPARTMENT OF BIOTECHNOLOGY

Date : 12/05/2025

Time : 10:30 AM

Venue : Department Seminar Hall - 3212

VISION & MISSION OF THE UNIVERSITY

Vision:

- To create, translate and disseminate frontiers of knowledge embedded with creativity and innovation for a positive transformation of emerging society.

Mission:

To nurture excellence in teaching, learning, creativity and research; translate knowledge into practice; foster multidisciplinary research across science, medicine, engineering, technology and humanities; incubate entrepreneurship; instill integrity and honor; inculcate scholarly leadership towards global competence and growth beyond self in a serene, inclusive and free academic environment.

VISION & MISSION OF THE DEPARTMENT

Vision

- To adopt viable strategies to address global socioeconomic challenges in Biotechnology.

Mission

- M1: To educate and nurture socially responsible Biotechnologists who can tackle global challenges.
- M2: To build vital state of the art research facilities that impart core skills to student and faculty.
- M3: To Promote Entrepreneurship and startups.
- M4: To collaborate with world class organizations to enhance the knowledge in Industrial and Research activities.

PROGRAM EDUCATIONAL OBJECTIVES (PEOs)

1. Have a strong foundation in Biotechnology in order to gain competence towards active Research and Industrial career opportunities.
2. Have a thorough practical and problem-solving skills towards sustainable developmental goals.
3. Have confidence in technical communication skills with an extensive knowledge on sustained career advancement.

PROGRAM OUTCOMES (POs)

- 1. Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
- 2. Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences
- 3. Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
- 4. Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
- 5. Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations
- 6. The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice
- 7. Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
- 8. Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice
- 9. Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
- 10. Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- 11. Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

12. Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

PROGRAM SPECIFIC OUTCOMES (PSOs)

1. Apply knowledge and analytical abilities in Biotechnology to solve the real-world problems.
2. Develop and implement biotechnology and allied biological sciences to meet the industrial demands and social needs.
3. Impart sustainable practices in environmental and biosafety principles.

AGENDA

Date: 12/05/2025

Time: 10:30 AM

Venue: Department Seminar Hall

14 BoS 01 To confirm the Minutes of Meeting of the 13th Board of Studies, which was held on 14/02/2025

14 BoS 02 To Review the Action Taken report on the Minutes of 13th BoS Meeting

14 BoS 03 To record the leave of absence of members

ITEMS FOR CONSIDERATION AND APPROVAL

14 BoS 04 List of courses offering for the AY SS 2025-26

14 BoS 05 Discussion on NEP 2020 based Curriculum and syllabus structure (VTR UGE 2025)

14 BoS 06 Syllabus revision and discussion of the course, 10212BT104 - Agricultural Biotechnology from VTR UGE 2021 regulations

14 BoS 07 Discussion on the addition of new courses for PhD course work with different domain and research expertise.

14 BoS 08 Discussion on the list of courses offering from NPTEL platform for Program elective, Open elective and Honors courses for the AY SS 2025-26.

14 BoS 09 Discussion on the Value-added/ IHL/ Industrial courses offering for the summer semester AY SS 2025-26

14 BoS 10 Discussion on offering Biology for Engineers course as Mandatory course for first year students under VTR UGE 2025.

14 BoS 11 Discussion on the introduction of New research Program MS by Research in Biotechnology.

ITEMS FOR REPORTING

14 BoS 12 Students/ Faculty achievements

14 BoS 13 Results of Previous semester

ANY OTHER ITEMS

14 BoS 14 Completion of the course from program elective category, (2021-2025 Batch students). The similar course “Nutraceuticals” has been offered instead of NPTEL course (Functional Food and Nutraceuticals) under VTR UGE 2021 regulation.

Minutes of Meeting for 14th BoS

OPENING CALL TO ORDER

The 14th BoS meeting for B. Tech for the Department of Biotechnology was held on 12th May 2025 with Chairman, Faculty members, Academic Expert (Dr. M. Sukumar), Industry Expert in Online (Dr. Shankar Subramaniam) and Miss. Nithya Shree (Alumni).

Welcome Address: Chairman – BOS (Dr. P. Azhagu Saravana Babu), welcomed the BOS members, Special invitees and other members for the 14th BOS meeting.

The Chairman called for the meeting to order and welcomed the members and invitees.

Dr. P. Azhagu Saravana Babu presented the agenda, followed by a discussion of the respective agendas.

14 BoS 01 To confirm the Minutes of Meeting of the 13th Board of Studies, which was held on 14/02/2025

Discussion : Chairman – BOS, presented the minutes of the 14th Board of Studies held on 14/02/2025.

Action : The members confirmed the minutes of the 13th BOS meeting.

- BoS members have approved the action taken report on the minutes of 12th BoS meeting held on 26/06/2024.
- Curriculum Revision - Syllabus discussion: Requested to Modify the syllabus of Stem Cell Technology (10212BT118), Herbal and Phytochemical Engineering (10212BT125), Food Safety, Quality and Regulation (10212BT135), Biomechanics (10212BT139).
- NPTEL courses are proposed for approval Biomedical Instrumentation & Sensors, Algorithms in Computational Biology and Sequence Analysis, Certificate course in Environmental Sustainability, Data Analysis for Biologists, I Think Biology

- Industrial /Higher Learning courses offered for the Summer Semester of AY 2024-2025 were approved by the Board members.

14 BoS 02 To Review the Action Taken report on the Minutes of 13th BoS Meeting

Discussion : Chairman – BoS, highlighted the follow-up action taken on the suggestions given by the expert members.

Comments : A few modifications for the Programme Core and Elective Courses have been suggested by the Academic and Industrial Experts for B. Tech Biotechnology.

Action Taken : Suggested Modifications have been incorporated.

14 BoS 03 To record the leave of absence of members

Minutes of Meeting of the 13th Board of Studies meeting was confirmed and ratified by all the members.

Action : The BoS members accepted and the same was recorded.

ITEMS FOR CONSIDERATION AND APPROVAL

14 BoS 04 List of courses offering for the AY SS 2025-26

Discussion : The Chairman – BoS listed the Program core and Program elective courses to be offered by department, for the upcoming summer semester for the Academic Year: 2025-26

Action : Members accepted and recommended the different courses and their corresponding credits for the upcoming semester.

**14 BoS 05 : Discussion on NEP 2020 based Curriculum and syllabus structure
(VTR UGE 2025)**

Discussion : The Board discussed the revised undergraduate curriculum structure for the Biotechnology program as per the guidelines of the National Education Policy (NEP) 2020 and the VTR UGE 2025 framework. The proposed curriculum emphasizes interdisciplinary learning, skill development, research orientation, and flexibility in course choices to enhance employability and academic rigor.

(List is give below)

Action : Members accepted and recommended the new courses and their corresponding credits.

Discussion : The Board discussed the existing curriculum and proposed few modifications to 10212BT104 - Agricultural Biotechnology

- Deletion of some repeated topics from unit I and II - Agricultural Applications of Genetic Engineering, and Techniques for the addition of genes into plant cells.

Action : Members accepted modifications in the syllabus and recommended the revised syllabus.

Revised Syllabus

UNIT I	INTRODUCTION	9 hours
Basic concepts of Agriculture, Role of Genetic engineering for increasing crop productivity. Shoot - tip - cultures, shoot - tip - grafting, viricidal compound, Somatic hybridization : Protoplast isolation, culture and fusion, selection of hybrid cells and regeneration of hybrid plants. Introducing genes into pro-and eukaryotes using gene transfer methods, DNA mediated and Agrobacterium mediated transfers, microinjection, and electroporation.		
UNIT II	GENETIC ENGINEERING TECHNOLOGIES IN AGRICULTURE	9 hours
Ti plasmid and vectors, Transgenic plants, Gene cloning, Restriction Fragment Length Polymorphisms, Transposons, and Insertional mutagenesis. Molecular Farming: Plants As factories for biopharmaceuticals, Transgenic value-added specialty crops, Use of antisense RNA and other technologies, developing stress tolerant varieties, vaccine and antibody producing plants. Terminator technology, Introduction of male sterility through genetic engineering. Genetic engineering in improving nitrogen fixation in plants.		
UNIT III	BIOFERTILIZERS AND ORGANIC FARMING	9 hours
Biofertilizer: Mass cultivation of microbial inoculants, green manuring, algalization, Azolla. Microbial products and plant health: PGPR (plant growth promoting Rhizobacteria), significance of mycorrhizae, toxin producing microbes (antibiotics, aflatoxin, and others), microbial herbicides, Organic Farming: Introduction and sustainable use of natural and bioresources, Organic standards and certification of organic produce and products, Biological control, Global initiatives and future prospects.		
UNIT IV	BIODIVERSITY AND ENVIRONMENTAL PRESERVATION	9 hours
Preservation of rare plant species germplasm collection and conservation, Soil Reclamation: Phytoremediation		
UNIT V	ISSUES IN AGRICULTURE AND FOOD SECURITY	9 hours
World Food Security: Causes of food insecurity, social economic issues, ensuring food security, BIS regulations, GM food, GM Crops – Ethical challenges.		

14 BoS 07 Discussion on addition of new courses for PhD course work

Discussion : Based on the request from various external RAC members, various courses have been included with different research domain which emphasis on the enhancement of research, scientific writing, novel approach, and advanced technologies will undoubtedly improve the quality of research output.

Action : Members accepted and recommended the PhD course work courses and their corresponding credits.

14 BoS 08 List of course offering from NPTEL platform for Program elective, Open elective and Honors courses for the AY SS 2025-26

Discussion : The Chairman – BoS listed the various courses to be offered through NPTEL Platform, under MOOC option, for completing the credits for **Program elective, Open elective and Honors courses** category, during the Summer semester of the Academic Year: 2025-2026. Expert members recommended the approval of these NPTEL courses, subjected to continuous monitoring of course availability and ensuring alignment with institutional credit and assessment frameworks.

(List is give below)

Action : Members accepted and recommended the courses and their corresponding credits for the forth coming semester.

14 BoS 09 Value-added/ IHL/ Industrial courses offering for the AY SS 2025-26

Discussion : Relevant short-term industry-linked and value-added courses were proposed By the Charmian. The Board reviewed the proposed list of Value-Added Courses (VACs), Industry-Higher Learning (IHL) programs, and Industrial/Skill-based courses to be offered during the Summer Semester of the Academic Year 2025–26.

Action : The Board approved the proposed list of Value-Added, IHL, and Industry higher learning Courses for the Summer Semester 2025–26.

S.No.	Course Code / Type	Course Name	Industry/ International Details
1	Value-added course	Animal Cell Culture Techniques	AviGen Biotech, Chennai
2	Industrial course	Analytical Instrumentation Techniques-HPLC	Yet to be Decided

14 BOS 10 Discussion on offering Biology for Engineers course as Mandatory course for first year students under VTR UGE 2025

Discussion : The Board have discussed the proposal to introduce “Biology for Engineers” as a mandatory course for all first-year undergraduate students of all engineering disciplines under the VTR UGE 2025 curriculum. The initiative aligns with the National Education Policy (NEP) 2020, which encourages interdisciplinary learning and the integration of foundational sciences into engineering education.

Action : Resolved that “Biology for Engineers” be approved as a mandatory course for all first-year undergraduate students under the VTR UGE 2025 curriculum, starting from the Academic Year 2025–26.

ITEMS FOR REPORTING

14 BoS 12 Students/ Faculty achievements

Discussion : The Chairman – BOS presented the list of Students achievements in Winter Semester of AY 2024–25

Action : Members appreciated and recorded.

14 BoS 13 Results of Previous semester

Discussion : The end-semester examination results for Nov 2024 were presented during the meeting.

Action : The Members advised to improve the results of II and III year and recorded.

ANY OTHER ITEMS

14 BoS 13 Completion of course from program elective category, (2021-2025 Batch students). The similar course “Nutraceuticals” has been offered instead of NPTEL course (Functional Food and Nutraceuticals) under VTR UGE 2021 regulation.

Discussion : In program elective category, the current final year students (2021-2025 Batch students) have completed all the courses from the existing department curriculum instead NPTEL online course. The course mapping has been done with online NPTEL platform course.

- Nutraceutical course has been mapped with **Functional Food and Nutraceuticals**.

Action : The Board recommended the completion of a program elective courses done by students of the 2021–2025 batch. The course “Nutraceuticals” was offered instead of the NPTEL course “Functional Food and Nutraceuticals” under VTR UGE 2021 regulations.

The suggestions and recommendations given by all the BOS members will be incorporated and the Chairman closed the meeting with vote of thanks.

Minutes of Meeting

The Chairman-Board of Studies welcomed all the members for the BoS meeting and thanks them for sparing their valuable time. The Chair introduced the External BoS members.

Items for Confirmation

AGENDA 34.01	To confirm and approve the 33rd Board of Studies minutes of meeting held on 8th February 2025.
DISCUSSION	33 rd Board of Studies meeting minutes is presented to the members and it is confirmed for approval.
AGENDA 34.02	To record the leave of absence of members.
DISCUSSION	All the members attended the meeting.

Items for Discussion and Approval

AGENDA 34.03	B.Tech new regulations “VT UER-2025” curriculum structure.
DISCUSSION	The curriculum structure of new regulations “VT UER-2025” for B.Tech EEE Programme is presented for discussion. The experts given their recommendations for approval to the new regulations curriculum structure.
ACTION	B.Tech new regulations “VT UER-2025” curriculum structure is attached as Annexure – I.
AGENDA 34.04	Basic Electrical and Electronics Engineering course syllabus for FME.
DISCUSSION	The course contents of “Basic Electrical and Electronics Engineering” are presented for discussion. The experts have satisfied with the syllabus contents and approved the same.
ACTION	The syllabus contents for the “Basic Electrical and Electronics Engineering” course are attached as Annexure – II.
AGENDA 34.05	List of Ph.D. course work.
DISCUSSION	The list of courses to be offered as Ph.D. course work under VTR DR 2021 Regulations is presented. The expert members recommended the list of courses. Also, the syllabus contents for a course “40212EE134 - Machine Learning and Deep Learning - Fundamentals and Applications” are presented for discussion. The experts approved the course contents and suggested to offer it as a Ph.D. course work in the Program Elective category.
ACTION	The course list for Ph.D. course work and the syllabus content of “Machine Learning and Deep Learning - Fundamentals and Applications” are attached as Annexure – III.
AGENDA 34.06	Summer Semester (SS) course list for the academic year (AY) 2025-26.

