Volume: 06

Issue: 02

FOUNDERS

Col. Prof. Vel. Dr. R. Rangarajan
*B.E. (Elec), B.E. (Mech), M.S. (Auto), D.Sc.,
Founder President & Chancellor*

Dr. Sagunthala Rangarajan
*M.B.B.S.,
Foundress President*

LEADERSHIP

Dr. Rangarajan Mahalakshmi Kishore
Chairperson & Managing Trustee

Prof. S. Salivahanan
Vice Chancellor

Prof. Dr. E. Kannan
Registrar

Message

In this NEWS BITE, students and faculty get a chance to show case their accomplishments as well as keep up with departmental activities. Accountability of students' involvement in technical and cultural events within and outside the institution are provided. Moreover, it reports on events organized by the department for knowledge enrichment, Skill development, career guidance, industrial exposure and social outreach program. Events such as IEEE, IETE, and club activities are included. The department conducted three AICTE-sponsored ATAL FDPs, seven workshops, three seminar, and thirteen value-added courses for the well-being of students and faculty members during the winter semester of the academic year 2023 - 2024. NPTEL courses offered by various IITs during April/May 2024 have been successfully completed by the faculty members of the department. Seventy-two faculty members are completed the UHV 1 course and 38 faculty members are completed UHV 2 course offered by AICTE. In order to enhance the technical and soft skills of the students, various clubs organized the intradepartmental Symposium VTECH SPARK 2024 and AAVISHKR 2024. IEEE Students branch chapters held 12 professional activities and students actively participated in courses conducted by industry and international delegates to enhance their knowledge in recent technologies. A total of 158 students were successfully placed in reputable organizations.

Dr. R. S. Valarmathi

Prof. & Dean - SoEC

Department Highlights

The department offers a variety of platforms for the students to take part in numerous technical festivals, sporting competitions, and cultural events.

One week ATAL Workshop **“Metaverse and Underlying Technologies”** was conducted from 04.12.2023 to 08.12.2023

Inauguration on 08/12/2023 Session Glimpse

The Department of Electronics and Communication Engineering organized AICTE and ATAL sponsored Faculty Development Program (FDP) on Metaverse and Underlying Technologies from 07.12.2023 to 12.12.2023 at Gallery Hall. The department faculties have invited the Chief guest, Recourse persons, and internal and external participants in a traditional way. Guest of Honour Shri Raghavendra G, Principal Solution Architect VR from IIT Madras, Chennai and Dr. Manivannan, Professor, Department of Applied Mechanics and Biomedical Engineering, IIT Madras, Chennai are lighted the lamp for inaugural function in presence of Prof. S. Salivahanan, Vice Chancellor, Vel Tech Rangarajan Dr. Sagunthala R & D Institute of Science and Technology, The welcome address was given by Dr. A. Selwin Mich Priyadharson, Professor, Convenor & Coordinator, Vel Tech Rangarajan Dr. Sagunthala R & D Institute of Science and Technology Chennai.

Glimpse On

One week ATAL Workshop **“Semiconductor Device Design from RTL to GDS II”** was conducted from 18.12.2023 to 23.12.2023

Inauguration on 18/12/2023 Session Glimpse

Dr. Parasuraman Swaminathan Professor/ Metallurgical and Materials Engineering Electronic Materials and Thin Films Lab IIT Madras, Chennai, India – 600036 was the Chief Guest and Mr. Ganesh Prabhu Principal Engineer M/s.NXP Semiconductors, Bangalore was the Guest of Honor for the inaugural ceremony which was held at 9AM on 18/12/23. The Guest of Honor Mr. Ganesh Prabhu Principal Engineer M/s.NXP emiconductors, Bangalore spoke on the importance of VLSI Device modelling and High-Performance Circuit Design.

Seminar **“Artificial Intelligence of Things (AIoT) on Security”** was conducted on 19.01.2024

The guest lecture was organized with the motive of enhancing the knowledge and skill of the students in the area of Artificial Intelligence, Internet of Things and Security concepts. Totally 50 participants from the departments of ECE students attended the guest lecture. Case studies and examples of AIoT were discussed among students and faculty. To highlight the significance of patent information were also discussed, Dr P. Kumaran, Assistant Professor, National Institute of Technology Puducherry, Karaikal delivered a session.

Seminar **“Navigating the Cyber landscape Understanding Cyber Threats & Best Practices”** was conducted on 23.01.2024

Cybersecurity is the hottest area of focus in this digital era. Securing the cyber landscape is the need of the hour. Standards for securing the data and assets are established by recognized bodies. They provide specific requirements, guidelines, and best practices for implementing cyber security controls. Standards are often developed through a consensus-based process involving experts in the field. Compliance with standards can be voluntary or mandated by regulatory bodies. Lack of dedicated cyber security teams or personnel with expertise in cyber security, inadequate or outdated security measures in place and less aware of the latest cyber security threats and best practices has led to 43% of all cyber-attacks in small businesses. Stolen data, exposed sensitive customer information and significant damage to the operations and reputations of the companies is the area of concern. The basic knowledge on Vulnerability Assessment and Testing Tools will lead to securing the cyber landscape.

One week Faculty Development Program **“Navigating Digital Frontier - Transforming Technologies in the 21st Century”** was conducted from 12.02.2024 to 15.02.2024

It is a comprehensive training program to learn the important elements about metaverse and the huge opportunity that it can provide in various industries with specific use cases. It will also cover the various technology components that go into building the metaverse. The participant will learn tips and tricks from the best of the experts and will be adequately armed to design and build basic metaverse applications for various industries. The lectures will be delivered by eminent and practicing industry experts. The programme will be primarily taught through a combination of lectures, discussions, exercises and labs.

Three days' Workshop on **“Exploration of Essential Tools for Data Science”** was conducted from 29.01.2024 to 31.01.2024

Three days' Workshop on **“White Hat Hacking”** was conducted from 29.01.2024 to 31.01.2024

The session handled by Mr. Karthikeyan V, Founder and CEO of Cappricio Securities. Topics covered are Kick Starter, Password cracking, OSINT, Network sniffing, social media and mobile app pen testing and web attacks with participants of 50.

Six days' Workshop on **“VLSI Design and Verification”** was conducted from 12.02.2024 to 17.02.2024

Mr. Venkatesh Rajakutti, Senior Design Engineer, Chennai, addressed the participants. This Industrial training focused on VLSI Design Flow, Revised Digital Concepts, Verilog and System Verilog Programming and RTL design and verification concepts. The session was lively with active Student's interaction. The students were learned RTL and Verification concepts for entire training session.

