## 6. Founder's Message

My most respected VEL TECH FACULTY,

Greetings. As per the statement in our earlier version of logo, you should have 3V formula viz **THE VISION, THE VIRTUES, and THE VENTURES**. First dream about implementable vision, prepare yourself with virtues, and then dedicate yourself to attain your vision with vigorous ventures. In addition have 3C measures, that is. CCC - **CRITICISE** for upliftment, **COMPLAIN** about mistakes, and **CONDEMN** the bad actions of my VEL TECH students so as to make them industry-ready employees and /or bright entrepreneur to offer employment to many. Encourage all students to meet the current challenges and mould them to make their dreams a reality. Students will always remember in their life times the names of intelligently committed teachers; otherwise they will remember you with a nick name and laugh.

PS: Your reply with constructive comments through WhatsApp & Email is highly Appreciated