DISCUSSION	The list of courses offered in the summer semester (SS) AY 2025-26 are presented to the experts. The expert members approved the list of courses.
ACTION	The list of SS course list is attached as Annexure – IV.
AGENDA 34.07	Value-added courses for the AY 2025-26.
DISCUSSION	The list of VAC to be offered for B.Tech. – EEE programme are presented. The expert members approved the list of VAC after the discussion.
ACTION	The list of VAC and the course contents are attached as Annexure-V.
AGENDA 34.08	Self-learning course (NPTEL/SWAYAM) list for AY 2025-26.
DISCUSSION	The probable list of self-learning courses to be offered from NPTEL/SWAYAM for B.Tech. – EEE and M.Tech. - Power Electronics programmes are presented for discussion. The experts have recommended the courses for approval.
ACTION	The list of recommended self-learning courses and course contents are attached in Annexure - VI.
AGENDA 34.09	Industry/Higher learning institute interaction courses AY 2025-26.
DISCUSSION	The probable list of Industry/Higher Learning Institute Interaction courses to be offered in the summer semester AY 2025-26 is presented for discussion. The experts approved the list of courses and also suggested to offer a courses related to “Human–machine interaction” and “Radial axis motor design”.
ACTION	It is attached as Annexure - VII.

Items for Reporting

AGENDA 34.10	Interim feedback analysis of Winter Semester AY 2024-25.
DISCUSSION	The interim feedback analysis summary for winter semester courses offered in the AY 2024-25 are reported to the expert members.
ACTION	The feedback report summary is attached as Annexure-VIII.
AGENDA 34.11	Faculty and student accomplishments for CY 2025.
DISCUSSION	The accomplishments and recognitions of the faculty members and students for CY 2025 are presented. The expert members greatly appreciated the involvements of students and faculty members for their academic and research activities.
ACTION	The report is attached as Annexure - IX.
AGENDA 34.12	Any other items
DISCUSSION	IDP Academic Excellence plan for EEE programme is discussed in the meeting. The experts suggested to offer a new B,Tech programme in “Electrical and Computer Engineering”. Also,

	<p>suggested to offer project based courses in the new regulations curriculum. Further, the experts requested to consider credit transfer for Patent publications.</p> <p>The strategies for increasing the admission in the existing B.Tech - EEE and M.Tech – Power Electronics programmes are discussed with experts.</p> <p>The course codes for the independent learning courses of M.Tech. Power Electronics programme are presented for ratification and the experts have approved the ratification. The course code details are attached as Annexure X.</p> <p>Industry/Higher learning institute interaction course outcome for a course “Energy Storage Systems” conducted in WS AY 2025-26 is reported to the expert members. The summary of reports is attached as Annexure XI.</p>
ACTION	The suggestions are recorded for possible implementation.

MINUTES – 43rd BOARD OF STUDIES MEETING

Item No.	Agenda
	Item for Confirmation
43.01	To confirm the minutes of meeting of the 42 nd Board of Studies held on 19.12.2024.
	Items for Discussion
43.02	To review the Action Taken Report on the minutes of 42 nd BoS Meeting held on 19.12.2024.
43.03	Discussion of VT UER - 2025 curriculum framework for the UG programme to be offered from the Academic Year (AY) 2025 – 2026.
43.04	Syllabi discussion of 3rd and 4th semesters for the UG programme core and 1st semester foundation course to be offered under VT UER - 2025.
43.05	List of Value Added Courses to be offered during Summer Semester (SS) of AY 2025 - 2026 under VTR UGE 2021.
43.06	List of one credit courses to be offered during SS 2025 - 2026 under VTR UGE 2021.
43.07	List of MOOC courses to be offered as programme elective and open elective courses under VTR UGE 2021.
43.08	Syllabi discussion of the specialization in “Integrated Circuit Technology” and the specialization in “Internet of Things”
	Items for Reporting
43.09	Student performance and placement details during the AY 2024 - 2025.
43.10	Industrial Visits (IV) underwent by the students during the AY 2024 - 2025.
43.11	Any other points

The 43rd BoS meeting started with a warm welcome by the Chairperson of the BoS. The meeting was held online and the board Chairperson briefed about the meeting proceedings and continued with the agenda.

Agenda #43.01: To confirm the minutes of meeting of the 42nd Board of Studies held on 19.12.2024.

Discussion #43.01: The BoS Chairperson briefed the action taken for the agenda points discussed in 42nd Board of Studies meeting held on 19.12.2024. The points are given below:

Item No.	Agenda
	Item for Confirmation
42.01	To confirm the minutes of meeting of the 41 st Board of Studies held on 29.06.2024.

Items for Discussion	
42.02	To review the Action Taken Report on the minutes of 41 st BoS Meeting held on 29.06.2024.
42.03	Syllabi discussion for the UG programme elective courses to be offered in the Academic Year (AY) 2024 - 25 under VTR UGE 2021.
42.04	Revision in syllabi for the UG programme core/elective courses under VTR UGE 2021.
42.05	List of Value Added Courses (VAC) to be offered during Winter Semester (WS) of AY 2024 - 25 under VTR UGE 2021.
42.06	List of one credit courses to be offered during WS 2024 - 25 under VTR UGE 2021.
42.07	List of MOOC courses to be offered as programme elective and open elective courses under VTR UGE 2021 and VTR PGE 2023.
42.08	Discussion of new specialization in VLSI Domain – “Integrated Circuit Technology”
42.09	Syllabi discussion for the PG programme elective courses to be offered in the AY 2024 - 25 under VTR PGE 2023.
42.10	Syllabus discussion of newly introduced Ph.D. course work .
Items for Reporting	
42.11	Student performance and placement details during the AY 2024 - 25.
42.12	Student and faculty achievements in NPTEL course during July 2024 - October 2024.
42.13	Industrial Visits (IV) underwent by the students during the AY 2024 - 25.
42.14	Any other points

Action #43.01: Resolved, that the minutes discussed in the 42nd Board of Studies are hereby reviewed and shall be finalized.

Agenda #43.02: To review the Action Taken Report on the minutes of 42nd BoS Meeting held on 19.12.2024.

Discussion #43.02: The following suggestions given by the BoS members during last meeting and the action taken were presented:

S.No.	Agenda Item No.	Action Taken
1.	<p>Item No. 42.03: Syllabus discussion for the UG programme elective course to be offered in the Academic Year (AY) 2024 - 2025 under VTR UGE 2021.</p> <p>The suggestions given by Dr.O R Nandagopan, Director, (DIA-RCoE), IIT Madras, external member of ACM, regarding inclusion of project and research areas in CVRDE were discussed.</p>	Based on the discussion, the syllabus for programme elective course for 3 credits on ‘Electronic Warfare Radar Antenna Systems’ and Value Added Course (VAC) on ‘Photonic Technologies’ were presented and has been approved in 48 th ACM.
2.	<p>Item No. 42.04: Revision in syllabi for the UG programme core/elective courses under VTR UGE 2021.</p>	

	<p>The following were the suggestions given by the BoS members:</p> <ol style="list-style-type: none"> <u>1. Microprocessor and Microcontroller [10211EC109]</u> – suggestion was given to retain the topic ‘Real Time Clock’. <u>2. Microprocessor and Microcontroller Laboratory [10211EC304]</u> – experiments using 8085 and 8086 microprocessors can be removed and more experiments using PIC and microcontroller could be included. 	<ol style="list-style-type: none"> The topic ‘Real Time Clock’ was retained in Unit IV - Peripheral Devices. Few introductory and basic experiments using 8085 and 8086 were retained and remaining programs were removed. <p>In addition, experiment no. 11 and 12 were replaced with embedded C program to interface sensors and actuators with PIC microcontroller using MPLAB IDE.</p> <p>The syllabi have been updated and has been approved in 48th ACM.</p>
3.	<p><u>Item No. 42.05:</u> List of VACs to be offered during Winter Semester (WS) of AY 2024 - 2025 under VTR UGE 2021.</p> <p>The BoS Chair discussed the list of 9 VACs to be offered during Winter Semester (WS) of AY 2024 - 2025 under VTR UGE 2021.</p> <p>The BoS members suggested to have fundamental programming skill course on Verilog rather than System Verilog. In addition, they suggested to include courses in VLSI having synthesizable codes and linking concepts of programming to tape out.</p>	<p>The following VACs are included for approval in the 43rd BoS meeting.</p> <ul style="list-style-type: none"> • Tools for cyber security • Autonomous Navigation and SLAM using ROS2 • System verilog for RTL design • LTE & 5G Testing • AI for Drone Dynamics – Hands on Experience • Cloud Computing • RTL Design and Verification: An Interactive Workshop on Verilog, PCIE, and AXI Protocols • Photonic Technologies • Learn and Start building Verification Testbenches in System Verilog based Verification Methodologies - OVM and UVM • Embedded IOT and its applications • RTL Architect: Using RTL Restructuring
4.	<p><u>Item No. 42.06:</u> List of one credit courses to be offered during WS 2024 - 2025 under VTR UGE 2021.</p> <p>The BoS Chair discussed the list of 5 one credit courses to be offered by the office of the Industry Relations during WS 2024 - 2025 under VTR UGE 2021 based on the stake holders feedback obtained during summer semester of AY 2024-2025.</p> <p>The BoS members suggested to have more focus on emerging fields such as VLSI, Devops, Cloud Computing and Electric</p>	<p>The following one credit courses were offered during WS2024-2025 and are included for approval in the 43rd BoS meeting.</p> <p>Courses offered by office of Industry Relations</p> <p>10215EC938 – Quantum Computing 10215EC939 – Digital Forensics with real case study 10215EC940 – Cloud Forensics 10215EC941 – Smart Automation</p>

	Vehicles.	<p>Courses offered by office of International Relations</p> <p>10215EC935 - Technologies and Practice of the Internet of Thing</p> <p>10215EC936 - Introduction and Practice of 5G/B5G Core Networks</p> <p>10215EC937 - IoT: Architecture, Applications, and Challenges</p> <p>10215EC942 - RF Energy Harvesting: Fundamentals, Design, and Simulation</p>
5.	<p>Item No. 42.07: List of MOOC courses to be offered as programme elective and open elective courses under VTR UGE 2021 and VTR PGE 2023.</p> <p>The BoS Chair discussed the list of NPTEL courses to be offered as programme elective and open elective courses under VTR UGE 2021 and VTR PGE 2023 during WS 2024-2025.</p>	<p>Eight NPTEL courses were offered as programme elective courses and 4 NPTEL courses were offered as open elective courses and were recommended and approved in 48th ACM.</p>
6.	<p>Item No. 42.08: Discussion of new specialization in VLSI Domain – ‘Integrated Circuit Technology’.</p> <p>The list of 10 courses were suggested by the professors in the VLSI domain and also BoS-industry expert, that could be offered in the new specialization namely ‘Integrated Circuit Technology’.</p>	<p>The course content of the below listed courses are to be prepared and submitted for the industry and academic expert feedback in the forthcoming BoS.</p> <ul style="list-style-type: none"> • SOC Design and Verification • SOC Design through Physical Implementation leading to Tape-Out • CAD for VLSI • FPGA Programming • Microfabrication Semiconductor and Materials • AI and ML for VLSI CAD • Design for Testability • AI Circuits • IC Packaging • Verification Tools and Techniques
7.	<p>Item No. 42.09: Syllabi discussion for the PG programme elective courses to be offered in the AY 2024 - 2025 under VTR PGE 2023.</p> <p>The PG coordinator presented the syllabi for the following programme elective courses and the suggestions provided by the BoS members are as follows:</p> <ol style="list-style-type: none"> 1. The BoS members suggested to include topics such as EV’s as they are gaining high momentum. 	<ol style="list-style-type: none"> 1. Corrections were incorporated in the course ‘Modern Automotive Electronics Systems [20232EC105]’. 2. The syllabus of the theory course ‘Machine Learning and Deep Learning [20232EC106]’ was converted to theory dominated.

	2. In addition, converting theory course ‘Machine Learning and Deep Learning [20232EC106]’ to either lab dominated or theory dominated was suggested.	
8.	<p>Item No. 42.10: Syllabus discussion of newly introduced Ph.D. course work.</p> <p>The BoS Chair presented the syllabus of newly introduced Ph.D. course work ‘IoT for Smart Farming Systems [40211EC132]’.</p>	The recommendations to include the course have been forwarded and approved in 48 th ACM.

All the members reviewed the action taken for the points discussed above and suggested to move on to next agenda.

Action #43.02: Resolved, that the action taken for the points discussed in the 42nd Board of Studies are hereby recommended for approval in the ACM.

Agenda #43.03: Discussion of R25 curriculum framework for the UG programme to be offered from the Academic Year (AY) 2025 – 2026.

Discussion #43.03: The R25 curriculum framework for UG programme with 165 credits was discussed in addition to the semester-wise course list, briefing the individual credit components L-T-P-C. The framework is structured covering foundation sciences, core engineering, electives, project-based learning, internships, and skill/value enhancement components to ensure comprehensive academic and professional development.

The semester-wise courses discussed during the meeting is attached as Annexure. The industry expert insisted to provide soft skill training from second year onwards with more concentration to communication skills to crack placement and also suggested to include components like mock interviews and resume building. The components of curriculum 2025 is given below.