Five days' Workshop on **“5G and Beyond Communication: Algorithms and Implementation”** was conducted from 04.03.2024 to 08.03.2024

Navigating the Digital Frontier: Transforming Technologies in the 21st Century is an interdisciplinary faculty development program designed to equip educators with the essential skills and knowledge required to adeptly navigate the rapidly evolving digital landscape. Centered on the premise that successful education in the 21st century demands a profound understanding and integration of transformative technologies, the program delves into key areas such as digital literacy, emerging technologies (including AI, Blockchain, and IoT), pedagogical strategies for technology integration, and the imperative for cybersecurity awareness. The program delves into the revolutionary potential of 5G, envisioning faster connectivity and immersive educational experiences. It scrutinizes the integration of IoT devices in classrooms, facilitating a comprehensive understanding of how interconnected devices can enhance learning environments. Cybersecurity becomes a focal point, equipping faculty with strategies to protect sensitive data in an increasingly digitized educational landscape. The intersection of AI and education is thoroughly examined, emphasizing personalization, automation, and ethical considerations.

Three days' Workshop on **"Internet of Things using Arduino"** was conducted from 07.03.2024 to 09.03.2024

The Department of Electronics and Communication Engineering (ECE) recently hosted a three-day workshop on "Internet of Things using Arduino" from March 7th to 9th, 2024. The workshop featured hands-on training sessions focused on Arduino-based interfacing, catering to a group of 50 participants.

This immersive approach allowed attendees to gain valuable experience in integrating smart applications, enhancing their understanding of various interfacing systems. The workshop proved highly beneficial, quipping participants with the knowledge and skills needed to tackle real-time challenges in IoT applications. By fostering a dynamic learning environment, the program empowered students to explore the potential of IoT technology and its practical implementation.

Overall, the workshop served as a valuable opportunity for participants to deepen their expertise in IoT using Arduino, paving the way for innovative solutions and advancements in the field of electronics and communication. With 7 years of experience at VEL echnologies, Dr. B. Ezhilavan brings a wealth of expertise in documentation strategy, content creation, and knowledge dissemination.

Six days' Workshop on **"Embedded IOT & Industrial Automation"** was conducted from 11.03.2024 to 16.03.2024

An enriching hands-on workshop in collaboration with Tessolve Semiconductor Training. Held from March 11th to March 16th, 2024, the workshop delved into the dynamic realm of "Embedded IoT and Industrial Automation," catering to aspiring engineers eager to explore and enhance their skills in this burgeoning domain.

Seminar **"Futuristic Healthcare: Advancement and Application in Technology"** was conducted on 09.02.2024

The lecture on Futuristic Healthcare: Advancements and Applications in Technology" explores the intersection of healthcare and cutting-edge technology among the students. This event delves into innovative solutions and emerging trends shaping the future of medical care. Participants delve into topics such as AI- driven diagnostics, telemedicine, wearable health monitoring devices, and personalized medicine.

"Women's Day Celebration – Shakthi 2024" was conducted on 08.03.2024

The Department of ECE in association with IEEE student chapters of ECE ,Vel Tech has organized the International Women's Day on (08.03.24) in Vel Tech Rangarajan Dr.Sagunthala R & D Institute of Science and Technology. Dr. R. S. Valarmathi , Dean SoEC welcome the gathering and inaugurated the event. Dr. G. Sasikala, Professor –ECE briefed the Women's day event. Ms. P. Logeswari , student Coordinator shared her views and benefits of Girl students in Vel Tech Ms. B. Monisha , Counsellor and Social worker, Founder of Naam Vidhaikalaam delivered the Women's day address with the theme "Rise Up – Women Empowerment". All girl students and women faculty attended the session and mind activity was conducted to motivate and made us to realize the self empowerment. Followed by the session, several events were conducted and awarded prizes.

Four days' Value-Added Course on **"VLSI Chip Design"** was conducted from 24.01.2024 to 27.01.2024

Very – Large Scale Integration (VLSI) chip design is a complex process involving the creation of integrated circuits (ICs) that contain thousands or millions of transistors on a single chip. This field is crucial for the development of modern electronic devices, from microprocessors and memory chips to application – specific integrated circuits (ASICs). With 50 participants has completed the value-added course.

Four days' Value-Added Course on **“Chip Level Testing and Debugging for Smar Phones and Tablets”** was conducted from 30.01.2024 to 02.02.2024

Troubleshooting smartphones and tablets, chip level testing and debugging, troubleshooting adware issues, and flashing tools are the main topics of the course. Other application areas covered include embedded systems, hardware design and testing, etc. Through apractical, hands-on approach to Smartphone and Tablet Troubleshooting, participants learn about the architecture of smartphones and tablets, including the roles played by various components such as CPUs, memory, displays, and networking modules. It expands on the idea of identifying, eliminating, and guarding against smartphone adware infections. Flashing tools are used for installing custom ROMs, understanding firmware changes, and applying security patches.

Four days' Value-Added Course on **“Digital System Design for Video Applications using FPGA”** was conducted from 01.02.2024 to 02.02.2024 and 09.02.2024 to 10.02.2024

The Department of ECE organized the Value-Added Course on “Digital System Design for Video Applications using FPGA Board” for 4 days during 01 -02 February, 2024[Slot 1] and 09-10 February, 2024[Slot 2]. Hands on training session through Vivado Design Suite and Xilinx System Generator using FPGA board BASYS 3 for strength of 60 participants inclusive of II and III years were conducted. It was very much useful for the participants to enhance their knowledge in various domains such as digital system, signal processing, image processing and bio signal processing.

Four days' Value-Added Course on **“Dive into Data: A hands-on Exploratory Data Analysis and Data Visualization”** was conducted from 01.02.2024 to 02.02.2024 and 09.02.2024 to 10.02.2024

"Dive into Data" course was an intense but amazing journey into the world of Data science. It was started with Python basics, learning about lists and classes from the experienced Ms. Sweta Balaji, a Data Scientist at Symbiance. Creating and manipulating lists felt like building the tools for data exploration. Using Kaggle datasets, the students tackled data analysis, learning how to clean and organize messy data to find hidden secrets. It was like untangling a puzzle to reveal valuable insights.

Four days' Value-Added Course on **“An Insight into Cybersecurity and Ethical Hacking”** was conducted from 12.02.2024 to 15.02.2024

A Thirty hours value added course on “An insight into Cyber security and Ethical Hacking” from 12.02.24 to 15.02.24 (9.00 am to 4.30pm). the course taken by the ICIS Automation Private Limited is a leading provider of cybersecurity consulting and services, specializing in protecting organizations from evolving cyber threats. With a deep understanding of the modern threat landscape, we help businesses safeguard their critical assets and ensure the integrity, confidentiality, and availability of their data.

