M.Sc. Maths ADMISSIONS OPEN 2024

Eligibility:
B.Sc. degree in
Mathematics discipline
with a minimum
aggregate score of 50%
marks

Overview

The Department of Mathematics was established in 1997. The department offers M.Sc. (Maths) and Ph.D. programmes in diverse emerging research areas. It trains PG students and helps them explore their knowledge by involving them in intensive research projects and industrial internships. Every semester, the department organizes Faculty Development Programmes (FDP) to update the knowledge of the faculty on recent trends.

About the program

The M.Sc. Programme in Mathematics started in the academic year 2020-21 with a maximum intake of 30 students. The curriculum for the M.Sc. programme has been developed based on the UGC Model Curriculum and the syllabus for the UGC-NET Examination with a choice-based credit system. The programme is designed to serve as a certified qualification for both students aspiring for an autonomous degree and those intending to advance in the field of research. This course includes project work, which shall be carried out under the supervision of a qualified doctoral faculty, helping students enhance their application approach regarding the subject. The program trains the students for 100% placement opportunity. The wide range of courses in Algebra, Analysis, Geometry, Differential Equations, Fuzzy Set Theory, Stochastic Processes, Topology and Graph Theory provides essential perspectives on mathematical theories by combining general and modern concepts.

Fee Structure

Particulars	Amount in INR	
	1st year	2nd year
Application Free	400	...
Tuition Fee	10,000	10,000
Exam Fee	2,000	2,000
Caution Deposit (Refundable)	3,000	...
Total	15,000	12,000

Department Highlights

- Qualified and dedicated faculty with high research expertise.
- Extensive career guidance and life skills programmes
- Value added and certification programmes to boost the curriculum
- Extension activities beyond the curriculum
- Excellent placement guidances
- Industry internship for industry exposure
- Mandatory project credit course in final year
- Visit to IITs and other Universities for global events participation