S. No.	Curriculum Component (AICTE)	Course Category	Total number of credits
1	Basic Sciences	Foundation Courses	26
2	Basic Engineering		16
3	Humanities and Social Sciences		7
4	Programme Core	Programme Core	58
5	Programme Electives	Programme Electives	21
6	Multidisciplinary / Open Electives	Open Electives	9
7	Project(s)	Independent Learning (CSP/MiP.1/Internship/Major Project)	12
8	Internships		2

9	Project work, seminar and internship in industry or appropriate work place/ academic and research institutions in India/abroad	Industry/Higher Institute Learning (IHL)	2
10	Any other (Please specify)	Ability Enhancement Courses (AEC)	4
		Skill Enhancement Courses (SEC)	4
		Value Added Courses (VAC) (Including IKS)	4
11	Mandatory Non CGPA Courses – Audit Course	Mandatory Courses	0
Total number of Credits			165

Action #43.03: Resolved that the R25 curriculum framework for UG programme with 165 credits is hereby recommended for approval in the ACM.

Agenda #43.04: Syllabi discussion of 3rd and 4th semester UG programme core and 1st semester foundation course to be offered under VT UER - 2025.

Discussion #43.04: (i) The syllabi of the first semester foundation course and the 3rd and 4th semester UG programme core courses under VT UER - 2025 were discussed and the suggestions given by the BoS members for the below listed courses are as follows:

S.No.	Course Title	L	T	P	C
First year foundation course [Semester I]					
1.	Basics of Electrical and Electronics Engineering	2	0	2	3
List of programme core courses [Semester: III]					
2.	Analog Integrated Circuits	3	0	2	4
3.	Digital Electronics	2	0	2	3
4.	Signals and Systems	2	1	0	3
5.	Network Theory	2	1	0	3
List of programme core courses [Semester: IV]					
6.	Analog and Digital Communication	3	1	0	4
7.	Microprocessor and Microcontroller	3	0	0	3
8.	Electromagnetics and Transmission Lines	3	1	0	4
9.	Analog and Digital Communication Laboratory	0	0	2	1
10.	Microprocessor and Microcontroller Laboratory	0	0	2	1

The BoS members suggested to include the fundamentals of RISC architecture, protocols and instruction set either as a separate unit in the 4th semester programme core course ‘Microprocessor and Microcontroller’ upon combining 8085 and 8051 units together or to introduce a separate programme elective course on RISC.

(ii) During the syllabi discussion of 1st semester foundation course ‘Basics of Electrical and Electronics Engineering’, BoS members suggested to include a topic on CMOS if possible, so that even other department students will be aware of the latest technology and its application.

Action #43.04: The suggested topic ‘CMOS’ for first year foundation course Basic Electrical and Electronics Engineering could be included in program specific higher semester courses. The foundation course is common to the students of all the UG programs. Resolved that the suggestions to introduce RISC as a programme elective in R25 curriculum is hereby recommended for approval in the ACM.

Agenda #43.05: List of Value Added Courses (VACs) to be offered during Summer Semester (SS) of AY 2025 - 2026 under VTR UGE 2021.

Discussion #43.05: The BoS Chair discussed the list of 12 VACs to be offered during SS of AY 2025 - 2026 under VTR UGE 2021. Following is the list of VACs.

S.No.	Course Title
1.	Anomaly detection security enhancements and AI powered chatbots for IoT
2.	Mastering Python: From Basics to Pro
3.	Physical Design using Synopsys IC Compiler II
4.	IoT and embedded system for agriculture applications to satisfy SDG
5.	5G-Enabled Drones
6.	PCB design and testing
7.	Building Smart Cities with IoT: Applications & Challenges
8.	Data Analytics using python
9.	Mixed-Signal Simulation with Synopsys AMS Designer
10.	IoT and embedded system for health care applications to satisfy SDG
11.	Design and simulation of Antennas, RF & Microwave components using ANSYS HFSS
12.	Data Analytics using Python

Action #43.05: Resolved that the course list is hereby recommended by the members of the BoS for approval in the ACM.

Agenda #43.06: List of one credit courses to be offered during SS 2025 - 2026 under VTR UGE 2021.

Discussion #43.06: The BoS Chair presented the list of 4 one credit courses that were offered by the Office of Industry Relations and the list of 4 one credit courses that were offered by the Office of International Relations during WS 2024 - 2025 under VTR UGE 2021 based on the stake holders feedback obtained during SS 2024-2025.

List of 4 one credit courses offered by the Office of Industry Relations:

S.No.	Course Code	Course Name
1.	10215EC940	Cloud Forensics
2.	10215EC939	Digital Forensics with real case study
3.	10215EC938	Quantum Computing
4.	10215EC941	Smart Automation

List of one credit courses offered by the Office of International Relations:

S.No.	Course Code	Course Name
1.	10215EC937	IoT: Architecture, Applications, and Challenges
2.	10215EC936	Introduction and Practice of 5G/B5G Core Networks
3.	10215EC935	Technologies and Practice of the Internet of Thing
4.	10215EC942	RF Energy Harvesting: Fundamentals, Design, and Simulation

Action #43.06: Resolved that the course list is hereby recommended by the members of the BoS for approval in the ACM.

Agenda #43.07: List of MOOC courses to be offered as programme elective and open elective courses under VTR UGE 2021.

Discussion #43.07: The BoS Chair discussed the list of NPTEL courses to be offered as programme elective and open elective courses under VTR UGE 2021 during SS 2025-2026.

S.No.	Course Title	Duration (weeks)	Credits	Category
1.	Cloud Computing	12	3	PE
2.	Analog VLSI Design	12	3	PE
3.	Microsensors & Nanosensors	12	3	PE
4.	Problem Solving Through Programming in C	12	3	PE

5.	Applied Linear Algebra for Signal Processing, Data Analytics and Machine Learning	12	3	PE
6.	Pattern Recognition and Application	12	3	PE
7.	Introduction to Adaptive Signal Processing	8	2	PE
8.	5G Wireless Standard Design	12	3	PE
9.	Privacy and Security in Online Social Media	12	3	OE
10.	C- based VLSI design	12	3	OE
11.	Electronic Systems for Cancer Diagnosis	12	3	OE
12.	System Design for Sustainability	12	3	OE
13.	Real-Time Digital Signal Processing	12	3	OE
14.	Digital Speech Processing	8	2	OE

Action #43.07: Resolved that the inclusion of courses under Independent Learning (MOOC) category is hereby recommended for approval in the ACM, by the members of the BoS.

Agenda #43.08: Syllabi discussion of the specialization in “Integrated Circuit Technology” and the specialization in “Internet of Things”

Discussion #43.08: (i) The syllabi discussion for the proposed list of courses to be offered under the specialization ‘Integrated Circuit Technology’ for VTR UGE 2021 is given below.

S.No.	Course Name
1.	SOC Design and Verification
2.	SOC Design through Physical Implementation leading to Tape-Out
3.	CAD for VLSI
4.	FPGA Programming
5.	Microfabrication Semiconductor and Materials
6.	AI and ML for VLSI CAD
7.	Design for Testability
8.	AI Circuits
9.	IC Packaging
10.	Verification Tools and Techniques

The following are the suggestions given by BoS members for inclusion in the syllabus of the listed courses:

1. SOC Design and Verification – Introduce fundamentals of System Verilog prior to the topic on RTL. Specific IPs must be specified in the unit. Bridges and networking

concepts are mandatory before learning about IP. Since the course is about designing SoC, few design topics shall be included. Experiment 1 shall be modified for better clarity whether it is theory or practical.

2. SOC Design through Physical Implementation leading to Tape-Out – Detailed topic must be included for Unit 5. CO2 and CO5 under list of experiments shall be considered for removing the INCISIVE simulator and instead to include few experiments on floor planning, micro placement and routing.
3. CAD for VLSI, FPGA Programming and AI and ML for VLSI CAD – The courses shall be considered for the category ‘Theory dominated Integrated Course’ rather than theory course. Prerequisite of AI and ML for VLSI CAD course shall be specified as Python.
4. Microfabrication Semiconductor and Materials – Few advanced topics such as UVd and FINFET shall be considered for inclusion in the syllabus.
5. AI Circuits – Unit 3 on neuromorphic computing shall be elaborated by giving an evolution of architectures from Von Neumann in comparison to advanced AI architectures. Execution and computing algorithms in CPU vs. GPU could be included. The following topics must be available such as execution, memory and SoC bandwidth.
6. Verification Tools and Techniques – System Verilog related topics shall be introduced in the syllabus.

(ii) The syllabi discussion for the proposed list of 2 courses to be offered under the specialization “Internet of Things” for VTR UGE 2021 is given below.

S.No.	Course Name
1.	ARM System Architecture
2.	Embedded Linux

Action #43.08: Resolved that the syllabi discussed for the above listed courses are hereby recommended by the members of the BoS for approval in the ACM.

Agenda #43.09: Student performance and placement details during the AY 2024 - 2025.

Discussion #43.09: The BoS Chair reported the student performance and placement details for the AY 2024-2025. The members reviewed the percentage of results.

Action #43.09: Resolved that the performance and placement details were reported to the members of BoS.

Agenda #43.10: Industrial Visits (IV) underwent by the students during the AY 2024 - 2025.

Discussion #43.10: The BoS Chair presented the IVs underwent by the students during the WS 2024-2025. The BoS members appreciated the initiatives taken by the department for arranging IVs in good companies.

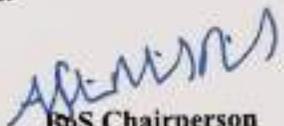

Action #43.10: Resolved more industrial collaboration will be initiated during the forthcoming academic year by way of IVs.

Agenda #43.11: Any other points:

Discussion #43.11: The BoS Chair represented that the one credit course '10215EC931-Sensor Integration with IoT' has to be renamed as 'Sensor Integration with Internet of Things' and the same be approved

Action #43.11: Resolved that the change of course name shall be approved in ACM as recommended by BoS members.

The meeting ended with a formal thanks by the Chair of BoS. The suggestions given by the external BoS members are incorporated and further it is submitted for approval in ACM.

Minutes of the Meeting

The Chair expressed his happiness in welcoming all the members for the 8th meeting of BOS and thanked them for sparing their valuable time.

08-BoS-01	Confirmation of 7 th BoS meeting minutes held on 13.12.2024.
Action taken	Chairman of BoS presented the confirmation of 7 th BoS meeting minutes held on 13.12.2024 in the programme B.Tech. Artificial Intelligence and Data Science under the regulation VTR UGE 2021. (Annexure-I)
08-BoS-02	To review the Action Taken Report on the minutes of the 7 th meeting of the Board of Studies.
Action Taken	Chairman of BoS presented the action taken report on the 7 th BoS meeting minutes held on 13.12.2024 in the programme B.Tech. Artificial Intelligence and Data Science under the regulation VTR UGE 2021. (Annexure-II)
08-BoS-03	To discuss and approve the new curriculum design keeping in view of National Education Policy (NEP) 2020, ACM IEEE, AICTE Model Curriculum, NASSCOM and Digital India Skill for B.Tech. Artificial Intelligence and Data Science - Regulation 2025. (Annexure III)
Discussion	An industry expert recommended including the Agent Systems course either as a Program Core or a Program Elective. They also suggested introducing the Massive Data Mining course as a Program Elective. Committee members proposed integrating Agile Methodology into the Software Engineering course and recommended moving the Blockchain Technology course from the Core Elective category to a General Elective. Additionally, they suggested adding Data Visualization and User Interface Design to the Open Elective offerings. The industry expert also recommended using the Julia programming language for Data Science, if feasible.
Resolution	The suggestions provided by the members have been incorporated into the curriculum, and the curriculum structure for Regulation 2025 has been approved. (Annexure III)
08-BoS-04	To discuss and approval of Online MOOCs platform course under Program Elective and Open Elective category under regulation VTR UGE 2021 with effect from Summer Semester 2025-26.
Discussion	BoS Chairman presented the Program Elective Course like Cloud Computing, Block Chain and its Applications, Introduction to Soft Computing and Machine Learning for Engineering and Science Applications were presented to the members.
Resolution	The members approved the Program Elective Courses, Open Elective Courses and course contents offered under MOOC category during Summer semester 2025-2026. (Annexure-IV)
08-BoS-05	To discuss and approval of Courses offered under the category of Industry / Higher Institute Learning Interaction (IHL) during Summer Semester 2025-26 (Annexure-V).
Discussion	Chairman of BoS presented the AI-IoT Innovation Sprint program course and the course content under IHL category.

Resolution	The members approved the course under IHL category during Summer Semester 2025-26 (Annexure-V).
08-BoS-06	To discuss the feedback on curriculum of B.Tech. Artificial Intelligence and Data Science taken for the Winter semester 2024-2025. (Annexure- VI).
Discussion	The members reviewed the action taken based on Stakeholder`s feedback on curriculum of B.Tech. Artificial Intelligence and Data Science for the Winter semester 2024-2025.
Resolution	The members approved the courses included in the curriculum under various category based on the Stake holder feedback analysis. (Annexure- VI).
08-BoS-07	Any other cognate item To discuss and approve the new format of Stakeholders feedback on Curriculum. (Annexure-VII)
Discussion	The members suggested including a remarks column for each item in the curriculum particulars.
Resolution	The members approved the new format of Stakeholders feedback analysis on Curriculum. The suggestions will be communicated to the office of the Dean Academics for further discussion. The next <i>Board of Studies (BoS)</i> meeting will be held in the month of <i>December 2025</i> .