Four days' Value-Added Course on **"AI and ML Tools for Industrial Robot"** was conducted from 21.02.2024 to 24.02.2024

The hottest areas of interest. Resource person from Roboram Technologies Engr. Nagarajan and his trainer visited our premises and they gave in depth knowledge on Robotics, IoT and how AI and ML impacts Robotics. Hands on sessions were given to the participants by the industry people.

Four days' Value-Added Course on **"Digital Twin Acceleration in Energy and Utilities"** was conducted from 21.02.2024 to 24.02.2024

Digital twin basically means a replicated model of any object or product in digital form. A digital twin has many advantages as it remains connected with the original object or product it is replicating and receives real-time data. Therefore, the obstacles and issues that could be encountered in a product or object can be known before their actual happening which helps to prevent errors and major losses which otherwise might have been incurred. The various capabilities of digital twin technology make it a powerful tool that can be used to effectively boost various sectors of the healthcare, automotive, and construction industries, among others.

Four days' Value-Added Course on **"Exploring Data Insights and Business Values using Statistical modeling and Machine learning Techniques"** was conducted from 14.03.2024 to 15.03.2024 and 18.03.2024 to 19.03.2024

"Exploring Data Insights" course was handled by Dr. S. Jana, Professor, Department of ECE, Vel Tech. In the session, fundamentals of Machine Learning and data Science were thought. Machine learning techniques offer powerful tools to uncover patterns, trends, and relationships within data, thereby unlocking valuable insights that can drive informed decision-making and enhance business outcomes.

Four days' Value-Added Course on **"Hands on Training on Antennas and Microwave Components"** was conducted from 15.03.2024 and 18.03.2024 to 20.03.2024.

In today's era of wireless communication, the demand for professionals proficient in antenna design and microwave components is burgeoning. The Value-Added Course (VAC) on "Hands-on Training Antennas and Microwave Components" utilizing HFSS (High-Frequency Structure Simulator) caters to this demand by providing comprehensive training on designing, simulating, and optimizing antennas and microwave components. The VAC is structured to equip participants with practical skills and theoretical knowledge essential for designing antennas and microwave components. Through a blend of lectures, hands-on exercises, and project work, participants will gain proficiency in HFSS, a powerful electromagnetic simulation tool widely used in the industry.

Four days' Value-Added Course on **"Innovations using LoRaWAN Protocol"** was conducted from 27.03.2024 to 30.03.2024

The workshop is focused on the enhancements of Wireless Personal Area Network using LoRaWAN and its implementation. Participants learn the essential concepts of LoRa and its gateway by implementing its applications using Things Network. The course provides a way for a variety of users (beginners to experts) to create projects in Internet of Things, Network Protocols and security. The students will be able to learn: LoRa and its application, LoRa Gateway, LoRa Implementation, Applications of LoRa IoT.

Four days' Value-Added Course on **“SOC Design and verification”** was conducted from 27.03.2024 to 30.03.2024

The 30 Hours Value Added Course on “SOC Design and verification” was started on 26th March 2024 at 09:30 AM followed by inauguration session. The inauguration was handled by Dr. R. S.Valarmathi Dean SoEC and Dr.A.Selwin Mich Priyadharson HoD-ECE. Total of 50 participants were registered 30 were attended. The entire Course is organized in 4 days (30 Hours).

The logic verification using Verilog simulation, the difference between Designing and Verification of an IC and the differences between simulator algorithms are the main topics of this course. Other new features of system Verilog and verification are also covered in this course. Hands on training sessions have been given through EDA Tool (Model-sim) software for the participants.

The students were actively participated in the hands-on session and coded for the given tasks. The students were motivated to identify the VLSI components in all electronics and coded and works.

Two days' Symposium on **“AAVISHKR 2K24”** was conducted from 28.02.2024 to 29.02.2024

The “AAVISHKR 2K24” Technical Symposium organized by the Department of Electronics and Communication Engineering in association with the IETE Students Forum, was held on the 28th and 29th February 2024 at the ECE Gallery Hall (1601). The symposium aimed to provide a platform for students to exhibit their skills, exchange knowledge, and foster innovation in the realm of technology and beyond. A total of 159 students registered and actively participated in the symposium, showcasing their talents and skills across various events. The Paper Presentation event saw innovative research papers being presented, with the top papers recognized for their contribution to advancing knowledge in the field. In the Web Wizardza coding event, participants demonstrated exceptional coding skills, with the most innovative and efficient solutions earning accolades. The Error Epic (Debugging) challenge tested participants' ability to troubleshoot technical issues, with the fastest and most accurate solutions rewarded. Mindmaze (Quiz) showcased the participants breadth of knowledge across technology domains, with the top performers acknowledged for their expertise. In the non-technical events, Pixel Party (Photography) celebrated visual storytelling, with prizes awarded for the most compelling narratives captured through the lens. The Short Film Contest recognized creativity and storytelling prowess, with winning films captivating the audience with their originality. Enigma (Connections) challenged participants critical thinking, with the most adept solvers receiving recognition for their ability to unravel complex puzzles. Winners were selected across various categories, and prizes were awarded to deserving participants. Overall, AAVISHKR 2K24 was a resounding success, with participants leaving inspired and enriched by the experience.

Two days' Symposium on **“VTECK SPARK”** was conducted from 27.03.2024 to 28.03.2024

The Department of Electronics and Communication Engineering at Vel Tech Rangarajan Dr. Sagunthala R & D Institute of Science and Technology successfully organized a two-days technical symposium, VTECK SPARK 2K24, from 27th to 28th March, 2024. The event witnessed enthusiastic participation of 203 students from 17 colleges engaging in a variety of technical events such as PAPER PRISM , BRAIN BUSH ,CIRCUIT QUEST and CODE CARNIVAL and non-technical events such as PIXEL DRAMA, MEME MAZE ,PUZZLE PLAY GROUND,POSTER PALACE and PROMO PULSE activities designed to foster innovation, creativity, and technical acumen. The symposium commenced with a grand inauguration ceremony, featuring esteemed guests Ts Dr. SUNDRESAN PERUMAL, Professor from Director of the University Centre for Entrepreneurship (UCE),Universiti Sains Islam Malaysia, Malaysia and four technical juries from our sister concern institution The keynote address highlighted the importance of technical symposia in bridging the gap between theoretical knowledge and practical application. The dignitaries emphasized the role of such events in enhancing the overall educational experience. VTECK SPARK 2K24 concluded with a valedictory ceremony where the winners of various events were awarded certificates and prizes. The symposium provided an excellent platform for students to showcase their technical skills, creativity, and teamwork. The event was a resounding success, fostering a spirit of innovation and collaboration among the participants.

STUDENT ACHIEVEMENTS

The department offers a variety of platforms for the students to take part in numerous technical festivals, sporting competitions, and cultural events. Our students took part in the following events and brought honour to our department.

