SCHOOL OF COMPUTING
DEPARTMENT OF INFORMATION TECHNOLOGY
INDUSTRY FEEDBACK ON CURRICULUM 2024-25

Feedback gathered from industry stakeholders facilitates the design and development of programs that are both flexible and aligned with the personal and professional needs of students and employers. For the academic year 2024-25, the department collected feedback from employers regarding the curriculum and syllabi offered.

1. How do you rate the previous curriculum in alignment with the industry expectations?	
Excellent / Good / Fair / Poor	
2. What recommendations do you have for improving our curriculum for next regulation to meet the industrial expectation?	
3. Please recommend some content to enhance already existing syllabus	
<input type="text"/>	
4. Please recommend some subject to include in the curriculum and syllabi	
Subject name:	
How the above subject helpful for students towards industry:	
<input type="text"/>	
Subject name:	
How the above subject helpful for students towards industry:	
<input type="text"/>	
5. Are the Text books relevant and cover the contents of syllabus? Yes / No If any correction needs please provide details	
Subject Name:	
Proposed Text Books :	
1.	
2.	
3.	
6. Are the Reference books relevant and cover the contents of syllabus? Yes / No If any correction needs please provide details	
Subject Name:	
Proposed Text Books :	
1.	
2.	
3.	
7. List courses that can be added in elective subjects.	
8. Any other suggestions.	
Signature	

Suggestions:

1. Industry experts suggested to include Python programming and Data Analytics with Python course under the category of Open elective and Program elective respectively.
2. Industry experts also suggested to include GenAI courses as it is a newer technology.