AGENDA

Item No	Agenda
A. Opening	
40-BoS-1	Confirmation of 40 th BoS meeting minutes held on 30.12.2024. (Annexure-I)
Action Taken:	The minutes of 40 th BoS meeting minutes held on 30.12.2024 was circulated to members through e-mail, the members confirmed the minutes. [Annexure - I]
40-BoS-2	To review the Action Taken Report on the minutes of the 40 th meeting of the Board of Studies.
Action Taken:	The members reviewed the action taken report on the decisions of 40 th BoS meeting minutes held on 30.12.2024 [Annexure - II]
B. Items to be considered	
40-BoS-3	To discuss the stakeholders feedback on curriculum of B.Tech CSE taken during the Winter Semester 2024-2025
Discussion	The Chair presented the Feedback on curriculum received from various stakeholders and action taken with respect to feedback. Members appreciated the efforts taken for collecting the feedback and also for the action taken by including the suggested courses in the Curriculum
Resolution	The Suggested courses will be offered and included in the curriculum of B.Tech CSE. [Annexure - III]
C. Items for Approval	
40-BoS-4	To discuss and approve the new curriculum structure to be offered for B.Tech CSE under the new Regulation 2025 keeping in view of National Education Policy (NEP) 2020, ACM IEEE, AICTE Model Curriculum, NASSCOM and Digital India Skills to be implemented with effect from the academic year Summer 2025-2026.
Discussion	The Chair presented the new Curriculum Structure of regulation 2025 to members. It was informed that curriculum category is framed by taking inputs from NEP 2020, ACM/IEEE 2023 Curricula, AICTE Model Curriculum and from various stakeholders. The NBA Graduate Attributes (POs/PSOs), Vision, Mission and PEOs were also taken as input. SWOC analysis was made to identify the Strengths, Weakness, Opportunity and Challenges of the programme and

	Curriculum Structure was framed. The draft curriculum is placed in the Department Advisory Committee for further discussion. The experts suggested that System Design course shall be introduced as Program Core.																																																	
Resolution	The member approved the Curriculum Category and suggestions made by the members will be considered for framing of Curriculum under the regulation 2025. The Curriculum Category is defined in (Annexure –IV)																																																	
5	To discuss and approve the new course to be offered under the foundation category for B.Tech CSE under the new Regulation 2025 with effect from the Academic Year 2025-2026.																																																	
Discussion	The Chair informed that at present Problem Solving Using C Theory and Laboratory course syllabus is framed under Foundation Core category and placed before the members for approval, the same will be offered during Summer 2025-2026. The members suggested that case studies shall be included in all the Units, Storage Class and detailing of Union shall be done.																																																	
Resolution	The member approved and suggestions made by the members will be incorporated in the syllabus of Problem Solving Using C. Course Content is available in (Annexure –V)																																																	
6.	To discuss and approve the new courses to be offered under Program Elective category in various specialization for existing B.Tech CSE under the regulations VTR UGE 2021 during the Summer Semester 2025-2026.

Resolution	The suggestions made by the members will be incorporated and the same will be offered during the Academic Year 2025-2026. Course Content is available in (Annexure –VII)														
8	To discuss and approve the Value-added Courses to be offered during the Summer Semester of academic year 2025-2026 for B.Tech CSE programme.														
Discussion	The Chairman presented the Value added Courses to be offered for B.Tech CSE for Skill enhancement and Employment opportunities under the regulation VTR UGE 21 during the Summer Semester of academic year 2025-2026.														
Resolution	Experts approved the Value added Courses to be offered during Summer Semester of academic year 2025-2026. Course Content is available in (Annexure-VIII)														
9	To discuss and approve the new courses under Program Elective category, to be offered in following PG programmes during the Summer Semester 2025-2026 under the regulation VTR PGE 2023 (Annexure-IX) M.Tech -CSE a) 20232CS105 Image Processing Technique M.Tech – BDA a) 20232CS103 - Medical Image Processing														
Discussion	The Chair presented the new courses under the Program Elective Category to be offered in the PG programmes during the Summer Semester 2025-2026 under the regulation VTR PGE 2023.														
Resolution	The members approved the courses and the same will be offered during the Summer Semester 2025-2026. Course Content is available in (Annexure-IX)														
D. Item for Ratification															
10.	To ratify the courses offered by Industry Experts for B.Tech CSE for Skill enhancement and Employment opportunities under Industry/Higher Institute Interaction Learning Category during the Winter Semester of academic year 2024-2025 for B.Tech CSE.														
Discussion	The Chairman presented the courses offered by Industry Experts for B.Tech CSE for Skill enhancement and Employment opportunities under														

	Industry/Higher Institute Interaction Learning Category during the Winter Semester of academic year 2024-2025 for B.Tech CSE
Resolution	Experts ratified the courses offered by Industry Experts for B.Tech CSE for <u>Skill enhancement and Employment opportunities</u> under Industry/Higher Institute Interaction Learning Category during the Winter Semester of academic year 2024-2025 for B.Tech CSE. Course Content is available in [Annexure-X]
11.	To discuss and approve the list of courses to be offered for Ph.D Research scholars.
Discussion	The Chair presented the list of courses to be offered for Ph.D Research scholars.
Resolution	The members discussed and approved the list of courses. (Annexure-XI)
12.	To ratify the new courses under Program Elective category, offered in following PG programmes during the Winter Semester 2024-2025 under the regulation VTR PGE 2023 M.Tech -CSE 20232CS209 Quantum Computing
Discussion	The Chair presented the new courses offered under the Program Elective Category for M.Tech CSE during the Winter Semester 2024-2025 under the regulation VTR PGE 2023.
Resolution	The members ratified the course offered under the Program Elective Category for M.Tech CSE during the Winter Semester 2024-2025. Course Content is available in (Annexure-XII)
13.	Any other cognate item
Discussion	The Chair presented the various new stakeholder feedback formats to the members for their suggestions. 1. Employer / External Project Expert 2. Students 3. Alumni 4. Parents 5. Industry Experts 6. Academic Faculty Experts
Resolution	The members suggested to give some space for writing comments. For respective questions. The formats are available in (Annexure-XIII)

Minutes of the Meeting

The Chair expressed his happiness in welcoming all the members for the 6th meeting of BOS and thanked them for sparing their valuable time.

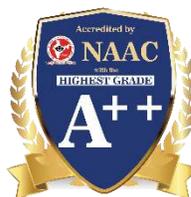

06-BoS-01	Confirmation of 5 th BoS meeting minutes held on 14.12.2024
Action Taken	Chairman of BoS presented the confirmation of 5 th BoS meeting minutes held on 14.12.2024 in the programme B.Tech Computer Science and Engineering (Cyber Security) under the regulation VTR UGE 2021. (Annexure-I)
06-BoS-02	To review the Action Taken Report on the minutes of the 5 th meeting of the Board of Studies.
Action Taken	Chairman of BoS presented the action taken report on the 5 th BoS meeting minutes held on 14.12.2024 in the programme B.Tech Computer Science and Engineering (Cyber Security) under the regulation VTR UGE 2021. (Annexure-II)
06-BoS-03	Discussion and Approval of the New Curriculum Structure for B.Tech. CSE (Cyber Security) – Regulation 2025
Action Taken	<ol style="list-style-type: none">1. The Chairman BoS presented the proposed new curriculum structure for the B.Tech. Computer Science and Engineering (Cyber Security) program under Regulation 2025. The structure outlined in Annexure-III has been developed in alignment with the latest industry standards, academic benchmarks, and NEP 2020 guidelines. The Board is requested to review, discuss, and grant approval for implementation starting from the academic year 2025-26.2. The curriculum has been reviewed by the Board of Studies (BoS) Experts, and the following suggestions were made in Program Core Category to include Secure Coding and Big Data Analytics as a core subject to strengthen foundational security practices and to address emerging data analysis needs in cybersecurity. Then the Program Elective Course Category they suggest to include API Security and Cloud Security as elective subjects to broaden the scope of specialized security domains.3. During the discussion, the Board of Studies (BoS) experts recommended that the course “Ethical Hacking” to be moved from the Program Elective category to the Program Core, conversely, the course “Software Project Management” was shifted from Program Core to Program Elective to allow students greater flexibility in

	selecting domain-specific electives that align with their academic interests and career aspirations.
Resolution	The suggestions provided by the members have been incorporated into the curriculum, and the curriculum structure for Regulation 2025 has been approved. (Annexure-III)
06-BoS-04	To discuss and approve the new Program Elective Courses proposed in this Board of Studies (BoS) meeting, as listed in Annexure-IV. These electives are to be offered under the B.Tech. Computer Science and Engineering (Cyber Security) programme in accordance with Regulation VTR UGE 2021, effective from the Summer Semester of the academic year 2025–2026.
Discussion	<ol style="list-style-type: none">1. The Chairman of the Board of Studies (BoS) presented the proposal to introduce new Program Elective Courses as detailed in Annexure-IV. These electives are to be offered under the B.Tech. Computer Science and Engineering (Cyber Security) programme as per Regulation VTR UGE 2021, with effect from the Summer Semester of the academic year 2025–2026.2. An expert from the Board of Studies highlighted that in the subject “Forensics in Cyber Security”, under Unit 3, the topic “Creating a forensic duplicate of a hard drive” may be removed, as the concept has already been covered in a previous module.3. The experts suggested modifying the course title “Vulnerability Analysis and Penetration Testing” to “Vulnerability Management and Penetration Testing”, as the current course content predominantly focuses on vulnerability-related topics. It was noted that only one unit addresses penetration testing, while the remaining four units are dedicated to vulnerability concepts and management. The revised title would more accurately reflect the course content and learning outcomes
Resolution	The suggestions provided by the members have been incorporated and the members approved the courses under the Program Elective category during the Summer Semester 2025- 26. (Annexure-IV)
06-BoS-05	To discuss and approval of Online MOOCs platform course under Program Elective and Open Elective Category under regulation VTR UGE 2021 with effect from Summer Semester 2025-26. (Annexure-V)
Discussion	The Chairman of the Board of Studies (BoS) presented the proposed Online MOOCs platform courses to be offered under the Program Elective and Open Elective

Minutes Of the Meeting

The Chair expressed his happiness in welcoming all the members for the 6th meeting of BOS and thanked them for sparing their valuable time.

06-BoS-01	Confirmation of 5 th BoS meeting minutes held on 19.12.2024.
Action taken	Chairman BoS presented the confirmation of 5 th BoS meeting minutes held on 19.12.2024 in the programme B.Tech Computer Science and Engineering (Artificial Intelligence & Machine Learning) under the regulation VTR UGE 2021. (Annexure-I)
06-BoS-02	To review the Action Taken Report on the minutes of the 5 th meeting of the Board of Studies.
Action Taken	Chairman BoS presented the action taken report on the 5 th BoS meeting minutes held on 19.12.2024 in the programme B.Tech Computer Science and Engineering (Artificial Intelligence & Machine Learning) under the regulation VTR UGE 2021. (Annexure-II)
06-BoS-03	To discuss and approve the new curriculum design keeping in view of National Education Policy (NEP) 2020, ACM IEEE, AICTE Model Curriculum, NASSCOM and Digital India Skill for B.Tech Computer Science and Engineering (Artificial Intelligence and Machine Learning) Regulation 2025.
Discussion	Dr. S. R. Sudarshan Iyengar, Associate Professor and Head, CSE, IIT, Ropar, suggested to give 160 credits instead of 165 credits to in line with the curriculum of National Importance Universities. In that 60% should be the Program Core and 40% should include Electives, Minor Project, Major Project, Self-learning and Hackathons. The members also suggested to refer ACM IEEE guidelines for the subject distribution and Prerequisite to initiate the development of an NEP-based curriculum and syllabus. The industry expert member suggested to add System Design and API fundamentals in the Program Core.
Resolution	The new curriculum design of B.Tech Computer Science and Engineering (Artificial Intelligence and Machine Learning) Regulation 2025 were framed based on the Computer science Curricula 2023 by ACM IEEE guidelines. The reduction of credit from 165 to 160 will be communicated to the Dean Academics for further discussion. The members approved the new curriculum design. (Annexure-III)
06-BoS-04	To discuss and approve the new courses and course contents to be offered under Program Elective category for the B.Tech Computer Science and Engineering (Artificial Intelligence and Machine Learning) programme under the regulation VTR UGE 2021 with effect from Summer Semester 2025 - 2026.
Discussion	Chairman BoS presented the Program Elective Course to be offered in Summer 2025-2026. Experts suggested to include the topics like LLM and Transformers in the Natural Language Processing.
Resolution	The members approved the courses and course contents of Program Elective courses to be offered in the programme B.Tech Computer Science and Engineering (Artificial Intelligence & Machine Learning) under the regulation VTR UGE 2021 with effect from 2023-2024. The changes given by the BoS members will be incorporated in the forthcoming curriculum Revision. Course details are shown in (Annexure-IV)

06-BoS-05	To discuss and approve the new course and course contents to be offered under Program Elective and Open Elective category in MOOC Platform for the B.Tech Computer Science and Engineering (Artificial Intelligence and Machine Learning) programme under the regulation VTR UGE 2021 with effect from Summer Semester 2025-2026.
Discussion	Chairman BoS presented the Program Elective Course like Cloud Computing, Block Chain and its Applications, Introduction to Soft Computing and Machine Learning for Engineering and Science Applications were presented to the members.
Resolution	The members approved the Program Elective Courses, Open Elective Courses and course contents offered under MOOC category during Summer semester 2025-2026. (Annexure-V)
06-BoS-06	To discuss the feedback on curriculum of B.Tech Computer Science and Engineering (Artificial Intelligence and Machine Learning) taken for the Winter semester 2024-2025.
Discussion	The members reviewed the action taken based on Stakeholder`s feedback on curriculum of B.Tech Computer Science and Engineering (Artificial Intelligence and Machine Learning) for the Winter semester 2024-2025.
Resolution	The members approved the courses included in the curriculum under various category based on the Stake holder feedback analysis for the Summer semester 2025-2026. (Annexure- VI).
06-BoS-07	To ratify the value added courses offered in Winter Semester 2024 - 25 for B.Tech Computer Science and Engineering (Artificial Intelligence and Machine Learning) under the regulation VTR UGE 2021.
Resolution	The members ratified the value added course offered during Winter Semester 2024-2025. (Annexure-VII)
06-BoS-08	Any other cognate item To discuss and approve the new format of Stakeholders feedback on Curriculum. (Annexure-VIII)
Discussion	The members suggested to consider only 3 parameters like High / Moderate / Low in the responses.
Resolution	The members approved the new format of Stakeholders feedback analysis on Curriculum. The suggestions will be communicated to the office of the Dean Academics for further discussion. The next <i>Board of Studies (BoS)</i> meeting will be held in the month of <i>December 2025</i> .