Vel Tech Students at Galgotias University DRIVANI - Prototype

Team: YUKTI WIZARDS
Team ID: 6514
Idea ID: 9932
PS ID: SIH1406

Deepak Pandey has secured second place and cash prize of Rs 2000/- for ROBO SHOW of Technovista'23 organised by Sri Eshwar College of Engineering on 8th & 9th September 2023.

FACULTY ACHIEVEMENTS

NPTEL APRIL / MAY 2024

Congratulations for our department faculty being awarded as Elite Gold, Elite Silver and Successfully Completed in various NPTEL Courses offered by IITs.

Sl.No.	TTS No.	Name of the faculty	NPTEL Course title	Duration	Score	Category
1	2637	Dr.Diana Earshia V	Machine learning for soil and crop management	12	75	Elite with Silver
2	3568	Dr.A.Rosi	Introduction to industry 4.0 and industrial internet of things	12	65	Elite
3	3547	Dr. Ashwini A	Introduction To Industry 4.0 And Industrial Internet Of Things	12	79%	Elite with Silver
4	3564	Dr. M. Sathesh	Introduction to Industry 4.0 and Industrial Internet of Things	12	75	Elite with Silver
5	2198	Dr.S.Shiyamala	Teaching And Learning in Engineering (TALE)	4	51	Successfully completed
6	3598	Dr. Ezhil E.Nithila	Introduction To Industry 4.0 And Industrial Internet Of Things	12	75	Elite with Silver
7	3343	Dr. Dasari Naga Vinod	Introduction to Internet of Things	12	79%	Elite with Silver
8	3409	Dr.G.Annalakshmi	Remote Sensing and GIS for rural development	12	73	Elite
9	1851	C Ambika Bhuvaneswari	Blockchain and its Applications	12	66	Elite
10	2737	Dr S Jana	Fuzzy Sets, Logic and Systems & Applications	12	98	Elite with Gold
11	3330	Dr.S.Thenappan	Sensors and Actuators	12	49	Successfully completed
12	2917	Dr.N.Herald Anantha Rufus	Introduction to Internet of Things	12	86%	Elite with Silver
13	3298	Dr.Helina Rajini Suresh	Python for Data Science	4	81	Elite with Silver
14	2917	Dr.N.Herald Anantha Rufus	The Joy of Computing using Python	12	64%	Elite
15	3620	D Preethi	Design, Technology and Innovation	8	72	Elite
16	3563	Dr.Nalini.N	Introduction To Industry 4.0 And Industrial Internet Of Things	8	67	Elite
17	3620	D Preethi	To Industry 4.0 And Industrial Internet Of Things	12	77	Elite with Silver
18	3597	Dr.V.Gnanaprakash	Introduction To Industry 4.0 And Industrial Internet of Things	12	77	Elite with Silver
19	2719	Dr.J.Mohanraj	NBA Accreditation and Teaching-Learning in Engineering (NATE)	12	64	Elite
20	3332	Subha K J	Fuzzy Sets, Logic and Systems & Applications	12	93%	Elite with Gold
21	3552	Dr.K.Anish Pon Yamini	Introduction to Internet of Things	12	85	Elite with Silver
22	3501	Dr. K. A. Karthigeyan	Semiconductor Device Modeling and Simulation	12	50	Successfully completed
23	3364	Dr. Koushick Venkatesh	Privacy and Security in Online Social Media	12	58	Successfully completed
24	2812	M.Pandiyarajan	Biomedical Signal Processing	12	60	Elite
25	3621	Dr.D.Muthukumaran	Intellectual Property	12	61	Elite
26	2782	Dr. K. Sambath Kumar	Data science for Engineers	8	64	Elite
27	3619	Dr.R.Remya	Machine learning for soil and crop management	12	65	Elite
28	3536	Dr. Uganya G	Natural Language Processing	12	55%	Successfully completed
29	3536	Dr. Uganya G	Python for Data Science	4	68%	Elite
30	3589	Dr.D.Ferlin Deva Shahila	Introduction To Industry 4.0 And Industrial Internet Of Things	12	65	Elite
31	2716	Dr.N.Vinodhkumar	NBA Accreditation and Teaching and Learning in Engineering (NATE)	12	77	Elite with Silver

Sl.No.	TTS No.	Name of the faculty	NPTEL Course title	Duration	Score	Category
32	3186	Dr. M.Anto Bennet	Natural Language Processing	12	54	Successfully completed
33	3538	Dr.Sahaya Sheela.M	Natural Language Processing	12	61	Elite
34	3538	Dr.Sahaya Sheela.M	Python for Data Science	4	73	Elite
35	2805	Dr.T.Kanimozhi	Data Science for Engineers	8	60	Elite

CLUB ACTIVITIES

PROGRAMMING CLUB:

1. PY-VELS2024 Contest -II Years: 24th February 2024:

This contest is scheduled only for second-year students of Electronics and Communication Engineering in a view to spike their interest in this tool. This contest enhances the student’s interest in Python programming.

The contest had two stages; the first stage is a prelim where all the students were asked to answer 20 MCQ-based questions conducted through online Quiz. A total of 32 students attended the prelims. The top 10 participants were selected from the prelims and they were invited to participate in the mains in the same day. The main event consists of 4 problems for which the students have to find the solution through Python code. The top three students were rewarded with a winner & runners certificate along with cash prizes are distributed during the valedictory function held on 25th March 2024 whereas the other remaining students were given a participation certificate.

2. MATWAR2024 -III Years: 12th March 2024:

This contest is scheduled only for third-year students of Electronics and Communication Engineering in a view to spike their interest in Matlab tool. It also enhances the student's programming interest in Matlab.

The contest had two stages; the first stage is a prelim where all the students were asked to answer 20 MCQ-based questions conducted through online Quiz. A total of 26 students attended the prelims. The top 8 participants were selected from the prelims and they were invited to participate in the mains in the same day. The main event consists of 4 problems for which the students have to find the solution through Matlab code. The top three students were rewarded with a winner & runners certificate along with cash prizes are distributed during the valedictory function held on 25th March 2024 whereas the other remaining students were given a participation certificate.

ACE Club

POPPER- A Journey of Growth and Resilience

Popper is an engaging non-technical event specially crafted for the students of the 2nd, 3rd, and 4th years of the Electronics and Communication Engineering (ECE) department. Scheduled for the 27th of January 2024, Popper serves as a platform to foster concentration and enhance mental strength among participants through four exciting rounds of challenges.

Round 1: Ping pong catch

In this round, participants demonstrate their agility and hand-eye coordination by catching ping pong balls thrown at varying speeds and trajectories. The objective is to catch as many balls as possible within a stipulated time frame. This game not only tests physical reflexes but also demands acute focus and quick decision-making under pressure.

