# Employability Assessments

---

To enable students to enhance their knowledge and skills in line with the industry standards, we leveraged the CoCubes assessment, which helped us evaluate their aptitude and technical strengths.

---

## CoCubes Employability Assessment I - 2026 YOP

CoCubes assessment was rolled out to 380 of our budding Engineers on 3<sup>rd</sup> May 2025, to get a hold of “work readiness” in terms of Knowledge, Skills and Abilities. This assessment helped students to identify their strengths and areas of improvement in a structured and objective manner.

# Employability Enhancement Training

Employability Enhancement Training equips students with essential soft skills, communication abilities, and industry-relevant knowledge to boost their job readiness. This program focuses on improving interview performance, resume building, and overall workplace competence.

## Kaar Technologies Preparatory GD and PI Sessions

Focused interview preparation sessions were organized for 57 shortlisted students from the 2026 batch of the CSE, ECE, and IT departments for Kaar Technologies. The sessions took place on the 6<sup>th</sup>, 12<sup>th</sup> and 14<sup>th</sup> of May 2025 and included practice interviews, technical reviews, and communication exercises to help students better align with the company's expectations.

As part of the preparation, practice group discussions were held to improve students' communication, critical thinking and articulation. These sessions simulated real interview settings and guided them in presenting ideas clearly and confidently.