06-BoS-01	Confirmation of 5 th BoS meeting minutes held on 13.12.2024.
Action Taken:	The minutes of 5 th BoS meeting minutes held on 13.12.2024 was circulated to members through e-mail, the members confirmed the minutes. (Annexure -I)
06-BoS-02	To review the Action Taken Report on the minutes of the 5 th meeting of the Board of Studies.
Action Taken:	The members reviewed the action taken report on the decisions of 5 th BoS meeting minutes held on 13.12.2024 (Annexure - II).
06-BoS-03	To discuss and approve the curriculum structure for B.Tech Computer Science & Engineering(Data Science) VTR UER2025 (Annexure-III)
Discussion:	<p>The members discussed the curriculum structure for B.Tech Computer Science & Engineering (Data Science) VTR UER2025 and following suggestions were given regarding the curriculum structure.</p> <p>The committee members strongly emphasized the growing necessity of placing greater academic emphasis on internships, recognizing the evolving expectations of industries that increasingly demand graduates who are not only theoretically proficient but also practically equipped and industry-ready. It was recommended that the internship component be significantly enhanced to ensure it delivers meaningful hands-on experience, directly aligned with real-time industrial workflows, tools, and technologies. Members agreed that such exposure would bridge the gap between academic learning and professional practice, ultimately improving students' employability.</p> <p>Additionally, there was a consensus on the importance of establishing a well-structured and balanced credit distribution across all semesters. Members noted that students often experience academic burnout due to an overloaded course structure in specific semesters. Hence, the curriculum should be reviewed and restructured to promote a manageable and evenly distributed academic load throughout the program. This restructuring should also aim to incorporate more experiential learning, including laboratory sessions, industry-relevant projects, case studies, and practical modules, to cultivate robust technical and problem-solving skills.</p> <p>Regarding elective courses, domain experts suggested the introduction of advanced and emerging topics such as Data Science Fundamentals, Mathematical and Statistical Applications Integration within the Program Elective basket. These courses are expected to align with the evolving technological landscape and industrial demand. For the Open Elective category, the members recommended including introductory-level subjects such as Introduction to Artificial</p>

Resolution	The members approved the inclusion of the proposed course in the Program Elective category to be offered during the Summer Semester, 2025-26, as part of the B.Tech Computer Science & Engineering (Data Science) curriculum. Detailed course descriptions, including duration and credits, are documented in (Annexure-IV).						
06-BoS-04	To discuss and approval of course under Program Elective category under regulation VTR UGE 2021 with effect from Summer Semester 2025-26.						
Discussion:	Under the Program Elective category, the inclusion of the course <i>Deep Learning (DL)</i> was discussed. Members acknowledged the relevance and importance of this course, especially in the context of emerging technologies and user-centric applications. The committee appreciated how such courses complement core Machine Learning subjects by emphasizing the human aspect of intelligent system design, thereby equipping students with a broader understanding of how to develop intuitive and accessible technology solutions. Understanding DL allows students to develop intuitive and accessible technologies, such as voice assistants and personalized recommendation systems. Integrating DL into the curriculum ensures that graduates possess both theoretical knowledge and practical skills, equipping them to tackle complex challenges in the evolving tech landscape.						
Resolution	The members approved the inclusion of the proposed course in the Program Elective category to be offered during the Summer Semester, 2025-26, as part of the B.Tech Computer Science & Engineering (Data Science) curriculum. Detailed course descriptions, including duration and credits, are documented in (Annexure-IV).						
06-BoS-05	Approval of Courses offered under the category of Industry / Higher Institute Learning Interaction (IHL) during Summer Semester 2025-26 (Annexure-V).						
	S.No	Course code	Course Name	L	T	P	C
	1	10215DS####	Boot Camp on Cloud Computing	1	0	2	2

	<p>The members reviewed the proposed list of short-term courses to be offered under the Industry / Higher Institute Learning Interaction (IHL) initiative during the Summer Semester of 2025–26. These courses are designed to expose students to industry-relevant knowledge, tools, and practices in emerging areas such as Data Center Overview and Cloud Management and Monitoring.</p> <p>Members emphasized the need to strengthen the practical relevance of these offerings by facilitating structured interaction with industry professionals and subject-matter experts from reputed institutions. They recommended allocating dedicated time within the course schedule for expert sessions, real-world case discussions, and Q&A forums, which would allow students to gain firsthand insights into how theoretical concepts are applied in live industrial environments.</p> <p>Additionally, the importance of providing students with an early briefing about the objectives, scope, and structure of each course was highlighted. This would help students make informed enrolment decisions and better align their learning goals with industry expectations.</p>
Resolution	The members approved the inclusion of the <i>Program</i> under the <i>Industry / Higher Institute Learning Interaction (IHL)</i> category for the Summer Semester 2025-26. (Annexure-V).
06-BoS-06	To discuss the Stakeholders feedback on curriculum of B.Tech Computer Science & Engineering (Data Science) taken for the Winter Semester 2024-25.
Discussion	The members reviewed the action taken based on Stakeholder`s feedback on curriculum of B.Tech Computer Science & Engineering (Data Science) for the academic year 2024-25 (Winter Semester).

Agenda 18 BoS – 01 Presentation by Chair of Board of Studies

The Chairperson introduced himself and explained the curriculum for B.Sc. (Visual Communication) and B.Sc. (Multimedia) under VTR UGAS2021 Regulation. He also requested the members to give their open views on how to tune the curriculum and syllabus to the expectations of the industry.

Discussion:

Ms. Malini suggested offering more detailed Unreal Engine courses for Multimedia students to boost their skills in virtual production and gaming. She also recommended adding value-added courses like Blender for both Visual Communication and Multimedia students. These courses will help students learn important software and improve job prospects. The Board supports these ideas and encourages faculty to consider implementing them. Adding such courses will better prepare students for the media industry's evolving demands. This initiative aims to enhance student skills and employability.

Action:

The members have noted and moved on to the next agenda.

Agenda 18 BoS – 02 Students’ feedback about the Curriculum

Student Representatives:

1. Mr. Dilli Babu , III B.Sc. Visual Communication
2. Ms. Ramyya, II B.Sc. Visual Communication
3. Ms. Gayathri, I B.Sc. Visual Communication
4. Mr. Manikandan, I B.Sc. Visual Communication

Alumni Student Representative:

1. Ms. Shiva Priya – Pursuing M.A Journalism, M O P Vaishava College
2. Mr. Lalith Raghavendar – Lalith Studios, Chennai.

The BoS Chairperson asked the student representatives from each class to share their views on their curriculum. 6 students and 2 Alumni were participated in the Board of Studies meeting.

Discussion:

The following is the feedback given by the students

- Alumni : Ms. Shiva Priya (Visual Communication)
- The School of Media Technology and Communication has actively organized a range of initiatives aimed at enhancing student learning and industry readiness. These include workshops, industry expert talks, and industrial visits, which have proven to be valuable in supporting students as they pursue higher studies and professional growth.
- Alumni have expressed appreciation for the school's efforts in providing strong placement and internship opportunities, recognizing the importance of practical experience in building successful careers.
- Additionally, it has been suggested to establish various academic and creative clubs, including Art, Photography, Film, Podcasting, Language, and Dance clubs. These would serve as platforms for students to showcase their talents, build connections, and explore their creative potential alongside academic learning.

Alumni: Mr. Lalith Raghavendar (Multimedia)

- Alumni have emphasized the importance of increasing the number of industrial visits for students, recognizing these as valuable opportunities for real-world exposure and practical learning.

- He suggested to offer specialized courses such as Virtual Production and Cinematography to better prepare multimedia students for the evolving demands of the industry.
- To address the growing demand for cutting-edge technology in media, alumni have highlighted the need to incorporate training in Unreal Engine software, double-column script writing, and AI-based editing as part of the curriculum.

Currently pursuing students shared feedback about the curriculum and learning experience at the School of Media Technology and Communication:

Mr. Lalith Kumar

He said that our syllabus is more up-to-date compared to other institutions, giving them a competitive edge. And also he highlighted that the workshops conducted by the department were highly beneficial, offering practical insights and hands-on experience that complemented their academic learning.

Mr. Dilli babu

He expressed satisfaction with the current curriculum and teaching approach, stating that they had no further suggestions for improvement.

Mr. Rahul Krishna

He said that multimedia students are gaining exposure to a wider range of software tools compared to Visual Communication students, reflecting the program's focus on cutting-edge industry skills.

Ms. Manikandan

He expressed an interest in having workshops specifically focused on 2D and 3D subjects.

Ms. Ramyya

She expressed that their curriculum would be more comprehensive if it included an advanced photography course than what is currently available in Multimedia.

Ms. Gayathri

She expressed about laboratory courses required more lab hours to complete the exercises.

Action

- The Board notes with satisfaction that the current syllabus is considered up-to-date by students when compared to other institutions, providing them with a distinct competitive advantage. The emphasis on continuous curriculum review is encouraged to maintain this standard.
- Students have expressed interest in additional workshops focused on 2D and 3D subjects, including a specific request for 3D craft workshops. The Board supports the expansion of such practical sessions, recognizing their importance in developing hands-on skills vital for the media industry.
- Feedback from Visual Communication students highlighted a need for a more advanced photography course in their curriculum. The Board recommends assessing the feasibility of introducing an advanced photography module tailored specifically for Visual Communication students.
- Students appreciate the broader exposure to various software tools compared to other similar programs. The Board encourages the continuation and expansion of software training to keep pace with industry demands.

The members have noted and moved on to the next agenda.

The chairperson Dr. E. Suresh Paul explained the course curriculum to the panel.

Action Taken Report

The 5th Board of Studies (BoS) meeting for the B.Com. Programme was convened on 14th February 2025 to review and enhance the academic framework for the Winter Semester of the Academic Year 2024–2025. The primary focus of the meeting was to ensure the curriculum remains in sync with contemporary educational practices and evolving industry expectations. Prof. Dr. P. Maria Doss, PG & Research Department of Commerce, Presidency College, Chennai, recommended the targeting skill development and career preparedness. He also emphasized the need to broaden Open Elective Courses to promote interdisciplinary exposure and enhance Learning and Teaching Activities through blended learning, case-based pedagogy, and continuous assessments. Ms. J. Kavitha Vетtrikumar, Industrial Expert and Director at Deloitte India, highlighted the significance of incorporating Value-Added Courses that build industry-relevant skills such as data analytics, financial modeling, effective business communication, and digital tool proficiency, thus improving the employability quotient of graduates. Ms. Rama Ranjani, Alumna, Comcast India Engineering Center, Chennai, appreciated the current curriculum and proposed the integration of technology-driven modules focusing on digital finance, fintech innovations, and data interpretation. She also advocated for deeper alumni engagement through mentorship, guest lectures, and career support initiatives. The final recommendations from the 5th Board of Studies (BoS) meeting were incorporated to and approved by the Academic Council.

Discussion: The BoS members have approved the members for the proposed committee/panel. The experts have concluded that a minimum of six members from the proposed panel can give recommendations for the categories (a), (b), and (c).

Action: The members moved on to the next agenda.

Agenda 08 BoS - 07: Any other items

The members have suggested an internal assessment for the students who are unable to clear the NPTEL courses by considering the award of their degree.

Agenda

1. Approval of syllabus for B.Tech. Foundation Courses offered by our Department
 - (i) Chemistry for Engineers
 - (ii) Biochemistry
 - (ii) Enguneering Chemistry Lab
 - (iii) Environmental Studies and Sustainability
2. Approval of syllabus for B.Tech. Value Added Courses to FME I year students
 - (i) Intellectual Property Rights for Start-up
 - (ii) Technological Inventions and Entrepreneurial Development
3. Approval of syllabus for M.Sc. Chemistry / III Semester Programme Core Courses
 - (i) Organic Chemistry III
 - (ii) Inorganic Chemistry III
 - (iii) Physical Chemistry III
 - (iv) Inorganic Chemistry Lab
4. Approval of syllabus for M.Sc. Chemistry / I Semester Programme Core Courses
 - (i) Organic Chemistry III
 - (ii) Inorganic Chemistry III
 - (iii) Physical Chemistry III
 - (iv) Physical Chemistry Lab
5. Approval of syllabus for M.Sc. Chemistry / Programme Elective Courses
 - (i) Chemistry of Natural Products
 - (ii) Spectroscopy of Organic Compounds
 - (iii) Nanoscience and Nanotechnology
6. Approval of syllabus for Ph.D. Courseworks / Academic Year 2025-26
 - (i) Quantum Crystallography
 - (ii) Computational Chemistry
 - (iii) Nanomaterials and their applications
 - (iv) Organic Reactions and Mechanisms
 - (v) Spectroscopy and Analytical Techniques
 - (vi) Nanoscience and Nanotechnology
 - (vii) Photochemistry and Its applications
 - (viii) Nanophotonics and Nanotechnology
 - (ix) Photoscience and Its Applications

 - (xi) Electrochemistry for Energy Storage, Conversion, and Sustainable Technologies
 - (xii) Comprehensive Aspects of Advanced Polymer Methodology

Discussion

Presentation by Chairman of the Board of Studies: (i) BoS Agenda, (ii) Major Outlines of syllabi framed by Department faculty, and (ii) Sum-up of modifications.