Round 2: Tongue Twister

The Tongue Twister round puts participants' linguistic skills and composure to the test. Participants are tasked with articulating complex phrases or sentences known for their tongue-twisting nature. The challenge lies in enunciating each word clearly and swiftly despite the intricate arrangement of sounds and syllables. This round not only entertains but also hones participants' pronunciation and mental dexterity.

Round 3: Balloon Bounce

Balloon Bounce injects an element of unpredictability and excitement into the event. Participants must keep a balloon aloft using only their hands, preventing it from touching the ground. The catch? The balloon's erratic movements and susceptibility to bursts add an element of urgency and thrill to the task. Success in this round relies on participants' ability to maintain focus amidst the chaos and adapt quickly to changing circumstances.

Round 4: Movement Dice

The final round, Movement Using Dice, introduces an element of chance and strategy. Participants roll dice to determine the number of steps they can take on a designated path or grid. The challenge lies in making calculated decisions to maximize progress while navigating obstacles and pitfalls. This round encourages participants to think critically, plan strategically, and maintain composure in the face of uncertainty.

Blaze - Igniting the Flames of Resilience and Unity

Blaze emerges as a dynamic non-technical event, meticulously designed for the 2nd, 3rd, and 4th-year students of the Electronics and Communication Engineering (ECE) department. Scheduled for the 10th of February 2024, Blaze ignites the spirit of camaraderie and personal growth through four captivating rounds, tailored to cultivate confidence and alleviate stress among participants

Round 1: Marble Count

In the Marble Count round, teams employ precision and teamwork to estimate the number of marbles contained within a transparent container. With a limited time, frame, teams strategize and employ various techniques to approximate the quantity accurately. This challenge not only sharpens mathematical skills but also fosters effective communication and collaboration within the team.

Round 2: Bingo

Bingo injects an element of excitement and anticipation into the event. Participants engage in a classic game of Bingo, where they must mark off numbers on their grid as they are called out by the moderator. The objective is to achieve a predetermined pattern on the grid before competing teams. This round not only encourages quick thinking and attentiveness but also provides a welcome respite from academic pressures.

Round 3: Two Truths One Lie

The Two Truths One Lie round invites participants to unravel the mysteries hidden within their teammates' statements. Each team member takes turns

sharing two truths and one falsehood about themselves, while their partner attempts to discern the lie. This round not only strengthens interpersonal bonds but also encourages participants to trust their instincts and communicate effectively amidst light-hearted banter.

Round 4: Dice Tower

The final round, Dice Tower, challenges teams to construct a sturdy tower using dice as building blocks. With limited resources and time constraints, teams must collaborate to design and assemble a tower capable of withstanding the whims of gravity. This round fosters creativity, problem-solving skills, and resilience in the face of unexpected obstacles—a fitting conclusion to the day's festivities.

ROBOTICS CLUB:

ROBOEXPO2024

The contest titled “Robo Expo 2024” which is the first event by Robotics Club of ECE department during winter semester of the Academic year 2023-2024. This event is to design a Robot using their own components and exhibit their innovation during the contest titled “Robo Expo 2024” which was conducted in Room No.1524 at 3.30 PM onwards. The participants may expect to come with your own laptop for Simulation type project as working model Hardware prototype Working model of your theme. The participated projects were evaluated by Dr. S. Thenappan, Assistant professor / ECE on that day as an expert Member. As active participants of 13 Members attended and the eminent jury has selected the winners.

The winners' details are as follows:

I PRIZE 24576 Navinsurriya.K

II PRIZE 20802 K.Venkatapardeep

III PRIZE 21007 Priyansi

R TEMPOR

The contest titled “R-TEMPOR 2024” which is the first event by Robotics Club of ECE department during winter semester of the Academic year 2023-2024. The department of ECE, Robotics club organizing this final event for the academic year 2023-2024-Winter semester: “R- TEMPOR” - A Student’s Skills - Contest. This contest is to design a power point presentation on the following Topics : HUMANOID ROBOTS, AUTONOMOUS ROBOTS, INDUSTRIAL ROBOTS, AGRICULTURAL ROBOTS, DOMESTIC ROBOTS, MACHINE LEARNING IN ROBOTICS, HEALTH CARE ROBOTICS, AI FOR ROBOT MANIPULATORS.. Then they have to upload their PPT during their contest registration. Then the participant has to present their topic on 15.03.2024 at the venue: Smart Class Room No1524. The participated presentation were evaluated by Dr.Beulah Jackson, Associate professor / ECE on that day as an expert Member.The certificates of participation may distribute later. The winners will be awarded Cash prizes during ECE clubs Valedictory function at the end of March 2024. As active participants of 10 Members attended the contest and the eminent jury has selected the winners.

The winners’ details are as follows:

- I PRIZE 20740 Abhiraj Kumar Singhj
- II PRIZE 23397 C.Lingeshwar Reddy
- III PRIZE 20488 A. Devendara Reddy

IEEE SIGNAL PROCESSING SOCIETY STUDENT BRANCH CHAPTER

EVENT

Swearing in Ceremony:

Office Bearers of 2024 IEEE Signal Processing Society Student Branch Chapter, Vel Tech &

A Seminar on "Campus to Career: IEEE's Influence on Your Professional Path"

On 02.02.24, the Department of ECE in association with IEEE Student Branch and IEEE Signal Processing Society Student Branch Chapter of Vel Tech organized the **Swearing in Ceremony: Office Bearers of 2024 IEEE Signal Processing Society** and a seminar titled "**Campus to Career: IEEE's Influence on Your Professional Path**" from 10:00 to 12:30 PM.

Quizzzen

Quizzzen on the 22nd of February 2024. The event unfolded in three rounds, spanning from 10:30 AM to 12:30 PM. The event's commencement involved the first round featuring Multiple-Choice Questions (MCQs), in which a total of 14 batches, each comprising two students, actively participated. Following this, the top 10 batches were selected to progress to the second round, titled "Connecting the Words." This round tested participants' knowledge of technical terms by requiring them to identify the pictures displayed. Finally, the event narrowed down to the last round, "Puzzle Solving," where the top 6 batches solved questions that demanded logical and critical thinking. In essence, Quizzzen provided an outstanding platform for students to enhance their understanding of technical and general knowledge, fostering improvement in problem-solving skills crucial for professional growth. The active participation and success of the event reflected the enthusiasm and knowledge-sharing spirit among the students.

IEEE COMMUNICATIONS SOCIETY STUDENT BRANCH CHAPTER

EVENT

Swearing-in Ceremony:

Office Bearers of 2024 IEEE Communications Society Student Branch Chapter, Vel Tech

On 01.02.24, the Department of ECE in association with IEEE Student Branch and IEEE Communications Society Student Branch Chapter of Vel Tech organized the Swearing in Ceremony: Office Bearers of 2024 IEEE Communications Society from 10:00 to 11.30 PM.

