44.7 To discuss and approve the introduction of the Bucket System for elective courses under the Regulations VTR UGE 2021 from the summer semester of the Academic Year 2024-25.

The Vice Chancellor, placed it before the Academic Council the proposal of introduction of the Bucket System for elective courses under the Regulations VTR UGE 2021 from the summer semester of the Academic Year 2024-25. *S. Sahival*

Dr. A. T. Ravichandran, Professor & Dean Academics, presented a short note about the Bucket System for elective courses under the Regulations VTR UGE 2021 to be operative from the summer semester of the Academic Year 2024-25.

Summary Note:

Our institution has been following the Choice based Credit System, since 2015. The students are free to handpick the electives of their own choice. This enables students to tailor their learning journey, honing the skills and expertise as they desire across various specialized fields by adding courses one by one in the elective categories.

However, students are facing some minor issues like satisfying the pre-requisites before opting for a particular course, completing the courses before the 9 month+ internships in industries or in universities abroad, missing the registration of certain courses in the previous semester and trying to register them at a later stage etc.,

Moreover, the examination schedules are also unique for every student based on the courses he/she has registered and it may also be spaced either continuously or in non-periodic gaps extending till last day of the examination session.

To address these issues and to strengthen the CBCS, it is proposed to implement the bucket/basket system in the institution in line with the practice observed in other leading universities. Each bucket will have a set of mandatory foundation and programme specific courses along with supplemented by a range of elective options. All the buckets will have the same mandatory courses whereas the set of electives will differ and a student is free to choose any bucket/basket.

These buckets will be so designed that, if the student opts for a specific set of electives in one semester, they can advance to move specialized elective courses in subsequent semesters, ensuring a coherent and progressive academic journey.

This will enhance the better deliverability of courses right on the intended semesters and also will help the students to complete all the required courses before 6 month/ 9 month internships thereby maximizing their competency level for the professional world.

The members welcomed the proposal of introducing the bucket system of elective courses. **Dr Krishnan Baskar**, member opined that, the bucket system of elective courses would be much helpful in the effective implementation of CBCS.

Dr Sankaranarayanan, member suggested to conduct workshop to the faculty members to familiarise with the bucket system of elective courses and procedures there on while in offering the elective courses.

Dr. A. T. Ravichandran, Professor & Dean Academics, thanked the members for the suggestions and he assured to arrange workshop and training programmes to the HoDs and concerned faculty members to make them aware of the bucket system of elective courses for smooth implementation from the Academic year 2024-25.

44.8 To discuss the NAAC reforms with regard to implementation of Binary Accreditations system and Maturity Based Grading Accreditations (MBGA) in the place of present NAAC system of ranking Institution.

The Vice Chancellor, placed it before the Academic Council the NAAC reforms with regard to implementation of Binary Accreditation system and Maturity Based Grading Accreditation (MBGA) in the place of present NAAC system of ranking Institution in detail.

Dr. M. Rajeev Kumar, Professor & Dean - Quality Assurance, presented the NAAC reforms with regard to implementation of Binary Accreditations system and Maturity Based Grading Accreditations (MBGA) in the place of present NAAC system of ranking Institution.

Summary Note:

As per the National Education Policy (NEP) 2020, a committee has been constituted under the chairmanship of Dr. K. Radhakrishnan to submit the report on “Transformative Reforms for Strengthening Assessment and Accreditation of Higher Education Institutions in India”. The report which was submitted by the committee has been approved by the Ministry of Education on 16th January 2024. The salient features of the recommendations are;

Binary Accreditation (Either accredited or not accredited) rather than grades with an aim to encourage all the institutions to get on-boarding in the accreditation process thereby creating a quality culture in the higher education system. The binary accreditation is also in line with the best practices followed from many leading countries in the world.

Maturity-Based Graded Accreditation: Level 1 to 5 to encourage the Institutions to raise their bar, continually improve, evolve in-depth or in-breadth in disciplines from 'Level 1' to 'Level 4' as Institutions of National Excellence, and then to 'Level-5', i.e. Institutions of Global Excellence for Multi-Disciplinary Research and Education. The leveled accreditation shall enable Indian Institutions to significantly improve their quality and position themselves among global top institutions.

Based on Dr. K. Radhakrishnan's committee report, the Executive Committee of NAAC in its 104th meeting held on 27th January 2024 decided the following.

S. Selvaraj

The recommended reforms shall be implemented in two stages. In the first stage, the Binary accreditation will be implemented in the next four months and no new applications will be accepted as per the present methodology thereafter. Institutions that have applied and are applying in the next four months shall have the option to either go by the present process or by the new methodology of binary accreditation. The maturity-based graded levels will be implemented by December 2024.

Additionally, it aims to ensure the integrity and transparency of institutional data by centralizing it through a One Nation One Data Platform, serving various purposes such as approval, accreditation, and ranking.

Dr. M. Rajeev Kumar, Professor & Dean - Quality Assurance, moved that " NAAC reforms with regard to implementation of Binary Accreditations system and Maturity Based Grading Accreditations (MBGA) in the place of present NAAC system of ranking Institution.", be reported.

44.9 To discuss the Multiple Exit options for the students admitted under the Regulations VTR UGE 2021.

The Vice Chancellor, placed it before the Academic Council to discuss the Multiple Exit options for the students admitted under the Regulations VTR UGE 2021.

Dr. A. T. Ravichandran, Professor & Dean Academics, presented the proposal of Multiple Exit options for the students admitted under the Regulations VTR UGE 2021.

Dr Krishnan Baskar, member suggested that, the Certificate or Diploma shall be given to the students those who opted exit under the multiple exit system after ensuring their skill level and finishing school approach may also be considered to enable the students to meet the expectations of Industries.

Dr Sankaranarayananasamy, member suggested that the special training might be given to the students to enable them to acquire required skill and knowledge in the respective areas of study.

After elaborate discussions, the members accepted the proposal and suggested to evolve the implementation strategies of multiple exit before the implementation.

Dr. A. T. Ravichandran, Professor & Dean Academics, moved that "proposal of multiple exit options for the students admitted under the Regulations VTR UGE 2021 may be permitted to present again after evolving the implementation strategies".

Dr. M. Rajeev Kumar, Professor & Dean - Quality Assurance, seconded it.

The Vice Chancellor, placed it before the Academic Council the proposal of addition/reduction of intake in UG & PG programmes for the Academic Year 2024-25.

Dr. E. Kannan, Professor & Registrar, presented the proposal of addition/reduction of intake in UG & PG programmes for the Academic Year 2024-25.

Summary Note:

It is submitted that due to the increased demand for B.Tech. Computer Science and Engineering programme, the intake of students for this particular programme is increased from 1104 to 1320. The intake of students for B.Tech. Civil Engineering programme is reduced from 60 to 30 for the academic year 2024-25.

In the case of Post Graduate programmes, there is reduction from 18 to 12 for certain programmes viz (Aeronautical Engineering (Unmanned Aerial Vehicle), Big Data Analytics, Biotechnology, Computer Science & Engineering, Embedded Systems & Technologies, Information & Cyber Security and Power Electronics). Secondly due to the increased demand for the M.Tech. Industrial Safety & Engineering programme, the intake is increased from 18 to 36.

Lastly as the admission for M.Tech. Network Engineering programme is continuously less than the threshold number for the last few years, approval is sought for closure of the programme from 2024-25 onwards.