On Agenda-1 : B.Tech. Foundation Courses offered by Chemistry Department

Course Code	Course Title	Modifications suggested in the BoS Meeting
	Chemistry for Engineers	<ol style="list-style-type: none"> 1. The Chairman BOS wished to change the name of “Engineering Chemistry” to “Chemistry for Engineers”. 2. Internal member Prof.Dr.A.Kanni Raj suggested to remove “Simple problems” from Unit-I. 3. Industry Expert Dr.Prakash Muthudoss suggested to add SDG-6 in Unit-I. 4. Dr.A.Silambarasan suggested to remove “Energy density, Power density, Cycle life and Shelf life” from Unit-II. 5. Industry Expert wished to add Modern Automobiles in Unit-II rather than in Unit-III. 6. Internal member Dr.K.Thirunavukkarasu suggested applications of lithium batteries in all fields, rather than for laptop and cell phone alone in Unit-II. 7. Internal member Prof.Dr.A.Kanni Raj wished to add a brief discussion on other commercial batteries, in addition to lithium batteries in Unit-II. 8. Chairman BOS suggested to remove “Power Alcohol versus Petrol”, “Biodiesel versus Diesel”, Ignition Temperature, Limits of Inflammability and Modern Automobiles, from Unit-III. 9. External Expert Prof.Dr.K.Venkateshwarlu suggested to remove “nanobiosensors in biomedical engineering” from Unit-IV. 10. In Beer-Lambert law, the word “no derivation” is removed from Unit-V. 11. Topics such as DFT basics for chemical reactivity. Molecular drawing, Chemdoodle for spectroscopy, basic Principles and Block Diagram for IoT and Green IoT are removed from Unit-V.
	Biochemistry	<ol style="list-style-type: none"> 1. External member Prof.Dr.K.Venkateshwarlu added “chemistry of nitrogenous bases” in Unit-I 2. Chairman BOS reshuffled topics in the II half of Unit-I as “water as universal solvent, pH, weak acids, weak bases, buffers, introduction to physiological buffers, role of biological buffers, principle of viscosity, surface tension, diffusion, osmosis in biological system” 3. The topic “structure of purines and pyrimidines” removed, and brief discussion on vitamins added, as suggested by Internal member Dr.M.Nagoor Meeran.
	Engineering Chemistry Lab	As such
	Environmental Studies and Sustainability	<ol style="list-style-type: none"> 1. Chairman BOS announced that the credit is only two, and wished to change the name of “Environmental Science and Sustainability” to “Environmental Studies and Sustainability” 2. Internal member Dr.N.Edayadulla removed topics such as timber extraction, mining and land resources from Unit-I. 3. Internal member Prof.Dr.A.Kanni Raj removed topics such as structure and function of an ecosystem, biodiversity at local level, habitat loss, poaching of wildlife, In-situ and ex-situ from Unit-II, and also removed noise pollution, pollution case studies, drought

		and tsunami from Unit-III 4. Internal member Dr.N.Edayadulla removed topics such as rain water harvesting, consumerism and waste products, wild life protection act 1972, and environmental protection rules 2020 from Unit-IV

On Agenda-2: B.Tech. Value Added Courses offered to FME (I year) students

Course Code	Course Title	Modifications suggested in the BoS Meeting
	Intellectual Property Rights for Start-up	As such
	Technological Inventions and Entrepreneurial Development	As such

On Agenda-3: M.Sc. Chemistry / III Semester / Programme Core Courses

Course Code	Course Title	Modifications suggested in the BoS Meeting
	Organic Chemistry-III	(1) External expert Dr.Prakash Muthudoss suggested to add “photodegradation of organic compounds” in Unit-I. (2) External expert Dr.Prakash Muthudoss suggested to remove DIBAL-H from Unit-IV.
	Inorganic Chemistry-III	(1) External expert Dr.K.Venkateshwarlu suggested to change “bioinorganic systems” to “bioinorganic compounds” in Unit-I & Unit-II headings (2) Internal member Dr.M.Nagoor Meeran suggested to add “nucleus structure” in Unit-IV heading and also in Unit-IV contents. (3) Internal member Dr.M.Nagoor Meeran suggested to remove “waste disposal management, pollution studies” from Unit-IV. (2) Internal member Dr.M.Nagoor Meeran suggested to add “radioactive decay series” in Unit-V heading and also in Unit-V contents.
	Physical Chemistry-III	(1) Internal member Prof.A.Kanni Raj suggested to add “types of adsorption isotherms” in Unit-I (2) Internal member Prof.A.Kanni Raj suggested to remove “chemical kinetics” from Unit-II heading. (3) External expert Dr.Prakash Muthudoss suggested to rename Unit-III title as “applications of group theory in spectroscopy”, also Unit-IV title as “applications of quantum chemistry” and Unit-V title as “approximation methods in quantum chemistry” (4) Internal member Prof.A.Kanni Raj suggested to add DFT in Unit-V
	Inorganic Chemistry Lab	As such

On Agenda-4: M.Sc. Chemistry / I Semester / Programme Core Courses

Course Code	Course Title	Modifications suggested in the BoS Meeting
	Organic Chemistry-I	(1) External expert Dr.K.Venkateshwarlu suggested to move “E & Z notations” from Unit-I to Unit-II.

		(2) External expert Dr.K.Venkateshwarlu suggested to correct “carbocation” to “carbocation” in Unit-III
	Inorganic Chemistry-I	(1) Internal member Prof.A.Kanni Raj suggested to correct “p-bonding” to “ π -bonding” in Unit-II (2) External expert Dr.Prakash Muthudoss suggested to correct semicolon to comma after $[\text{Re}_2\text{Cl}_8]^{2-}$ in Unit-V.
	Physical Chemistry-I	(1) Internal member Prof.A.Kanni Raj suggested to add “supercapacitors, EIS” in Unit-II. (2) External expert Dr.K.Venkateshwarlu suggested to correct Unit-III heading to “Application of Electrochemistry in Corrosion” (3) External expert Dr.Prakash Muthudoss suggested to add “IR spectra” and “Raman spectra” before corresponding contents.
	Physical Chemistry Lab	As such

On Agenda-5: M.Sc. Chemistry / Programme Elective Courses

Course Code	Course Title	Modifications suggested in the BoS Meeting
	Chemistry of Natural Products	(1) External expert Dr.K.Venkateshwarlu suggested to change course name from “natural product chemistry” to “chemistry of natural products” (2) External expert Dr.Prakash Muthudoss suggested to remove “structure elucidation is not required” from Units I, II, III and V. (3) External expert Dr.K.Venkateshwarlu suggested to keep “proteins and vitamins” as Unit-IV and “anthocyanins and polyphenols” and Unit-V (4) External expert Dr.Prakash Muthudoss suggested to add “Vitamins” along with “Proteins” instead of “amino acids”
	Spectroscopy of Organic Compounds	(1) External expert Dr.K.Venkateshwarlu suggested to change course name from “organic spectroscopy” to “spectroscopy of organic compounds” (2) Internal member Dr.A.Silambarasan suggested to remove “all discussion on fluorescence spectroscopy” from Unit-I. (3) External expert Dr.Prakash Muthudoss suggested to rename Unit-I title as “UV-Vis spectroscopy”, Unit-II title as “IR spectroscopy”, Unit-III title as “Proton NMR spectroscopy” and Unit-IV title as “carbon-13 NMR spectroscopy, optical rotatory dispersion and circular dichroism” (4) Internal member Prof.A.Kanni Raj suggested to add “FT-IR” in Unit-II and to remove “solving problems with UV, IR, NMR, mass spectroscopy” from Unit-V
	Nanoscience and Nanotechnology	(1) Internal member Prof.A.Kanni Raj suggested to change Unit-I title as “Fundamentals of Nanomaterials” (2) Internal member Prof.A.Kanni Raj suggested to change split words “nano partiles, nano rods, nano shells” to single words “nano partiles, nano rods, nano shells” in Unit-I, and changed Unit-II title as “nanosynthesis” (3) External expert Dr.Prakash Muthudoss suggested to add “surface analysis” before XPS in Unit-III (4) Internal member Prof.A.Kanni Raj suggested to change “nanocomposites and selected applications” to “nanocomposites

		and selected applications” in Unit-I (5) Internal member Prof.A.Kanni Raj suggested to change “key photophysical processes – current status and future trends” to “photophysical processes – Jablonski diagram”

On Agenda-6: Ph.D. Courseworks/ Academic Year 2025-26 Summer

Course Code	Course Title	Modifications suggested in the BoS Meeting
	Quantum Crystallography	As such
	Computational Chemistry	As such
	Nanomaterials and their applications	As such
	Organic Reactions and Mechanisms	As such
	Spectroscopy and Analytical Techniques	As such
	Nanoscience and Nanotechnology	As such
	Photochemistry and Its applications	As such
	Nanophotonics and Nanotechnology	As such
	Photoscience and Its Applications	As such
	Nanomaterials: Crafting and Probing the Nanoscale	As such

Action Taken

Proposed syllabi of BTech Foundation Courses, MSc Chemistry and PhD Courseworks have been modified as per the suggestions given by the External and internal members.

6	07BoS-07	Vote of Thanks

Agenda 07BoS- 01: Welcome Address by the Chairperson of the Board of Studies

Dr. Revathi.P, Head of the Department of English & Chairman of the Board of Studies, School of Science and Humanities welcomed the external & internal members and others present for the 7th Board of Studies meeting.

Discussion: The Chairman reported the academic progress and effectiveness of the *Professional Communication – II* (Course Code: 10210EN202) course, offered by the Department of English under the School of Science and Humanities, to the external members of the Board of Studies. Following a concise overview of the academic proceedings, the Chairman transferred the session to Dr. A. Rajeswari, the internal member of the Board of Studies.

Action: The Academic and Industry Experts (External Members) conveyed their appreciation and recommended to proceed with the subsequent items on the agenda.

Agenda 07BoS- 02: Discussion on the Courses framed – B.Tech. – English for Global Careers – I (25EN22201) and English for Global Careers – II (25EN22202)

Discussion: Dr. A. Rajeswari, one of the members of the Board of Studies, provided a detail overview of the introduction of two newly proposed courses – *English for Global Careers – I* (Course Code: 25EN22201) and *English for Global Careers – II* (Course Code: 25EN22202) for the first year B.Tech. Students in their first and second semester respectively, and subsequently, elucidating the reason for introduction of new courses. It was stated that the syllabi undergo updation every four years, and the newly formulated syllabi have been meticulously framed to meet with the core principles and objectives of the National Education Policy (NEP) 2020.

Action: The External Members paid keen attention to the course components, course outcomes and their corresponding knowledge levels. They understood the nuances of the newly introduced papers and its syllabus. The External Members gave the following recommendations:

- Recommended to equip faculty with updated teaching methodologies, assessment tools, and relevant resource materials to enhance teaching effectiveness.
- Suggested to organize formal/informal Faculty Development Programmes (FDPs) involving HR and recruitment specialists during campus visits to align faculty understanding with current industry expectations.
- Advised to coordinate with the Placement Dean to facilitate these FDPs at no additional cost, fostering mutual understanding between faculty and recruiters.
- Proposed to nominate faculty members for online and offline training programmes offered by reputed organisations such as:
 - British Council (Teacher Support Programmes, handbooks, customised "Train the Trainer" sessions)
 - Cambridge English Assessment (CELTA, DELTA qualifications)

- TOEFL Essentials (workshops and training sessions in Chennai)
- Recommended to partner with a reputed organisation to offer a CEFR-aligned, internationally recognised English language qualification as a value-added course for the interested students.
- Advised to provide orientation, training, and exam support at the institution to enhance student preparedness and employability.
- Suggested the university to gain Exam Centre status and access to complimentary faculty training programmes.

Agenda 07BoS- 03: Discussion on the evaluation pattern - English for Global Careers I & II (25EN22201 & 25EN22202)

Discussion: The evaluation pattern was presented to the members of the Board of Studies, accompanied by a comprehensive explanation of the marks distribution, weightage, and prioritization of the course components, as well as the methodology for calculating internal and external marks.

Action: The Board of Studies reviewed and approved the proposed evaluation pattern for *English for Global Careers I & II* (25EN22201 & 25EN22202). The external members expressed satisfaction with the structure, and the pattern was accepted as presented.

Internal Assessment Pattern

Mid Term Test – I

- Listening Assessment – 10 Marks
- Speaking Assessment – 10 Marks
- Total - 20 Marks**

Mid Term Test – II

- Grammar - 10 Marks
- Vocabulary - 10 Marks
- Reading - 10 Marks
- Writing - 10 Marks
- Total - 40 Marks (Converted to 20 Marks)**

Internal Marks – MT I (20 M) + MT II (20 M) = 40 Marks

External Assessment Pattern

CO 1	Grammar and Vocabulary	12 Marks
CO 2	Reading	12 Marks
CO 3	Writing	12 Marks
CO 4	Speaking	12 Marks
CO 5	Writing	12 Marks

External Marks - 60 Marks

English for Global Careers – I (25EN22201)

Unit – 1

9 Hours

Grammar and Vocabulary

Parts of Speech – Subject-Verb Agreement – Tenses – Framing Questions – Question Tags – Affixes – Prefix and Suffix – Compound nouns – Homophones, Homonyms and Homographs - Idioms and Proverbs – Phrasal Verbs

Unit – 2

9 Hours

Reading

Reading and its types – Comprehending Essays – Comprehending an Article – Comprehending Literary Excerpts – Comprehending a Pie Chart/bar diagrams

Unit – 3

9 Hours

Writing

Letter Writing – Formal and Informal – Punctuations – Report Writing – Accident and Feasibility Reports – Poetry Appreciation – Ozymandias by P B Shelly – Thirukkural – Chapter 40: Learning – Where The Mind Is Without Fear by Rabindranath Tagore – Instructions/ Recommendations and Process Description

Unit – 4

9 Hours

Speaking

Self-Introduction – Sharing Experiences – Role-Play – Picture and Data Interpretation – Non-Technical Presentation

Unit – 5

9 Hours

Listening

Hearing Vs Listening – Active Vs Passive Listening – Barriers to Listening – Listening to Great Speeches – Listening to TED Talks

English for Global Careers – II (25EN22202)

UNIT I

Grammar and Vocabulary

9 Hours

Voices – Abbreviations and Acronyms – Articles – Prepositions – Determiners – Logical Sequence of Sentences – Modal Verbs – Verbal Analogy – If Conditionals – One Word Substitute
- Types of Sentences Technical Vocabulary

UNIT II

9 Hours

Reading

Comprehending Newspaper Articles - Comprehending Research Articles - Comprehending Advertisements - Comprehending Sports Column - Comprehending Statistical Data

UNIT III

9 Hours

Writing

E-Mail Writing – Resume and Job Application Letter – Checklist and Itinerary Writing – Blog Writing – Minutes of Meeting – Research Article Writing – Forms, Formats and Elements.