The release of the 2023 Newsletter of the IEEE Communications Society Student Branch Chapter at Vel Tech and the induction of the 2024 Office Bearers of IEEE Communications Society. And taken a group photo with 2023 Newsletter. Presented an AV about events that conducted in 2023. Dr. S. Radha, the guest speaker, took the stage, providing a comprehensive overview of IEEE and its various societies. She emphasized the numerous advantages of IEEE membership for students, discussing the importance of participation in events, publishing conference papers and journals, and the rewards and project funds available to IEEE members.

IEEE CIRCUITS AND SYSTEMS SOCIETY STUDENT BRANCH CHAPTER EVENT

EVENT

Swearing-in Ceremony of 2024 Office Bearers of IEEE CAS Student Branch Chapter & Technical Talk on “Opportunities of AI in Electronic Systems Design”

The School of Electrical & Communication, Department of Electronics and Communication Engineering, in collaboration with IEEE Circuits and Systems Society, Madras Chapter, IEEE Student Branch, Vel Tech, and IEEE Circuits and Systems Society Student Branch Chapter, Vel Tech, proudly organized the Swearing-in Ceremony of the 2024 Office Bearers of IEEE CAS Student Branch Chapter and a Technical Talk on "Opportunities of AI in Electronic Systems Design." The event was held on 10th January 2024 at ECE Gallery Hall. The CY 2023 Newsletter of IEEE CAS, SBC, Vel Tech, was unveiled, showcasing the chapter's activities and accomplishments. The 2024 office bearers of IEEE CAS SBC, Vel Tech, were officially inducted into their roles, symbolizing a new chapter in the organization's journey. **Dr. G. Sai Narayanan**, Technology Director, HCL, Chennai, delivered an insightful technical talk on "Opportunities of AI in Electronic Systems Design," shedding light on the intersection of AI and electronic systems.

Mascot Design Contest: Uniting Art and Technology

On February 10, 2024, the School of Electrical and Communication, in collaboration with the Department of Electronics & Communication Engineering, IEEE Circuits and Systems Society, Madras Section Chapter, IEEE Student Branch, Vel Tech, and IEEE Circuits and Systems Society SBC, Vel Tech, orchestrated an engaging and innovative "Mascot Design Contest" held at Room 1522. Spanning from 2:15 pm to 3:45 pm, the event aimed to synergize art and technology by inviting participants to conceptualize and craft mascots encapsulating themes ranging from Tech superheroes to Energy Saviour. This unique initiative sought to stimulate creativity, foster collaboration, and celebrate the fusion of artistic expression with technological innovation within the academic community. Under the astute guidance of faculty coordinators Dr. P. Kalpana Devi and Dr. Rahul S G, along with student coordinators Mr. P. Dileep Kumar and Ms. Valli Sri Subrahmanyeswari, teams of enthusiastic students immersed themselves in the creative process, channeling their imagination and technical acumen to breathe life into their mascot designs. Armed with pencils, sketchpads, and innovative ideas, participants embarked on a journey of exploration, seeking to capture the essence of their chosen themes and translate them into captivating visual representations. The contest elicited a remarkable array of mascot designs, each showcasing the unique perspectives and creative ingenuity of its creators.

From futuristic tech superheroes adorned with sleek metallic armor to whimsical space explorers venturing into the unknown cosmos, the diversity and imagination displayed in the designs were truly awe-inspiring. Moreover, mascots advocating for environmental conservation and sustainability, adorned with symbols of greenery and renewable energy sources, underscored the participants' awareness of pressing global issues and their commitment to driving positive change through their art. The climax of the event was the judging process, where a distinguished panel of faculty members meticulously evaluated each mascot design based on criteria such as creativity, relevance to the theme, and artistic merit. The atmosphere buzzed with anticipation as participants eagerly presented their creations, articulating the inspiration behind their designs and the symbolism embedded within them. The judges, impressed by the depth of thought and artistic craftsmanship evident in the designs, faced the task of selecting the most outstanding entries among the multitude of impressive submissions.

Tech Hustle

On February 24th 2024, Tech Hustle was a technical event organized by the Department of ECE in association with the Engineers Without Borders (EWB) Student Chapter, IEEE Circuits & Systems Society, Madras Chapter and IEEE Circuits & Systems Society Student Branch Chapter of Vel Tech to share innovation and technical skills among students. The event comprised three rounds designed to challenge and engage participants in various aspects of technology and circuitry. The first round began with a briefing session explaining the rules and objectives. Teams were presented with a series of images projected onto a screen. Participants had a limited time to observe the images and discuss among themselves to identify the connections. Teams then presented their interpretations and the names associated with the connected images. Judges evaluated the responses based on accuracy, creativity, and clarity of explanation. The "Connect Round" generated enthusiastic participation and showcased the student's ability to think critically and make connections. It provided a platform for students to communicate effectively and showcase their problem-solving skills. In Round Two, Participants were briefed on the rules and objectives of the event. Each team selected a question sheet containing a circuit name. Teams analyzed the circuit names and identified the components required to build the circuits described. Participants drew the circuits based on their interpretations, indicating the placement and connections of components. Judges evaluated the accuracy and completeness of the drawn circuits, considering the correct identification of components and adherence to circuit specifications. The "identification of components Round" assesses the participant's understanding of electronic components and their functions. And promote hands-on learning and practical application of circuit design concepts. Participants were briefed on the presentation guidelines and evaluation criteria. In round 2, Each team presented their circuit design, explaining the purpose, functionality, and components used. Judges evaluated the presentations based on criteria such as technical accuracy, clarity of explanation, creativity, and overall presentation effectiveness. Following each presentation, there was a brief Q&A session where judges and audience members could ask questions and seek clarifications. The "Circuit Presentation Round" showcased participants' ability to translate their component identification skills into practical circuit designs. Participants demonstrated creativity and innovation in their circuit presentations, incorporating advanced techniques Through these events, participants not only showcased their ability to identify patterns, solve problems, and design circuits but also demonstrated effective collaboration, communication, and presentation skills.

EVENT

Inauguration of IEEE Industrial Electronics Society Student Branch Chapter

The prestigious event took place on 9th January 2024 at the ECE Gallery Hall. The ceremony commenced with the solemn Invocation and Lighting of the Lamp by the esteemed Chief Guest, **Dr. M.Arun**, Chairman of IEEE Industrial Electronics Society, Madras Chapter, and all other dignitaries present. The preceding the Swearing-in Ceremony of the Office Bearers of IEEE IES SBC, Vel Tech. The honor of administering the oath was bestowed upon **Dr. M. Arun**, who is also a Professor in the Department of Embedded Technology at the School of Electronics Engineering (SENSE), Vellore Institute of Technology, Vellore. Dr. Arun, the Chief Guest, delivered an enlightening talk on **"Edge Computing IoT: Challenges & Strategic Solutions."** He underscored the significance of Edge Computing in enabling faster decision-making, particularly in applications requiring low latency, such as autonomous vehicles, healthcare monitoring, and smart infrastructure.

