திருக்குறள்

அதிகாரம் 30: வாய்மை
குறள் 6:

பொய்யாமை அன்ன புகழில்லை எய்யாமை
எல்லா அறமுந் தரும்.

- திருவள்ளுவர்

விளக்கம்

பொய்யாமை போலப் புகழ் தருவது ஏதும் இல்லை; அதில்
தளராமல் உறுதியாயிருப்பது ஒருவனுக்கு எல்லா அறத்தின்
சிறப்பையும் தரும்.

English Couplet:

Nothing but the fame of truthfulness
Can give all other virtues effortlessly.

Placement Drives

Campus Drives facilitate a seamless transition from education to employment by enabling students to start their careers with top organizations. The following details outline the placement drives held in May 2026.

Recruitment Drive - 2026 YoP

Protecooling Placement Drive - 14 May 2026

AI infotech Placement Drive - 15 May 2026

Cognizant Placement Drive - 21 May 2026

Soft Suave Technologies Campus Drive - 23 May 2026

Velankani Software Placement Drive - 25 & 26 May 2026

Events

HCLTech Primus Campus Recognition

HCLTech conferred the prestigious Primus Campus recognition on our University, acknowledging its excellence in nurturing industry-ready talent through quality education, industry-oriented training and outstanding placement support. The recognition certificate was presented by HCLTech representatives to Prof. Dr. Rajat Gupta, Vice Chancellor and Dr. P. Vijayaraman, Dean – Campus to Corporate, on 16 May 2025.

This recognition further strengthens the collaboration between HCLTech and our University, with the Campus to Corporate Office playing a pivotal role in fostering industry-academia partnerships and enhancing student employability. The HCLTech Primus Campus status creates greater opportunities for skill development, internships, industry exposure, and career advancement, while reaffirming the University's commitment to equipping students with the knowledge, technical expertise, and professional competencies required to excel in an ever-evolving global workforce.

Faculty Participation in SAHGE 2026 at IIT Madras

Ms. Meera C.S and Mr. Dineshkumar R, Verbal & Soft skill Trainers participated in the Faculty Development Program (FDP) on Self Awareness and Higher Goals in Education (SAHGE) 2026, held at IIT Madras from 25 to 29 May 2026. The FDP enhanced participants' understanding of self-awareness, value-based education, and holistic development, equipping them with insights to strengthen student mentoring and professional excellence.

Success Reflections

Name: Hasna K H

Department: CSE AIML

Company Placed: Velankani Software Pvt. Ltd

Securing a campus placement was a proud and rewarding experience for me. The process wasn't easy, but with the right guidance and consistent practices, the journey became much smoother. I sincerely appreciate the dedication of the Campus to Corporate and the faculty members who encouraged, guided, and supported me throughout every interview and every step of the placement journey.

Thank You

Name: Paladugu Harika

Department: ECE

Company Placed: ICICI Bank

I am delighted to share that I have been selected by ICICI Bank. I sincerely thank my university, the Department of Electronics and Communication Engineering, and the Office of Campus to Corporate for their unwavering support throughout my journey.

My four years at the university provided me with a strong academic foundation through practical learning, internships, technical projects, and workshops. The aptitude training, communication skill development programs, mock interviews, resume-building sessions, and career guidance organized by the Office of Campus to Corporate played a vital role in enhancing my confidence and preparing me for the recruitment process.

I am deeply grateful to my faculty members for their constant guidance, encouragement, and mentorship, which helped me grow both technically and personally. The opportunities provided by the university enabled me to develop adaptability, teamwork, and leadership skills that prepared me for a successful career.

Being selected by ICICI Bank is a proud milestone, and I will always be thankful to my university for believing in me and helping me achieve this success. I remain committed to upholding the values of my institution through dedication, integrity, and continuous learning.

The Gap Between Theory and Practical Learning

We've all had that classic line drilled into our heads: 'Education is the key to success'. But let's be real for a second. Are we actually learning anything, or are we just really good at memorizing stuff for a Friday morning exam and forgetting it by Saturday? Right now, there is a massive, frustrating gap between what we read in textbooks and what we actually have to do in the real world. We spend years cramming concepts into our heads, but the second we're put in a practical situation, we totally freeze. Look, theory isn't the enemy.

You obviously need a foundation. You can't build a house without looking at a blueprint first. But staring at a blueprint won't teach you how actually to swing a hammer. You see this disconnect everywhere. Engineering students can draw complex machines perfectly on paper but have no clue how to fix a real, rattling engine. Computer science students can ace a theoretical exam on coding logic but completely panic when a client asks them to build a working app from scratch. Even medical students can memorize every disease under the sun, but that doesn't automatically teach them how to treat a terrified patient calmly. Why is this happening? Because our schools are obsessed with grades and test scores. It's a giant compliance game.

Teachers are rushed to finish a massive syllabus, so they lecture at us. There's no time left for the stuff that actually matters, like messy experiments, internships, or just figuring things out through trial and error. We are churning out graduates who look amazing on paper but have zero confidence when they walk into a room. This hurts everyone. Companies end up spending months retraining new hires because their degrees didn't prepare them for actual work. And students end up feeling totally burnt out and frustrated, realizing that a high GPA doesn't mean they're actually ready for life. If we want to fix this, things need to change fast. Internships, workshops, and hands-on lab sessions shouldn't be luxuries or afterthoughts. They should be the main event. At the end of the day, true education shouldn't be about scoring marks. It should be about building the confidence to face a messy and unpredictable real-world problem and say, "I don't know the answer yet, but I know how to figure it out."