UNIT IV

9 Hours

Speaking

Group Discussion – Debate – Mock Interview/Online Interview – Extempore Speech – Technical Presentation

UNIT V

9 Hours

Listening (Digital Literacy)

Listening to Conversations – Listening to Enquiries – Listening to Academic Discussions – Listening to Animated Movies – Listening to Interviews

Agenda 07BoS- 04: Discussion on the existing syllabus – PG syllabus

Discussion: Dr. Murugavel S, PG Coordinator discussed the existing PG courses offered by the Department and their respective credits in alignment with the regulation were discussed in detail in order to give clarity on how the course and the papers offered help in catering to the needs of the M.A. English students in terms of Language, Literature, Culture studies, Life skills and Open Elective subjects. The components of each paper, its course outcomes and the corresponding knowledge levels were explained.

Action: The External Members of the BoS accepted the existing syllabus for the PG –W.E.F. the Winter Semester of AY 2025-2026.

Agenda 07BoS- 05: Others

Dr. Vinoth Kumar M, a member of Board of Studies proposed five new guide papers for Ph.D scholars to incorporate into their coursework for the upcoming semester.

The following are the papers proposed by the board.

S. No	Course Code	Course Name	Comments
1	40211EN109	Marine Fiction and Blue Ecologies: Posthumanism, Resistance, and Spiritual Waters in the 21 st Century	The members reviewed and approved the syllabus.
2	40211EN110	Speaking Sills in ELT: Theory, Practice, and Pedagogy	The syllabus is well-structured and it can be implemented.
3	40211EN111	Queer Studies and Theories	The syllabus is well-structured and it can be implemented.
4	40211EN112	Modern Poetry and Modernism	The syllabus is well-structured and it can be implemented.
5	40211EN113	Advanced Writing Skills in English Language Teaching	The syllabus is well-structured and it can be implemented.

Action: The Academic experts carefully examined the syllabi and found the syllabi to be prompt and sufficing. Common instructions on finding appropriate research methodology and doing an extensive study on the texts taken in order to carry out a lucid research were given by the experts. The board agreed to follow the instructions.

Dr. Priyadarshini M C, Member of Board of Studies proposed the vote of thanks and the meeting came to an end at around 12.30 p.m.

The Academic Expert recommended incorporating Technology alongside Business Analytics, proposing a specialization in Business Analytics and Digital Business. He emphasized the need to enhance courses by engaging Industry Experts and introducing Industry-based certification programs.

The Industrial Expert commended the syllabus for its quality and suggested inviting subject specialists to lead courses like Industrial Psychology. He personally felt honoured to be a part of our BoS members.

The Alumni Expert shared his happiness about the department's progress, praising the efforts toward International Internship and Semester Abroad programs. He expressed gratitude for being included in the BoS meeting and acknowledged the department's initiatives with appreciation.

The Dean of the School expressed gratitude to all the BoS members for their insightful contributions in refining the courses. The Head of the Department acknowledged the unwavering support of the Management in achieving NBA Accreditation. He also extended his appreciation to the BoS members for their invaluable efforts in shaping the curriculum.

Office of the Dean Academics

Presented to the Academic Council Meeting Held on 24th May 2025

“Amendment to the Academic Regulations of B.Tech. VTR UGE 2021”

Revision No. ___/2025 and ***Effective Date:*** July 2025

Applicability: For the Students Admitted in the Academic Year 2023-24 and 2024-25

Rationale:

1. In order to enable students to complete the degree in the minimum duration, it is recommended to allow students register for at least 21 credits per semester.
2. To enable students to avail the opportunity to choose Honours Degree and/or Minor Degree Course Credits, he /she avail, additionally 6 Credits and up to maximum of 30 Credits per semester

Reference: As per the decision taken in the meeting with HoDs and Deans, held on 6th May 2025 at 2 pm in the office of the Dean Academic.

Section: 6.3. Course Registration

Clauses: 6.3.3. The student shall register a minimum of 15 credits in a semester and maximum of 25 credits, out of which minimum 12 credits shall be from 7.2.1 and/or 7.2.2.

Substitution: 6.3.3. The student shall register a minimum of ~~15~~ (21) credits in a semester and maximum of ~~25~~ (30) credits, out of which minimum 12 credits shall be from 7.2.1. and/or 7.2.2.

Note:

- A) The approval of BBA/BCA/BMS courses is on "as is where is basis" Intake Approved for BBA/BCA/BMS Course is Subject to the approval of the Concern University.
- B) From next year onwards, the EOA will be issued as per the AICTE norms and not on 'As is where is basis'

All AICTE approved Institutions are empowered to nurture ecosystems for Skilling (through Vocational courses) via making effective use of existing infrastructure facilities and human resources.

It is mandatory to comply with all the essential requirements as given in APH 2024-27 (Chapter-VI)

Important Instructions

1. As per mandatory Disclosure of APH 2024-27(Annexure-18, page180) Institutions must disclose the following information submitted to Council at the Prominent location on its website.
 - i. Department wise availability of Infrastructure along with approved courses and intake approved by the Council.
 - ii. Faculty details: Department wise: Name& Designation of the faculty members/teaching staff along with their qualification, tenure of service in your organization, total experience, Institution should also disclose Student Faculty Ratio, Cadre Ratio.
 - iii. Additionally Audited Financial Statements for last 3 Financial years.
2. Reservation Policy of the Central Government (Including EWS) / Respective State Government/ UT as the case shall be applicable to all the Programmes. The concerned State Government/ UT Admission authority shall decide Modalities of Admission.
3. The Institution offering courses earlier in the Regular Shift, First Shift, Second Shift/Part Time are now amalgamated as total intake and shall have to fulfil all facilities such as Infrastructure, Faculty and other requirements as per the norms specified in the Approval Process Handbook 2024-25 to 2027 for the Total Approved Intake.
4. In case of any differences in content in this Computer generated Extension of Approval Letter, the content/information as approved by the **Executive Council / General Council as available on the record of AICTE shall be final and binding.**
5. All AICTE institutions are highly encouraged to get NBA/NAAC accreditation. All eligible AICTE institutions are thoroughly encouraged to participate in NIRF ranking process.
6. Deemed to be University: Institutions Deemed to be Universities (Running Technical Education Programmes), it is mandatory to have AICTE approval from the Academic Year 2018-19 in compliance of the Hon'ble Supreme Court Order dated 03-11-2017 passed in CA No.17869- 17870 /2017.
7. AICTE Approved Institutes are encouraged to utilize SWAYAM PLUS Courses up-to 40%
8. Internship is mandatory for all admitted students.
9. AICTE Approved Institutes are encouraged to make efficient use of the flagship schemes like:
 - a. Parakh: Student Gap analysis portal bases services.
 - b. Students Scholarship schemes like Pragati, Saksham, Swanath, ADF, etc.
 - c. Course in Indian Languages.
 - d. ATAL FDPs: Faculty training for Emerging areas and cutting edge Technologies.
 - e. Augmenting Utilization of Research Assets (AURA).
 - f. Smart India Hackathon: World's largest Open Innovation Platform.

Summary

Status of the establishment of AICTE Sponsored “IDEA LAB”

AICTE-IDEA (Idea Development, Evaluation, and Application) Laboratory is being established in engineering colleges across India to help students develop their creative ideas and problem-solving skills. This laboratory provides facilities and resources for students to turn their ideas into prototypes and will also help students to develop 21st century skills. The ultimate goal of the IDEA Laboratory is to transform engineering education and support students in becoming more creative and innovative.

AICTE – IDEA Laboratory has been sanctioned to Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology with a total cost of **Rs 90 lakh**, including non-recurring expenses (equipment, tools and consumables) of Rs 60 lakh and recurrent expenses (events and activities for two years) of Rs 30 lakh.

All the quotations were received from different vendors and the comparative statement was prepared to raise Purchase Orders. The major equipment are Vinyl Cutter, 3D printer, 3D Scanner, CNC router, PCB milling, Computer work station in Networking and AR/VR etc.

Integration of IDEA Lab with existing facilities:

Vel Tech Research Park, established at our university, houses 23 research centers and 5 CoEs to promote research, innovation, skill development, and entrepreneurship. The centers include:

- i) IoT and Smart Factory initiatives supported by the ZF Commercial Vehicles Industry Laboratory.
- ii) Centre of PCB Design & Fabrication, Bioenergy and Bio-products Centre supported by the Department of Science and Technology (DST)
- iii) National Facility for E-Waste Recycling
- iv) 3D Printing and 3D Scanning Facility
- v) Centre for Antenna Research Lab is supported by ISRO.

All the academic laboratories of the institute are also leveraged for the IDEA Laboratory. The facilities available in the R&D of various departments have been aligned with the IDEA Laboratory below:

- Design and Analysis using software like MATLAB 2023, LABVIEW V18, ANSYS 2024, XILINX 2019, DIGSILENT FACTORY 2022, CADENCE, and CCS V12.
- CDIO Lab (Conceive, Design, Implement, and Operate) workspace for freshman engineers to convert the idea into a working model.

Plan for the sustenance of IDEA Lab beyond two years:

- To establish a multidisciplinary Centre of Excellence through the IDEA Laboratory.
- Availability of the IDEA laboratory to the students 24/7 to enhance their skills and competencies.
- To organize continuous skill development courses for the students and faculty members of the host and other institutes.
- To meet the requirements of the industry's needs/expectations, value-added courses will be organized for students.
- To facilitate networking with professional resources, which include mentors, experts, and consultants for carrying out research and consultancy works in the college.
- To provide training to small-scale industries, polytechnic colleges and nearby schools.

Semester Long Internship (SLI): Proposal & Implementation Strategy

Target Batch

B.Tech – Sixth Semester (2023–2025 Batches)

Internship Duration & Mode

Full-Time Immersive Experience for Practical Skill Development

- **Duration (12–16 weeks),**
- **Full-time mode,**
- **Credit-integrated,**
- **Industry-oriented.**

Credit Allocation Strategy

Revised Academic Model to Integrate Internship Outcomes

Table 4: Minimum credits required for Regular students in various course categories

Implementation Timeline & Process

Phased Rollout and Oversight for SLI Integration

- 80 credits (Regular) or 35 (Lateral Entry)
- Registered in 5th semester
- Offer letter from relevant domain
- All prerequisites completed

Benefits to Stakeholders

Strategic Value for Students, Industry, and the Institution

- **Students:** Enhanced employability, industry-relevant skills, and practical experience through real-world exposure.
- **Industry:** Access to a pre-trained talent pool and opportunity to mentor future recruits.
- **Institution:** Stronger industry linkages, improved placement rates, and enriched curriculum relevance.
- **Academic Ecosystem:** Promotion of experiential learning and smoother transition from campus to corporate.

Credit Allocation

- 9 credits can be completed through an intensive semester of 1-month duration.
The remaining 10 credits ($25 - 6 - 9 = 10$) must be accommodated by either:
 - Shifting them to the 5th or 7th semester, or
 - Completing them through one or two NPTEL courses.
 - Each department has developed its own model to map and manage these credits.

Final Recommendations & Next Steps

Path Forward for Implementing Semester Long Internship

- **Departmental Approval:** Finalize credit mapping models and get them ratified by academic boards.
 - **Student Orientation:** Conduct awareness sessions and workshops to guide students through the SLI process.
 - **Industry Outreach:** Expand partnerships with industries and startups to diversify internship offerings.
 - **Monitoring & Feedback:** Develop robust monitoring tools and collect feedback from all stakeholders.

Opening

The Honorable Vice Chancellor, Chairman of the Vel Tech Research Board, warmly welcomed all members to the 27th meeting of the Board. The session commenced with a presentation on the institute's achievements and key contributions made since the last Research Board meeting, followed by introductions and greetings among the members.

Dr. K. Jagajjanani Rao, Dean (Research Studies) and Secretary of the Vel Tech Research Board, initiated discussions on the agenda items.

Agenda Items

Item No 27.1: To inform the Board about the leave of absence of the members.

The board was informed about the about the absence of members. Prof. Dr. R. Sivaraman - Pro-Vice Chancellor was unable to attend due to prior commitments.

Item No 27.2: To report and record the minutes of the 26th meeting of the Research Studies held on 21-08-2024.

The minutes of the 26th Research Board Meeting held on August 21, 2024, were presented and recorded. The detailed minutes are available at

<https://drive.google.com/file/d/1iC6rXUjhGPzfol-31Xe2GjTXc21Iw4sp/view?usp=sharing>

Item No 27.3: To inform the board about the actions taken based on the minutes of the last meeting.

A report on the actions implemented based on the recommendations from the previous meeting was presented. The full details can be accessed at

https://docs.google.com/document/d/1g4isqIFmt64gP9WCrFcWdPd_12EFhB2KEAY0yYBw9NU/edit?usp=sharing

Items for Discussion and Approval

Item No 27.4: To consider and approve the proposal regarding limiting the maximum number of Ph.D. scholars per faculty per admission cycle.

Discussion:

The Dean, Research Studies presented the details of proposal regarding limiting the maximum number of Ph.D. scholars per faculty per admission cycle.

The proposed limit for Ph.D. students per faculty member per admission cycle is 50%.

i.e. Maximum number of Research Scholars allowed per admission session per

Professor : 4

Associate Professor : 3

Assistant Professor : 2

Action:

Members acknowledged that different disciplines have varying supervision requirements- lab-based research (engineering, sciences) demands more intensive supervision, whereas theoretical or computational fields may require less. While implementing a 50% cap on available PhD vacancies per admission cycle could serve as a temporary measure, it should not be enforced rigidly. Instead, the Departmental Research Committee (DRC) should make the final decision to ensure a fair and efficient allocation of research scholars.