Tech Grid Challenge

The **"Tech Grid Challenge"** is an engaging technical crossword puzzle designed to test participants' knowledge and proficiency in various areas of technology. This crossword features a grid of interconnected squares, each containing clues related to different aspects of technology, such as General Knowledge, electronic components, etc.,. Participants must fill in the grid with the correct words or phrases based on the provided clues, demonstrating their understanding and problem-solving skills within a constrained space. This challenge serves as both an entertaining pastime and an educational tool for enhancing technical vocabulary and comprehension in the field of technology.

A total of 30 participants have registered and taken part in the event on 15.02.2024 from 11.30 am to 12.45 pm at smart classroom no 1524. The participants were given a total duration of 45 minutes to solve the puzzle.

The winners of the event are
 A.Vishnu VTU24177 - II year
 V.Haarish VTU23768 – II year

Design Discovery Challenge

The **"Design Discovery Challenge"** is an exciting poster design contest facilitated through Canva, focusing on predetermined themes. Participants are tasked with identifying pertinent societal or environmental issues within these themes and creatively presenting their solutions through captivating poster designs. Utilizing Canva's user-friendly tools, contestants craft visually compelling posters that effectively communicate their proposed solutions. In the final phase, participants showcase their poster designs and articulate their ideas during presentations. This challenge cultivates problem-solving skills, design proficiency, and presentation abilities, fostering innovation and social consciousness among participants in a dynamic and engaging format.

The winners of the event are
First Place:
 P. Venkata Balaji VTU 23792 – II year
 K. Bhanu Prakash VTU 23396 – II year
Second Place:
 Ch.Venu Madhav VTU20729 – III year
 P. Rahul VTU21116 – III year

A total of 40 participants have registered and taken part in the event on 24.02.2024 from 02.00 pm to 04.30 pm at Conceive Space room no 1411. The participants were given a total duration of 2 hours 30 minutes to design solutions for the problems on the given themes and explain their poster.

Outreach Programme – Visit to Government High School, Veerapuram, Avadi

On March 1, 2024, the Department of Electronics & Communication Engineering, in association with the IEEE Circuits and Systems Society - Madras Chapter, IEEE Professional Communication Society - Madras Chapter, IEEE SIGHT Group - Madras Section, and IEEE CAS, IEEE SPS, IEEE ComSoc & IEEE IES - Student Branch Chapters of Vel Tech, conducted an Outreach Programme at Government High School, Veerapuram, Avadi. The event aimed to inspire and educate young minds about the possibilities in the field of Electrical and Communication Engineering. The programme commenced at 9:30 am with an engaging session led by 20 IEEE Student members and four faculty advisors of Dr. Rahul S G - IEEE SPS, Dr. C. Kanmani Pappa - IEEE ComSoC, Dr. P. Kalpana Devi - IEEE CAS, and Dr. R. Rajkumar - IEEE IES from the Department of ECE Vel Tech. The team interacted with the students of class 9 of both Tamil and English medium, covering topics such as IoT concepts like basics of processors, sensors, actuator controllers and technologies such as Augmented Reality, Virtual Reality, and Ethical Hacking, and demonstrated some simple IoT working project models like an accelerometer connected to a dashboard, Tinkercad, image acquisition, hacking the user interface etc. Additionally, the team conducted a drawing competition on the theme of "Nature" where the best drawings were rewarded. Under the guidance of faculty advisors, the interactive sessions sparked enthusiasm and curiosity among the young minds, as they participated in discussions and hands-on activities. The Outreach Programme was not only a learning experience for the school students but also a rewarding opportunity for the Vel Tech IEEE student members to inspire and mentor the next generation of engineers. Through this initiative, the organizers aimed to ignite a passion for engineering and technology, paving the way for a brighter and more innovative future. The event concluded successfully, thanks to the collaborative efforts of the organizers, faculty members of the school, and the IEEE community. This Outreach Programme serves as a beacon of inspiration, guiding towards a future where knowledge, innovation, and community engagement go hand in hand.

Project Expo NEXUS 2K24

The "Project Expo NEXUS 2k24" organized by the Department of Electronics and Communication Engineering, School of Electrical & Communication, Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology in association with **IEEE Madras Section, IEEE CAS, IEEE ProCom & IEEE VTS - Madras Chapters, IEEE SPS, IEEE ComSoc, IEEE CAS, IEEE IES – Student Branch**

Chapters, Vel Tech, marked a culmination of months of hard work, dedication, and innovation on 20.03.2024. The event aimed to showcase the outcomes of extensive planning and preparation, resulting in a gathering of notable projects and participants. The journey commenced with meticulous planning, including brochure creation, media outreach, registration, and abstract submissions. With overwhelming participation, 130 project abstracts were received, and after careful evaluation, 70 projects were selected for participation.

The projects were evaluated by a panel of four jurors leading to the recognition of outstanding contributions:

- Dr. P. Sivashankar, Professor, Department of Electrical Electronics and Communication Engineering, National Institute of Technical Teachers Training and Research, Chennai.
- Dr. M. Moorthi, Professor & Head, Department of Medical Electronics, Saveetha Engineering College, Chennai.
- Dr. V. Vydeki, Professor, Department of ECE, Vellore Institute of Technology, Chennai.
- Mr. Anish Kumar, Director-Aadhy Skills Research & Development, Chennai.

A total of 39 project batches were present at the event, comprising 28 external batches and 11 internal batches affiliated with Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology. The participation extended to 116 individuals, including 88 external participants and 28 internal participants. This diverse mix of external and internal contributors reflected the broad engagement and collaborative spirit of the occasion. After extensive evaluation, the prize winners announced are:

- **1st Prize:** KPR Institute of Engineering and Technology, Coimbatore (INR 15,000)
- **2nd Prize (2 nos.):**
 - St. Joseph's Institute of Technology, Chennai (INR 10,000)
 - Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology, Chennai (INR 10,000)
- **3rd Prize (2 nos.):**
 - S. A. Engineering College, Chennai (INR 7,500)
 - SRM Institute of Science and Technology, Chennai (INR 7,500)
- **Special Prizes (6 nos):** Each recipient is awarded INR 1,000.