To address the issue of imbalanced PhD student distribution, members proposed the following solutions:

1. **Preference-based selection** – Applicants should list their top three faculty preferences. If their first-choice supervisor has reached the cap, they will be assigned to the next available choice, subject to vacancies.
2. **Departmental screening & fair allocation** – The DRC should oversee the allocation process to maintain fairness. Where possible, efforts should be made to ensure that every eligible faculty member receives at least one PhD student before others reach their limit.
3. **Enhancing research visibility** – Faculty members should be encouraged to actively promote their research through seminars, workshops, and online platforms to attract prospective PhD students.
4. **Rotational allocation system** – If a faculty member reaches their PhD student limit in one admission cycle, priority may be given to other faculty in the next cycle, whenever feasible.
5. **Joint supervision model** – Encourage co-supervision, allowing students to work under two faculty members. This approach ensures that newer faculty members gain research experience while students benefit from diverse academic perspectives.

Item No.: 27.5: To consider and approve the proposal of Establishing credit limits for online courses applicable to Direct and Regular Ph.D. programs.

Discussion:

The Dean, Research Studies presented the details of proposal to consider and approve ‘establishing credit limits’ for online courses applicable to Direct and Regular Ph.D. programs are listed in Table 1.

Table 1: Credit limits for online courses applicable to Direct and Regular Ph.D. programs.

Category	Minimum Credits	Maximum Credits	Proposed Credit Limit for online courses
Direct	42	46	16-18
Regular Ph.D.	12	16	6-8

Action:

The committee recommended that the credit limits for online courses in Ph.D. programs be aligned with UGC guidelines, which permit a maximum of 40% of the total credits for online courses, similar to the allowance for UG and PG programs.

Item No.: 27.6: To consider and approve the details regarding the Screening Committee constituted for the UGC-Ph.D. Excellence Citation recommendation.

Discussion:

The Dean, Research Studies presented the details regarding the Screening Committee constituted for the UGC-Ph.D. Excellence Citation recommendation.

Screening Committee:

Nominee Details

S. No.	Reg. No.	Scholar Name	Dept.	Category	Total Marks
1	16RECS1012	Thilagam T	CSE	Engineering and Tech.	103.75
2	20RMBM1022	Dagnew Gebrehiwot Giday	MBA	Commerce and Management	25.8
3	20RHMA1010	Roselyn Besi P	Maths	Sciences	50.55
4	20RHEG1010	Caleb Theodar M	English	Social Sciences	21.85

Action:

The research board members recommended that the final marks be verified for accuracy before submission to the UGC for the Ph.D. Excellence Citation. Additionally, they suggested that the institute may consider providing internal recognition or awards for outstanding Ph.D. scholars to acknowledge their academic contributions.

Item No.: 27.7: To consider and approve the extension of the reporting date for a few Ph.D. scholars admitted in the Winter Session 2024-25.

Discussion:

The Dean, Research Studies presented the details and approve the extension of the reporting date for a few Ph.D. scholars admitted in the Winter Session 2024-25 are listed in Table 2

Table 2: The extension of the reporting date for a few Ph.D. scholars

Department	No. of Scholars to be reported	Full Time	Part Time
CSE	1	0	1
MBA	1	0	1
Mech	1	0	1
Maths	2	2	0

Action:

Board members recommended that the request for an extension of the reporting date be reviewed on a case-by-case basis and approved subject to the Vice Chancellor's discretion.

Item No.: 27.8 : To consider and approve the proposed credit transfer for discontinued and re-admitted scholars**Discussion:**

The Dean, Research Studies presented the details and approve the proposed credit transfer for discontinued and re-admitted scholars are listed in Table 3

Table 3: Discontinued and re-admitted scholars

S. No.	VTD No.	Name of the Scholar	Dept.	Date of Admission	Date of discontinued	Previous Regulation	Date of Re-admitted

2	545	Susi A	CSE	20.09.2017	30.12.2020	2016	08.01.2025

Action:

The Research Board recommended that the proposed credit transfer for discontinued and re-admitted scholars be reviewed in consultation with the Controller of Examinations (COE). The discussion should focus on verifying the validity of previously earned credits, mark sheets, and transcripts, ensuring compliance with the latest Ph.D. regulations, and assessing the total study duration, including the discontinued period, to determine eligibility for credit transfer. The final approval should be granted based on the COE's and research advisory committee (RAC) suggestions and recommendations while ensuring alignment with institutional policies and academic guidelines.

Item No.: 27.9: To discuss and explore the feasibility of admitting Ph.D. scholars in Tamil under the guidance of the qualified supervisors in the Department of Commerce.**Discussion:**

The Dean, Research Studies presented the details and approve feasibility of admitting Ph.D. scholars in Tamil under the guidance of the qualified supervisors in the Department of Commerce.

Action:

The Research Board recommended forming a committee, with the approval of the Vice Chancellor, to assess the feasibility of admitting Ph.D. scholars in Tamil under the guidance of qualified supervisors in the Department of Commerce. The committee will evaluate key aspects such as academic standards, research resources, faculty expertise, and regulatory compliance. Their findings and recommendations will be presented for discussion in the next Board meeting for further decision-making.

Item No.: 27.10: To discuss the implementation of a periodic progress monitoring system for scholars through dedicated Research Studies Coordinators from each department.

Discussion:

The Dean, Research Studies presented the details and approve the implementation of a periodic progress monitoring system for scholars through dedicated Research Studies Coordinators from each department.

Action:

The Research Board approved the implementation of a periodic progress monitoring system for Ph.D. scholars by assigning dedicated Research Studies Coordinators in each department.

These coordinators will

- Serve as a communication link between PhD scholars and the Dean - Research Studies
- Ensure timely evaluation of research progress, aid in addressing academic concerns
- Contribute to program reforms and maintain compliance with institutional and UGC guidelines.

Item for Ratification

Item No.: 27.11 To ratify VTR DR 2025 Regulations which includes Direct Ph.D. and Integrated Ph.D., incorporating suggestions offered by the members in the previous board meetings.

Discussion:

Dean, Research Studies presented the VTR DR 2025 Regulations which includes Direct Ph.D. and Integrated Ph.D., incorporating suggestions offered by the members in the previous board meetings are given below link.

<https://drive.google.com/file/d/1ct1hi6ees0qn5v9ScXVGr2N1YRG12WZp/view?usp=sharing>

Action:

The Research Board approved the VTR DR 2025 Regulations, which include provisions for Direct Ph.D. and Integrated Ph.D. programs, incorporating the amendments and recommendations from previous board meetings. The approved regulations are aligned with UGC guidelines to ensure academic compliance and quality standards. Departments are advised to implement these regulations effectively and communicate the updates to faculty and scholars.

Items for Recording and Reporting

Item No.: 27.12: To record the cut-off dates of the admissions for the doctoral program for the academic year 2025-26

Discussion:

The Dean, Research Studies presented the cut-off dates of the admissions for the doctoral program for the academic year 2025-26 are given in Table 4.

Action:

The Research Board approved and recorded the vacant Research Supervisor positions across various departments for the Winter Session 2024-25, as detailed in Table 6. Departments are encouraged to strategically address the vacancies by promoting research opportunities and enhancing faculty engagement to ensure a balanced distribution of Ph.D. scholars.

Item No.: 27.15 To record recognition and approval granted to faculty members for Research Supervisors since the last Research Board meeting.**Discussion:**

Dean, Research Studies presented the list of faculty members who have submitted the applications for recognition of research supervisor and to consider them for Supervisorship to guide the Ph.D. scholars. The details of the submitted applications are given below in Table 7.

Action:

The Research Board approved the eligibility of 99 faculty members as Research Supervisors, based on their submitted applications and compliance with the established academic and institutional norms.

Item No.: 26.11 To record the Proposed Budget allocation for the Office of Research Studies for the financial year 2025-26.

Discussion:

Dean, Research Presented the Proposed Budget allocation to the Office of Research Studies for the financial year 2025-26 for recording as given in Table 7.

Action:

The Research Board reviewed and acknowledged the proposed budget allocation for the Office of Research Studies for the financial year 2025-26 and found it satisfactory. The board recommended periodic evaluation of fund utilization to ensure efficient allocation, optimal resource usage, and alignment with institutional research priorities.

Any other items with the permission of the Chairperson.

There were no additional items discussed. The meeting concluded with a vote of thanks, expressing appreciation to all members for their valuable contributions.

Development of Low cost Remotely operated platform for Bathymetry & water resource applications

Principal Investigator: **Dr. Surendar G**

Funding Agency: ISRO | Project Cost: INR 25.6 Lakhs | Duration: 2024-2026

This project aims to design and develop an indigenous, low-cost, remotely operated platform with state-of-the-art facilities available at Vel Tech, Chennai and NRSC, Hyderabad. It comprises a customised rugged platform with integrated propulsion, telemetry, and control electronics for water-based applications. The vehicle's design is focused on reducing the survey time and logistic efforts, which are critical in the waterbody surveys. Also, it will cater to the indigenously developed payload systems onboard for in-situ bathymetry and water quality assessments for evaluating water quality parameters derived from satellite remote sensing techniques.

Infrastructure Material Testing center

The Inauguration of "Infrastructure Material Testing Center (IMTC)" took place on 13.09.2024. The event was a significant milestone for the department, showcasing its commitment to enhancing academic and industry collaboration, as well as providing cutting-edge testing facilities for infrastructure materials.

Student Exchange (Incoming):

to 31st December, 2024.

Mr. Wu Yu Chieh (VTUF 0063), an exchange student from Tamkang University, Taiwan, successfully completed coursework in the Department of Electrical and Communications Engineering and Mechanical Engineering during his program from 13th July 2024

Mr. Lee Li An (VTUF 0054), an exchange student from Tamkang University, Taiwan, successfully completed coursework in the Department of Electrical and Communications Engineering and Mechanical Engineering during his program from 13th July 2024 to 31st December, 2024.

Faculty Visit Poltechnika

Dr. Kanak Kalita, Associate Professor of Mechanical Engineering, recently visited Politechnika Opolska, Poland, as part of a collaborative initiative with VSB -Technical University of Ostrava, Czech Republic. The visit included exploring advanced laboratories and cutting-edge research facilities in Mechanical Engineering. This opportunity strengthened global academic partnerships and showcased Vel Tech's commitment to adopting best practices from around the world. The visit lays the foundation for future collaborative research endeavours.

Events Organized by Mechanical Engineering

The Department of Mechanical Engineering at Vel Tech inaugurated the **ISUZU-Sponsored Automobile Engine Laboratory on 27th March 2025**.

This lab was established as part of a CSR initiative by Isuzu Motors India Pvt. Ltd.

Mrs. Indhu S and Mr. Shivir Kumar Shukla from Isuzu graced the occasion and extended their support. The lab aims to enhance hands-on learning in automotive engineering for students.

Events Organized by Mechanical Engineering

Workshop on Applied Data Analytics for Enhanced Research Outcomes

The 5-Day Workshop on Applied Data Analytics for Enhanced Research Outcomes was organized by the Office of Research & Development, Vel Tech in coordination with Department of Mechanical Engineering from **January 7 to 11, 2025**, at the AI Lab, Research Park. Over **60 participants**, including faculty members and research scholars, attended sessions on statistical techniques, data analysis, and hands-on training with **JMP Pro software**.

Events Organized by Mechanical Engineering

Department of Mechanical Engineering, successfully conducted a one-day workshop on **"Demonstration of Powder Metallurgy Technique using Vacuum Hot Press"**. Held on **26th February 2025** at the Centre for Materials and Manufacturing.

The one-day workshop on **Technologies for Hydrogen Generation & Applications**, held on **29 January 2025** at was successfully conducted. Sessions covered hydrogen fundamentals, electrolyzers, fuel cell research, and hands-on operation of the electrolyser test bench.

A workshop on "Scope of Mechanical Engineer and Importance of Software Tools in Industry" was conducted for Mechanical Engineering students on **28th February 2025**. The session was delivered by **Mr. Baboo, Senior Engineer at Tata Electronics** and an alumnus from the 2014 batch.

Events Organized by Mechanical Engineering

A skill development training program was conducted for our 3rd-year Mechanical Engineering students on 08.02.2025. The session focused on core placement opportunities, interview preparation, and self-development. The event was organized by Dr. M. Karthik, Assistant Professor, Department of Mechanical Engineering.

An Awareness Programme was conducted on 05.02.2025 for Murugappa Polytechnic College students. Organized by the Department of Mechanical Engineering, the session focused on higher studies opportunities and career growth. Students were encouraged to pursue advanced education and skill development. A visit was arranged to explore manufacturing and 3D printing technologies.

The IHL Course on Introduction to NDT and Case Studies, held from 3rd to 5th February 2025 was successfully conducted. All 30 second-year Mechanical Engineering lateral entry students participated enthusiastically. The course covered NDT fundamentals, inspection techniques, and detailed case studies.

Students Academic Achievements

The TAFE Innovista 25 event, organized by Tractors and Farm Equipment Limited (TAFE) in Chennai, successfully showcased cutting-edge engineering projects. The “Cable Suspended Farmland Monitoring System” was featured as a highlight of the innovation platform. The project team—Aravind J Nair, Thirishith J, Monish A R, Bharani Selvan S, and Viknesh L—presented their work with distinction.

The Department of Mechanical Engineering extends its heartiest congratulations to Mr. I. Nagendran (VTU27011), a third-year student, for securing the First Prize in the "Thil-RA Karate-do Tamil Nadu, India" open self-defense karate competition held on February 10, 2025, at Polivakkam, Chennai. His exceptional performance demonstrates not only his athletic prowess but also embodies the spirit of discipline and dedication that we value in our students.

Plan of action for the upcoming placement seasons

- Conduct a baseline skill assessment (aptitude, coding, and communication) starting from the second year.
- Offer courses in coding, domain-specific skills, and spoken English for all students from the second year.
- Implement intensified coding sessions for 30% of the total student population to enhance placement opportunities in IT product companies.
- Provide industry internship opportunities in the sixth semester, with the support of the Office of Industry Relations.

Thank you