Valedictory Ceremony for IEEE Student Branch Chapter Activities

The Valedictory Ceremony for IEEE Student Branch Chapter Activities organized by the School of Electrical & Communication, Department of Electronics and Communication Engineering in association with IEEE SPS, IEEE ComSoc, IEEE CAS, IEEE IES – Student Branch Chapters, Vel Tech, was held on March 28, 2024. The event aimed to acknowledge and celebrate the achievements and contributions of the IEEE Student Branch Chapters. The Valedictory Ceremony served as a platform to acknowledge and celebrate the accomplishments of the IEEE Student Branch Chapters while fostering a spirit of innovation, collaboration, and excellence within the academic community.

ACHIEVEMENTS - FUNDING/REWARDS FROM IEEE

The Electronics and Communication Engineering (ECE) department is proud to announce the successful acquisition of three grants from prestigious IEEE societies for the academic year WS2023-2024.

FACULTY ACHIEVEMENTS:

1. IEEE Communications Society – 4354 USD Grant

Dr. T. Kavitha, Professor, and Dr. C. Kanmani Pappa, Associate Professor from the ECE department, have received a generous grant of 4354 USD from the IEEE Communications Society. This grant will facilitate organising a **students' workshop titled "Artificial Intelligence for Sustainable 5G/6G Networks"**. The workshop will take place in September 2024. It will focus on the application of artificial intelligence in the development and sustainability of next-generation networks, offering participants a unique perspective on this rapidly evolving field.

2. IEEE Signal Processing Society – 3000 USD Grant

Dr. S. Jana, Professor, **Dr. R. Rajkumar**, Associate Professor, Dr. Rahul S G, Assistant Professor, and **Ms. Subha K J**, Assistant Professor from the ECE department, have collectively secured a grant of **3000 USD** from the IEEE Signal Processing Society. The grant will support the organization of an **IEEE SPS Seasonal School on "Exploring Quantum Signal Processing: Core Principles to Applications."** This event, tentatively planned for the first week of July 2024, will explore the fundamental aspects of quantum signal processing and its applications, providing attendees with valuable insights into this emerging technology.

3. IEEE Circuits and Systems Society – 4000 USD Grant

Dr. P. Kalpana Devi, Associate Professor from the ECE department, has received approval for a 2000 USD grant from the IEEE Circuits and Systems Society. This grant will be used to host a **Distinguished Lecture Program (DLP)** featuring an in-person visit by **Prof. Harikrishnan Ramiah from the University of Malaysia** in the month of August 2024. The IEEE CAS Society will reimburse all expenses related to the Distinguished Lecturer's visit.

Dr. G. Sasikala, Professor from the ECE department, has received approval for a **2000 USD** grant from the IEEE Circuits and Systems Society. This grant will be used to host a **Distinguished Lecture Program (DLP)** featuring an in-person visit by **Prof. Sameer Sonkusale, Professor, Tufts University, USA** in the month of August 2024. The IEEE CAS Society will reimburse all expenses related to the Distinguished Lecturer's visit.

4. Elevated to Senior Member grade

1. Dr.R.S.Valarmathi , Dean SoEC
2. Dr.P.Kalpana Devi ,Associate Professor
3. Dr.Ezhilagan, Assistant Professor

STUDENT ACHIEVEMENTS:

1. **Ms. Valli Sri Subrahmanyeswari (VTU23626)**, a student of Second year ECE Department has been selected to receive the **2024 IEEE System Council Engineering Undergraduate Scholarship** amount of 5000 USD (Rs.4,16,855/-) and a certificate for her excellence in Academics (9.7 CGPA) and her involvement in all IEEE activities of Vel Tech.
2. The 3rd year Students of the ECE team titled "Team Challengers" has won Fourth place in the IEEE Industrial Electronics Society's Global Generative AI Challenge Contest organised by IEEE IES Headquarters.

Project Title:

Annotation-guided anomaly-specific GANs for AMD Image Augmentation.

Project Mentor:

Dr. Raja C, Associate Professor, ECE

Student Team:

B. Saketh Reddy (vtu20908)

N. Vishnu Sai (vtu20854)

A. Lokesh (vtu20903)

IETE SOCIETY STUDENT BRANCH CHAPTER EVENT

POSTER MAKING & LOGO DESIGN CONTEST

The "Poster Making & Logo Design Contest," organized by the Department of Electronics and Communication Engineering in association with the IETE Students Forum, was held on the 10th of February 2024 at the ECE Gallery Hall (1601). This event aimed to provide a platform for students to showcase their creativity and design skills. The event commenced promptly at 10:00 am with a warm welcome extended to all participants and attendees. A total of 71 students were registered and 44 students attended the contest. Throughout the day, the venue transformed into a hub of creativity, with participants exchanging ideas, techniques, and inspiration. The event not only provided a platform for artistic expression but also fostered a sense of camaraderie among participants, promoting collaboration and mutual support. As the deadline for submission approached, a sense of accomplishment filled the room as participants proudly presented their finished creations. A panel of esteemed judges of faculty members meticulously evaluated each submission based on creativity, originality, and adherence to the given themes. After careful deliberation, winners were selected across various categories, and prizes were awarded to deserving participants.

Two Days Technical Symposium “AAVISHKAR 2K24”

The “AAVISHKAR 2K24” Technical Symposium organized by the Department of Electronics and Communication Engineering in association with the IETE Students Forum, was held on the 28th and 29th February 2024 at the ECE Gallery Hall (1601). The symposium aimed to provide a platform for students to exhibit their skills, exchange knowledge, and foster innovation in the realm of technology and beyond. A total of 159 students registered and actively participated in the symposium, showcasing their talents and skills across various events. The Paper Presentation event saw innovative research papers being presented, with the top papers recognized for their contribution to advancing knowledge in the field. In the Web Wizardza coding event, participants demonstrated exceptional coding skills, with the most innovative and efficient solutions earning accolades. The Error Epic (Debugging) challenge tested participants' ability to troubleshoot technical issues, with the fastest and most accurate solutions rewarded. Mindmaze (Quiz) showcased the participants' breadth of knowledge across technology domains, with the top performers acknowledged for their expertise. In the non-technical events, Pixel Party (Photography) celebrated visual storytelling, with prizes awarded for the most compelling narratives captured through the lens. The Short Film Contest recognized creativity and storytelling prowess, with winning films captivating the audience with their originality. Enigma (Connections) challenged participants' critical thinking, with the most adept solvers receiving recognition for their ability to unravel complex puzzles. Winners were selected across various categories, and prizes were awarded to deserving participants. Overall, AAVISHKAR 2K24 was a resounding success, with participants leaving inspired and enriched by the experience.

PLACEMENT

The ECE final year students are placed in different Core and Software companies are listed below

S.No	VTU No	STUDENT NAME	PACKAGE	COMPANY NAME	IT/Core
1.	17636	Meghana Somineni	6.5	Kaar Technologies	IT
